Volcano Jamila Garrett,2011-08-11 There are many elements of fire: the Phoenix, which represents rebirth and immortality, the Sun, which provides light and heat and Volcanoes. Volcanoes erupt with hot magma that needs to escape from below the earth's surface. The heat is unbearable yet lava is beautiful to view. Many people think of words to escape situations they know they must deal with. There is no form of escapism compared to the eruption of a Volcano. Volcano, a collection of poetry, quotes, songs and images melt and mold your mind into shapes unimaginable. It includes words and rhythms created from elements of fiery thoughts and life experiences featuring over seven different poetry styles. The images in the book are the brilliant result of collaboration with various talented artists. Jamila collaborated with the Fashion Empowering Women Foundation to support social innovation and literacy. Fashion Empowering Women (FEW) is a non-profit foundation that mobilizes the creative industries of fashion, literature, music and film by creating opportunities for its members to support the missions of social service organizations that empower girls and women. FEW also provides a forum for dialogue and awareness-building about how creative professionals can alleviate the burdens that sexism perpetuates. The Process of Being Happy Brenlyn Molloy,John J. Wood,2020-06-18 We believe that happiness is a state of being. It is an internal experience and way of living. We believe that all lives are meant to be lived in a happy positive way. This is a choice. We believe that we all have a life path and purpose. Although lives are full of lessons we believe they are all meant to teach us and help us grow into better people and enlightened souls. In working with us and "Being HAPPY" we will strive to help you to understand how to implement positive permanent change to your mental and spiritual well being. Awareness and happiness are choices and a way of life, not labels or destinations. It is believed by some that our brains are hardwired for positive or negative thinking, that some people are naturally more positive than others. While this may seem valid some doctors are challenging that belief. There is more and more research that supports the belief that this is something we can change. If you would like further intellectual information we recommend reading "The Biology of Belief", "Molecules of Emotion", "How Emotions Are Made", "Change Your Brain Change Your Body", "Breaking the Habit of Being Yourself". In this book, we use the words God, Creator, Spirit, and Universe interchangeably. Please use what is most comfortable for you. We believe that all things are made up of energy and all interactions have an effect on this energy. This workbook, our coaching programs, and certifications address the energy of LIVING a positive, purposeful, life and being HAPPY in this life. In our work and this workbook, we refer to meditation and prayer. We like to remember the old adage, "Prayer is when you talk, meditation is when you listen." In prayer, you are speaking to Creator, Angels, your own soul in some form. Asking for help, guidance, instruction. In meditation, you are quiet, mindful and aware to receive this information with gratitude when it arrives with an open mind and heart.
