Why Dogs Chase Cars George Singleton,2004-09-17 These fourteen funny stories tell the tale of a beleaguered boyhood down home where the dogs still run loose. As a boy growing up in the tiny backwater town of Forty-Five, South Carolina (where everybody is pretty much one beer short of a six-pack), all Mendal Dawes wants is out. It's not just his hometown that's hopeless. Mendal's father is just as bad. Embarrassing his son to death nearly every day, Mr. Dawes is a parenting guide's bad example. He buries stuff in the backyard—fake toxic barrels, imitation Burma Shave signs (BIRD ON A WIRE, BIRD ON A PERCH, FLY TOWARD HEAVEN, FIRST BAPTIST CHURCH), yardstick collections. He calls Mendal Fuzznuts and makes him recite Marx and Durkheim daily and befriend a classmate rumored to have head lice. Mendal Dawes is a boy itching to get out of town, to take the high road and leave the South and his dingbat dad far behind—just like those car-chasing dogs. But bottom line, this funky, sometimes outrageous, and always very human tale is really about how Mendal discovers that neither he nor the dogs actually want to catch a ride, that the hand that has fed them has a lot more to offer. On the way to watching that light dawn, we also get to watch the Dawes's precarious relationship with a place whose gene pool [is] so shallow that it wouldn't take a Dr. Scholl's insert to keep one's soles dry. To be consistently funny is a great gift. To be funny and cynical and empathetic all at the same time is George Singleton's special gift, put brilliantly into play in this new collection.

The Race Against the Mammoth Car Chase Wheeler,2008 Speed, competing against the Mammoth Car in the No Limit World Race, is sure that the driver of the other car is responsible for the theft of fifty million dollars' worth of gold bars, but has to find the evidence to prove it.

Bullitt Matt Stone,2020-08-15 Get the behind the scenes view of arguably the most iconic automotive movie car and scene in history. Ask any automotive enthusiast what his or her favorite chase scene to appear in a movie is, and the majority will respond with Bullitt. It has made the top 5 in every list covering the best automotive chase scenes in history. But the appeal isn't just about the chase scene. Shot entirely on location in picturesque San Francisco in 1968, the movie not only features the historic chase scene but also many outdoor scenes filled with cars and architecture of the period that are filmed in crisp clear color. The movie was the fifth-highest-grossing film for 1968, it was well received by critics, and the chase scene won Franks P. Keller an Oscar for editing. In Bullitt: The Cars and People Behind Steve McQueen, you will get the complete

behind the scenes picture of how all the action was coordinated and filmed. Included are the ideas behind the making of the movie, an interview with Director Peter Yates, production stills, and the planning for the scene. Also covered is the cast, the building of the cars used in the film, and the how and why the stunts were choreographed and filmed. To round out the story, an examination of what happened to the cars is included as well as coverage of the multiple Bullitt Edition cars released by Ford after the film, including the latest 2019 edition. While several books have been published about Steve McQueen, the King of Cool, never before has there been a thorough examination of this specific film and these specific cars. This edition is a welcome addition to the library of any McQueen, Mustang, or automotive film history fan.

Race Cars Jenny Devenny, 2021-05-12 Race Cars is a children's book about white privilege created to help parents and educators facilitate tough conversations about race, privilege, and oppression. Written by a clinical social worker and child therapist with experience in anti-bias training and edited by a diversity expert, Race Cars tells the story of 2 best friends, a white car and a black car, that have different experiences and face different rules while entering the same race. Filled with bright, attention-grabbing illustrations, a notes and activities section at the back helps parents, guardians, and teachers further discuss these issues with children. Why is this book important? As early as 6 months old, a baby's brain can notice race-based differences; children ages 2 to 4 can internalize racial bias and start assigning meaning to race; and 5- to 8-year-olds begin to place value judgments on similarities and differences. By age 12, children have a complete set of stereotypes about every racial, ethnic, and religious group in society. Our guidance is especially crucial during this impressionable time. Race Cars offers a simple, yet powerful, way to introduce these complicated themes to our children and is a valuable addition to classroom and home libraries.

Police Pursuit Driving Geoffrey P. Alpert, Roger G. Dunham, 1990-06-26 Using the analogy between improper use of firearms and improper pursuit driving, Alpert and Dunham analyze the police car as a potentially dangerous weapon. The book is based upon information gathered over several years in Dade County (Miami), Florida. The data, which includes details of deaths, injuries, and property damage as well as arrests and apprehensions of felony suspects, are presented not to scare the reader, but to assist the public, members of the law enforcement community, and politicians to understand more clearly the role of pursuit in policing and crime control.
