Damages and Human Rights Jason NE Varuhas, 2016-05-19 Winner of the 2018 Inner Temple New Authors Book Prize and the 2016 SLS Peter Birks Prize for Outstanding Legal Scholarship. *Damages and Human Rights* is a major work on awards of damages for violations of human rights that will be of compelling interest to practitioners, judges and academics alike. Damages for breaches of human rights is emerging as an important and practically significant field of law, yet the rules and principles governing such awards and their theoretical foundations remain underexplored, while courts continue to struggle to articulate a coherent law of human rights damages. The book's focus is English law, but it draws heavily on comparative material from a range of common law jurisdictions, as well as the jurisprudence of international courts. The current law on when damages can be obtained and how they are assessed is set out in detail and analysed comprehensively. The theoretical foundations of human rights damages are examined with a view to enhancing our understanding of the remedy and resolving the currently troubled state of human rights damages jurisprudence. The book argues that in awarding damages in human rights cases the courts should adopt a vindicatory approach, modelled on those rules and principles applied in tort cases when basic rights are violated. Other approaches are considered in detail, including the current 'mirror' approach which ties the domestic approach to

damages to the European Court of Human Rights' approach to monetary compensation; an interest-balancing approach where the damages are dependent on a judicial balancing of individual and public interests; and approaches drawn from the law of state liability in EU law and United States constitutional law. The analysis has important implications for our understanding of fundamental issues including the interrelationship between public law and private law, the theoretical and conceptual foundations of human rights law and the law of torts, the nature and functions of the damages remedy, the connection between rights and remedies, the intersection of domestic and international law, and the impact of damages liability on public funds and public administration. The book was the winner of the 2016 SLS Peter Birks Prize for Outstanding Legal Scholarship and the 2018 Inner Temple New Authors Book Prize.

**The Medical Department** Graham A. Cosmas, Albert E. Cowdrey, 1992

**Jacobs, White, and Ovey: the European Convention on Human Rights** Bernadette Rainey, Pamela McCormick, Clare Ovey, 2021 Explores the key principles underpinning the decisions made by the European Court of Human Rights, and provides a guide to the pivotal cases in each area.

*The Medical Department* Graham Cosmas, Albert Cowdrey, 2015-07-08 Although readily admitting the importance of combat service support forces, military students and historians alike tend to concentrate on combat and combat support units when studying operations, giving only passing attention to the vital work of the logisticians, signalmen, transport troops, and the rest. This is regrettable, for the operations of combat service support units-especially in a global conflict like World War II with

its vast distances and varied terrains-have much to teach us about modern warfare, lessons that remain of surpassing importance to our profession. The Medical Department: Medical Service in the European Theater of Operations supports the proposition that the experience of medical personnel in war directly stimulates advances in medical science. More importantly, it demonstrates that the organization of health care in the combat zones, including evacuation of the wounded, control of disease among troops and civilian populations, and care of prisoners of war, contributed directly to the Allied victory. The exploits of the doctors, corpsmen, and medical support units provide a model for the planning and organization of medical support in today's Army. This volume continues a subseries begun in 1966 with the study of medical support of the Army in the Mediterranean Theater. The Center of Military History will soon complete this project with the publication of a similar study of the very different challenges faced by the Medical Department in the Pacific.
