*Once a Boy* J. J. Irwin, 2013-08 Read about the customs of the times, which foreshadowed the computer age, and what it was like to grow up in a working-class family in southern Britain, where people didn't have a great deal, so some of us used to write stuff. The book shines a light on a young boy's interaction with the world and gives an accurate insight into the social structure of the time. Drawing on personal childhood experience, I've tried to portray a vivid picture of the customs and styles of that period, along with typical children's play and adventure, while describing products, systems, and technologies that were evolving, says the author. Children become adults, but the child remains within us all. Therefore, this book is dedicated to children, however old you may be.

**The Journey Begins** Arthur Pichler, 2018-02-07 A retired machinist, Arthur, wanting to write about the gold mines and the now ghost towns of Northern Nevada, will find an adventure beyond imagination. He will meet the waitress Maggie at a coffee shop in Battle Mountain located in mid-Northern Nevada. She will introduce Arthur to a man who lives in Spirit Valley south of town. Mr. Greyson will soon, after a cordial meeting with Arthur, send to his address in Reno a box with a letter inside. The box contains an old twenty-four-channel CB radio. The letter from Mr. Greyson tells Arthur that the stories he told him of meeting the people at the mines and towns during the years 1880-1905 did happen, for he was there! He can, with the CB radio in Spirit Valley, go back in time

meeting the people who lived and worked in the gold and silver mines and towns. The twenty-four-channel radio will allow one to go through the small door in the woodshed back to the years in the past to twenty-four different locations and pastimes in Nevada, Arizona, and California. Giving the property to Maggie, a future love interest develops between Arthur and Maggie. This romance from the future and in the valley will transcend back and forth into the past. A ferryboat journey up the Colorado River in the year 1890 has many events almost ending into a life or death situation. Maggie and Arthur will meet Mr. Greyson, who has relocated back in time to Jarbidge, a mining town in Northern Nevada. Arthur will visit gold mines and will witness the extreme hardships and dangers to the workers using the stone crushers and inside the mine shafts deep in the mountains. During a time-travel visit to Searchlight, a town along the Colorado River, Maggie and Arthur are pushed into a life or death situation. Two men from the future find a way to venture back to the same location through the door in Spirit Valley. These men are hunters and a threat to the survival of the people in the old time period due to the modern weapons and unknown consequences. Arthur makes a life or death decision on what he must do. This decision puts a tremendous mental strain on his relationship with Maggie. Spirit Valley, over the many years, is a sacred valley where the past and present Indian spirits live. Joe White Feather, a spirit man of the local Shoshone Indians, becomes close friends with Maggie and Arthur, who eventually settle in the valley. As a spirit man, he is a strong force in the lives and events that Arthur and Maggie have to endure now in the future and the past.

**The Age of the Horse** Susanna Forrest, 2017-05-02 A “superb” account of the enduring connection between humans and horses—“Full of the sort of details that get edited out of more traditional histories” (The Economist). Fifty-six million years ago, the earliest equid walked the earth—and beginning with the first-known horse-keepers of the Copper Age, the horse has played an integral part in human history. It has sustained us as a source of food, an industrial and agricultural machine, a comrade in arms, a symbol of wealth, power, and the wild. Combining fascinating anthropological detail and incisive personal anecdote, equestrian expert Susanna Forrest draws from an immense range of archival documents as well as literature and art to illustrate how our evolution has coincided with that of horses. In paintings and poems (such as Byron’s famous “Mazeppa”), in theater and classical music (including works by Liszt and Tchaikovsky), representations of the horse have changed over centuries, portraying the crucial impact that we’ve had on each other. Forrest combines this history with her own experience in the field, and travels the world to offer a comprehensive look at the horse in our lives today: from Mongolia where she observes the endangered takhi, to a show-horse performance at the Palace of Versailles; from a polo club in Beijing to Arlington, Virginia, where veterans with PTSD are rehabilitated through interaction with horses. “For the horse-addicted, a book can get no better than this . . . original, cerebral and from the heart.” —The Times (London)

*Plantains and the Seven Plagues* Paz Ellis, 2020-04-23 Author Paz Ellis takes readers on a cross-cultural and trans-generational journey through her childhood in New Jersey to adulthood with *Plantains and the Seven Plagues*, A Memoir: Half-Dominican, Half-Cuban, and Full Life. Paz insightfully describes, the complexities and contradictions of growing up in the United States to a Dominican mother and a Cuban father. From her mother's obsessive cleaning rituals to her father's remarkable knack for invention, this book beautifully explains what living a hyphenated-life means for so many Hispanics. She writes about what it means to be American, and Cuban, and Dominican, and having to be all of those things and only one of them... all at the same time. Following the passing of her mother, the author finds herself on a search for meaning through not only her past, but also her mother's. This book is about life, loss, memory, culture, and family, the glue that determines who your family actually is- love. Written with a healthy dose of wit and an abundance of sincerity, *Plantains and the Seven Plagues* is honest, painfully relatable, and deeply heartfelt.

Altered Perceptions Kenn Gordon, 2020-12-22 I grew up in the Highlands of Scotland. I became a musician whilst still at school. Then I made my first musical instrument, at the age of 13. At the age of 18, I joined the Royal Air Force. I served for 9 years and worked at numerous secret establishments. During my military career, I continued to play in bands and to write music. When I left the RAF, I still played music, forming my own bands and recording over 32 Albums, under various names. I also created Gordon Guitars, making high end and bespoke guitars. As I grew older, I looked for a new avenue for my creative juices. It is because of this, that I have decided to become a writer. The first novel entitled 'Altered Perceptions' is the first part of a Trilogy featuring. Andy McPhee and Team Seven, of the SIS Black Door Operations. SIS (Secret Intelligence Service) do exist, as do Black Door Ops. What goes on at CDE (Chemical Defence Establishment) Porton Down, is part factual and part fiction. Although this story is fiction, or you could say factional. The Enriched Uranium and Plutonium did go missing from FBR (Fast Breeder Reactor) Dounreay. The Secret Royal Navy program, the Vulcan Project, did take place between the RN (Royal Navy) and Rolls Royce. There were two major accidents at FBR Dounreay, and they were covered up. There still, to this day, remains two miles of off-limit shoreline. Where pieces of Plutonium are being found, on the beach near Dounreay. Much of what happened in this first book, did happen in real life. Some is of course pure fiction. Real names have been changed. Many of the places exist. Gruinard Island was used by the British Government, to test out bacteriological and viral spores of anthrax. The island remained uninhabitable for almost 50 years. The UK has signed up to the

Geneva Convention, that bans the use of chemical and biological warfare. Yet it continues to make these banned items. The UK is not alone in this. The USA, France, Belgium, Germany along with many countries in the west. Yet we first world countries, condemn the third world countries, who try to make them. Worse still, in some cases, we even supply these countries, with the parts required to make these weapons of mass destruction. That is a fact.
