two years on the techniques involved, and has written this illustrated step-by-step manual for anyone who has a telescope (of any size) and a digital camera. The color images he has produced – there are over 300 of them in the book – are of breathtaking quality. His book is more than a manual of techniques (including details of how to make a low-cost DIY camera mount) and examples; it also provides a concise photographic atlas of the whole of the nearside of the Moon – with every image made using a standard digital camera – and describes the various lunar features, including the sites of manned and robotic landings.

Supernova Hangover Emma Jones, 2018-06-28 Two girls meet on a train with a shared mission to have it all... Toots Silver, a young, local news reporter from the North West, lands in London with little more than her ambition. Against the odds, she talks her way into a dream job at a celebrity magazine, riding high on a new craving for showbiz gossip. The shimmering nightlife of Cool Britannia lures her into an exhilarating, twilight world – and an explosive affair with an A-list interviewee. But the comedown forces her to confront the soulless desires of her generation. In New York, she's on the trail of the defining exclusive of her age. But conflict erupts between personal integrity and journalistic ruthlessness – which might jeopardise the success that will secure her position in a looming post-millennial world. Can you live the high-life, without it getting you down?

Secret Lives of Children in the Digital Age Linda Laidlaw, Joanne O'Mara, Suzanna Wong, 2021-12-27 *Secret Lives of Children in the Digital Age: Disruptive Devices and Resourceful Learners* offers an examination of the impact on children, their families and their teachers, as digital technologies and new literacy practices have rapidly transformed how children learn, play and communicate. While ease of access to enormous knowledge bases presents many benefits and advantages, mobile screen technologies are often perceived by parents and teachers as disruptive and worrisome. Developed from a wide range of the authors' research over the past decade to an examination of remote learning during the COVID 19 pandemic, this book posits that while teachers, parents and governments are focused on protecting children, what is often neglected is children's own agency and capacity to engage with mobile technologies in ways that support them in pursuing their own interests, pleasures and learning. This

text works to disrupt boundaries in research, policy and practice, between home and school, and across virtual and actual worlds, positioning children as both users of media texts and coproducers of digitally mediated knowledge, with peers, family and teachers. Secret Lives of Children in the Digital Age brings together over a decade of shared research, conversations, writing and friendships across diverse geographies. Over the past decade, digital technologies have rapidly transformed how children learn, play and communicate. Tablet devices such as iPads are now ubiquitous in the lives of many children. Such devices are easy to use and provide multimodal options (i.e. operable via touch, speech, and icons, as well as conventional text). Users do not need to be conventionally literate to have access to powerful search engines, social media platforms, a range of ‘apps’ and games, or to be able to share their own creations on publication venues such as YouTube, TikTok and more. While such ease of access can present many benefits and advantages when positioned in relation to children’s use, but this access is not without concern, since mobile screen technologies are often perceived by parents and teachers as disruptive and worrisome, with popular media ramping up fears via publication of sensational articles. Secret Lives of Children in the Digital Age contributes to research on digital literacies, and offers a pedagogical examination of digital possibilities for bringing playfulness and innovation into learning. Perfect for courses such as: Introduction to Literacy Research | Qualitative Research Methods | Early Literacy | Research Methods in Language and Literacy | Introduction to Qualitative Research | New and Digital Literacies | Digital Media Education | Theories of Language and Literacy
