**The Marketplace of Attention** James G. Webster, 2016-09-02 How do media find an audience when there is an endless supply of content but a limited supply of public attention? Feature films, television shows, homemade videos, tweets, blogs, and breaking news: digital media offer an always-accessible, apparently inexhaustible supply of entertainment and information. Although choices seems endless, public attention is not. How do digital media find the audiences they need in an era of infinite choice? In The Marketplace of Attention, James Webster explains how audiences take shape in the digital age. Webster describes the factors that create audiences, including the preferences and habits of media users, the role of social networks, the resources and strategies of media providers, and the growing impact of media measures—from ratings to user recommendations. He incorporates these factors into one comprehensive framework: the marketplace of attention. In doing so, he shows that the marketplace works in ways that belie our greatest hopes and fears about digital media. Some observers claim that digital media empower a new participatory culture; others fear that digital media encourage users to retreat to isolated enclaves. Webster shows that public attention is at once diverse and concentrated—that users move across a variety of outlets, producing high levels of audience overlap. So although audiences are fragmented in ways that would astonish midcentury broadcasting executives, Webster argues that this doesn't signal polarization. He questions whether our preferences are immune from media influence, and he describes how our encounters with media might change our tastes. In the digital era's marketplace of attention, Webster claims, we typically encounter ideas that cut across our predispositions. In the process, we will remake the marketplace of ideas and reshape the twenty-first century public sphere.

**Political Advertising in the United States** Erika Franklin Fowler, Michael M. Franz, Travis N. Ridout, 2021-11-24 Political Advertising in the United States examines the volume, distribution, content, and effects of political advertising in congressional and presidential elections. The book considers the role of television ads using extensive data on ad airings on local broadcast stations. It also analyzes newly available data on paid digital ads, including ads on Facebook, Instagram, Google, and YouTube. The book covers the role of outside groups in airing ads, including the rise of dark money groups and gaps in existing federal campaign finance laws around transparency of outside group spending. The authors consider how ad sponsors design and target ads. They also review the positive and negative implications of an electoral system where billions are spent on paid advertising. With detailed analysis of presidential and congressional campaign ads and discussion questions in each chapter, this accessibly written book is a must-read for students, scholars, and practitioners who want to understand the ins and outs of political advertising. New to the Second Edition • Covers the spending, content, and tone of political advertising in the 2016 and 2020 presidential elections and the 2018 midterms, looking ahead to 2022 and 2024. • Addresses the interference of foreign actors in elections and their connection to political advertising. • Expands the discussion of digital political advertising and incorporates this topic into every chapter. • Adds a new chapter specifically addressing digital ad content and spending. • Includes data from the Facebook, Google, and Snapchat ad libraries and explores the role of these companies in regulating the sale of political advertising. • Incorporates new data on the effects of race and gender in advertising, including what is known about the way in which advertising may activate prejudicial attitudes.

**Uncivil Agreement** Lilliana Mason, 2018-04-16 The psychology behind political partisanship: “The kind of research that will change not just how you think about the world but how you think about yourself.” —Ezra Klein, Vox Political polarization in America has moved beyond disagreements about matters of policy. For the first time in decades, research has shown that members of both parties hold strongly unfavorable views of their opponents. This is polarization rooted in social identity, and it is growing. The campaign and election of Donald Trump laid bare this fact of the American electorate, its successful rhetoric of “us versus them” tapping into a powerful current of anger and resentment. With *Uncivil Agreement*, Lilliana Mason looks at the growing social gulf across racial, religious, and cultural lines, which have recently come to divide neatly between the two major political parties. She argues that group identifications have changed the way we think and feel about ourselves and our opponents. Even when Democrats and Republicans can agree on policy outcomes, they tend to view one other with distrust and to work for party victory over all else. Although the polarizing effects of social divisions have simplified our electoral choices and increased political engagement, they have not been a force that is, on balance, helpful for American democracy. Bringing together theory from political science and social psychology, *Uncivil Agreement* clearly describes this increasingly “social” type of polarization, and adds much to our understanding of contemporary politics.

**No Caption Needed** Robert Hariman, John Louis Lucaites, 2007-06 A gaunt woman stares into the bleakness of the Great Depression. An exuberant sailor plants a kiss on a nurse in the heart of Times Square. A naked Vietnamese girl runs in terror from a napalm attack. An unarmed man stops a tank in Tiananmen Square. These and a handful of other photographs have become icons of public culture: widely recognized, historically significant, emotionally resonant images that are used repeatedly to negotiate civic identity. But why are these images so powerful? How do they remain meaningful across generations? What do they expose--and what goes unsaid? In *No Caption Needed*, Robert Hariman and John Louis Lucaites provide the definitive study of the iconic photograph as a

dynamic form of public art. Their critical analyses of nine individual icons explore the photographs themselves and their subsequent circulation through an astonishing array of media, including stamps, posters, billboards, editorial cartoons, TV shows, Web pages, tattoos, and more. As these iconic images are reproduced and refashioned by governments, commercial advertisers, journalists, grassroots advocates, bloggers, and artists, their alterations throw key features of political experience into sharp relief. Iconic images are revealed as models of visual eloquence, signposts for collective memory, means of persuasion across the political spectrum, and a crucial resource for critical reflection. Arguing against the conventional belief that visual images short-circuit rational deliberation and radical critique, Hariman and Lucaites make a bold case for the value of visual imagery in a liberal-democratic society. No Caption Needed is a compelling demonstration of photojournalism's vital contribution to public life.

**Furry Nation** Joe Strike, 2017-10-03 Winner of the 2017 Ursa Major Award for Best Non-Fiction Work! Furry fandom is a recent phenomenon, but anthropomorphism is an instinct hard-wired into the human mind: the desire to see animals on a more equal footing with people. It's existed since the beginning of time in prehistoric cave paintings, ancient gods and tribal rituals. It lives on today—not just in the sports mascots and cartoon characters we see everywhere, but in stage plays, art galleries, serious literature, performance art—and among furry fans who bring their make-believe characters to life digitally, on paper, or in the carefully crafted fursuits they wear to become the animals of their imagination. In *Furry Nation*, author Joe Strike shares the very human story of the people who created furry fandom, the many forms it takes—from the joyfully public to the deeply personal— and how Furry transformed his own life.
