Encyclopedia of Bohemian and Czech-American Biography Miloslav Rechcigl Jr., 2016-11-10 As the Czech ambassador to the United States, H. E. Petr Gandalovic noted in his foreword to this book that Mla Rechcigl has written a monumental work representing a culmination of his life achievement as a historian of Czech America. The Encyclopedia of Bohemian and Czech American Biography is a unique and unparalleled publication. The enormity of this undertaking is reflected in the fact that it covers a universe, starting a few decades after the discovery of the New World, through the escapades and significant contributions of Bohemian Jesuits and Moravian brethren in the seventeenth and eighteenth centuries, the mass migration of the Czechs after the revolutionary year of 1848, and up to the early years of the twentieth century and the influx of refugees from Nazism and communism. The encyclopedia has been planned as a representative, a comprehensive and authoritative reference tool, encompassing over 7,500 biographies. This prodigious and unparalleled encyclopedic vade mecum, reflecting enduring contributions of notable Americans with Czech roots, is not only an invaluable tool for all researchers and students of Czech American history but is also a carte blanche for the Czech Republic, which considers Czech Americans as their own and as a part of its magnificent cultural history.

Psychology and Pop Culture Keith W. Beard, April Fugett, Britani Black, 2021-03-15 Psychology and Pop Culture: An Empirical Adventure examines the psychological aspects of pop culture preferences, personality, and behavior from across sixteen research studies. The authors analyze such phenomena as superhero and antihero fandoms, internet trolls, women in popular culture, generational preferences, and romance and sexuality. Analyzing pop culture in the context of the #MeToo movement, LGBTQIA+ representation, and contemporary politics, Keith W. Beard, April Fugett, and Britani Black pay close attention to contemporary issues of inclusion and marginalization.

The Right of Publicity Jennifer E. Rothman, 2018-05-01 Who controls how one's identity is used by others? This legal question, centuries old, demands greater scrutiny in the Internet age. Jennifer Rothman uses the right of publicity—a little-known law, often wielded by celebrities—to answer that question, not just for the famous but for everyone. In challenging the conventional story of the right of publicity's emergence, development, and justifications, Rothman shows how it transformed people into intellectual property, leading to a bizarre world in which you can lose ownership of your own identity. This shift and the right's subsequent expansion undermine individual liberty and privacy, restrict free speech, and suppress artistic works. The Right of Publicity traces the right's origins back to the emergence of the right of privacy in the late 1800s. The central impetus for the adoption of privacy laws was to protect people from "wrongful publicity." This privacy-based protection was not limited to anonymous private citizens but applied to famous actors, athletes, and politicians. Beginning in the 1950s, the right transformed into a fully transferable intellectual property right, generating a host of legal disputes, from control of dead celebrities like Prince, to the use of student athletes' images by the NCAA, to lawsuits by users of Facebook and victims of revenge porn. The right of publicity has lost its way. Rothman proposes returning the right to its origins and in the process reclaiming privacy for a public world.

I\m Going Home Robert W. Gonzales,2016-04-26 Have you ever found yourself wondering why you are the person that you are? Has there been a time in your adult life when you found it necessary to reflect back on the early years of your life and those unique memorable events that made you who you are today? Have you had to make a return trip to a time long ago that may have been painfully sad, but in doing so, you realized that those life lessons gave you the power to deal with today's hurts and disappointments? Have you taken a journey back to a time you could have never imagined would give you the strength to overcome today's challenges? In I'm Going Home, four memorable summers have been documented, with each summer episode teaching a wonderful life lesson: What faith and persistence do to build character. How compassion and understanding for another's unique and sometimes ignored gifts can transform your own life. Conquering and dreaming big despite obstacles and circumstances, and working toward what you want most. How compassion and sincere forgiveness can calm and heal a troubled soul.

Diamond in a Ruff Racquel Gonzales,2018-06-28 Growing up me and my crew thought we had it all figured out. Honestly, we didn't know shit, eventually things would take a turn in all of our beautiful lives. From boosting, talking to drug dealers, and living the fast life caused our lives to spiral out of control. We had no way of turning back it was already too late. Get comfortable in your seats and take a ride with me down memory lane!

Flying Blue Tacos Hector G. Gonzalez,2014-01-05 Flying Blue Tacos is a hilarious collection of insightful observations made by the main character, Hector Gonzalez, regarding his Mexican-American culture. Hector is a college student who is interested in entering an art contest at the university in order to try and win the thousand dollars first place prize. He is torn between entering a typical Mexican-American painting (skulls, farm workers, La Virgen de Guadalupe, pachucos, etc.), and a more universal, abstract painting. As he contemplates which of the two paintings to enter, he weighs in on many topics familiar to most Mexican-Americans, such as: Tired of Hearing Sí Se Puede all of the Time - Its been used in everything from immigration rallies to high school pep-rallies to my aunt yelling enthusiastically at her 2-year-old son ~ Sí se puede! ~ Sí se puede!... as he sat on the toilet trying to take a crap after being constipated for a couple of days. Trick-or-Treating in the Rich White Neighborhoods - Once in a while, someone would screw up and answer, Sí, it'syo--Yenifer. But for the most

part, they had no idea they were handing out candy to Hectors, Pablos, Marias, and Yenifers and not to Billys, Toms, Pattys and Jennifers. Defining the Term Chicano - ...if someone thinks he's a Chicano, then he's a Chicano. Besides, there's no Chicano Kennel Club sending out Certificates of Authenticity or pedigree papers showing someone is a purebred Chicano. Mexican's Favorite Type of Therapy - Denial Therapy is the preferred method of therapy for Mexicans. It's much better than Cognitive Behavioral Therapy or Psychoanalysis Therapy because it doesn't require seeing anyone with an advanced degree, there isn't a co-payment to make at the end of a session, the hours are flexible, and it's free. Denial Therapy may not fix the issue at hand, but it makes it bearable for at least one more day. Flying Blue Tacos will keep the readers laughing throughout the book. As the cover states: It's a Stand-Up Routine in Literary Form.

Periferias | Crónicas del Ecuador invisible Christel Alchundia Macías, Lorena Natalia Erazo Carapaz, Luis Freire Adrián, Gisela Guerrero Cruz, Carmen Menéndez Zambrano, Karol Noroña Calvachi, Mayra Prado Torres, Ronna Rísquez, Manuel Gonzales Quiñónez, 2022-05-09 Periferias: crónicas del Ecuador invisible es una publicación colectiva que reúne cinco investigaciones periodísticas que dan cuenta del olvido y la inacción del Estado ecuatoriano. Los autores de los reportajes son periodistas locales que integran la Red de Periodismo de Investigación. La Fundación Periodistas Sin Cadenas empezó a tejer esta red de trabajo colaborativo en 2020 y diseñó un programa de capacitación virtual sobre periodismo de investigación con el apoyo de la Universidad San Francisco de Quito. Las historias recogidas en el libro reflejan la destrucción que ha dejado la minería y la industria agroalimentaria en Esmeraldas y Santo Domingo de los Tsáchilas, respectivamente; el olvido en el que se sumió Manta después del terremoto de 2016; y la penetración de bandas delincuenciales transnacionales en Carchi. Además, retomamos la investigación del secuestro y asesinato del equipo de prensa de diario El Comercio para denunciar una vez más la negligencia del Estado por no seguir una pista importante: los celulares y las comunicaciones que tuvieron los hombres de Guacho en la cárcel de Latacunga.

Música escondida Walter A. González, 2023-07-18 Años estelares de pleno auge de la Radio en Lima Perú, Walter Gonzales, aparente distraído observador de los vaivenes de las comunicaciones, supo asimilar la estratagema que algunos advertidos productores y directores de los años sesentas y setentas le inyectaban a las principales Emisoras que acaparaban la sintonía de esos días, cuando las radionovelas se adueñaban de la audiencia hogareña, pilar indiscutible del encendido y cuando la televisión no avizoraba el encendido matinal. La Frecuencia Modulada, estaba en ciernes y la AM se convertía en la frecuencia mas sintonizada, Walter supo construir un mundo musical matizado por el pop mundial que atraparía a las amas de casa con la música post tropical. Emisora que dirigió la convirtió en estaciones llenas de simpatía y entusiasmo que se complementaban con el norte que toda joven madre presagia en el futuro de su vida. Siempre preocupado por los tópicos de actualidad que un conductor radial debe poseer como líder de opinión, obligaba a sus

colaboradores a la lectura del momento. Hasta el día de hoy, nunca escuchará a Walter manifestar que lo pasado supera el ritmo de hoy. Música Escondida es un documento inmarcesible para la consulta obligada de hoy.

Television Series and Specials Scripts, 1946-1992 ,2009-07-08 In the early days of television, many of its actors, writers, producers and directors came from radio. This crossover endowed the American Radio Archives with a treasure trove of television documents. The collected scripts span more than 40 years of American television history, from live broadcasts of the 1940s to the late 1980s. They also cover the entire spectrum of television entertainment programming, including comedies, soap operas, dramas, westerns, and crime series. The archives cover nearly 1,200 programs represented by more than 6,000 individual scripts. Includes an index of personal names, program and episode titles and production companies, as well as a glossary of industry terms.

Blood in the Fields Julia Reynolds,2014-09-01 The city of Salinas, California, is the birthplace of John Steinbeck and the setting for his epic masterpiece, *East of Eden*, but it is also the home of Nuestra Familia, one of the most violent gangs in America. Born in the prisons of California in the late 1960s, Nuestra Familia expanded to control drug trafficking and extortion operations throughout the northern half of the state, and left a trail of bodies in its wake. Prize-winning journalist and Nieman Fellow Julia Reynolds tells the gang's story from the inside out, following young men and women as they search for a new kind of family, quests that usually lead to murder and betrayal. *Blood in the Fields* also documents the history of Operation Black Widow, the FBI's questionable decade-long effort to dismantle the Nuestra Familia, along with its compromised informants and the turf wars it created with local law enforcement agencies. Written as narrative nonfiction, journalist Reynolds used her unprecedented access to gang members, both in and out of prison, as well as undercover wire taps, depositions, and court documents to weave a gripping, comprehensive history of this brutal criminal organization and the lives it destroyed. Julia Reynolds coproduced and wrote the PBS documentary *Nuestra Familia, Our Family*, and reported on the northern California gang for more than a decade. She currently works as a staff writer at the Monterey County Herald, and has reported for National Public Radio, the Discovery Channel, *The Nation*, *Mother Jones*, the *San Francisco Chronicle*, and more.

Working With Nature Carl F. Jordan,2013-10-31 First Published in 1998. This important work looks at an alternative approach to resource production systems, taking the view that many environmental problems associated with conventional resource management are avoidable if we work with nature, instead of trying to dominate it. Jordan argues that achieving sustainability in production systems is best accomplished by encouraging a change in the relationship between humans and nature—from one of exploitation through control to one of sustainability through cooperation.

Linguistic Stratigraphy Matthias Urban,2023-12-31 This book examines the historical linguistic panorama of Western South America, focusing on the minor languages that were partially or fully replaced by the expansion of the Quechuan family through the region. The author presents a coherent and generally applicable framework for studying prehistoric language shift processes and reconstructing earlier linguistic landscapes before significant

language spreads ousted former patterns of linguistic diversity. This framework combines toponymic evidence with the analysis of substrate contact effects, and, in some cases, extralinguistic evidence, to create an integrated if incomplete of extinct and undocumented languages. In an authoritative exploration of case studies, concerning Aymara in parts of Southern Peru, Cañar in Ecuador, and Chacha in Northern Peru, the book shows how the identities of lost languages and earlier linguistic panoramas can be reconstructed.
