The photos capture the quintessential stunning landmarks, scenery and architectural buildings of the country and city from day to night without words (texts). This full-page picture book will make a great home coffee table decor accessory or as a gift for a loved one. 8.5 x 11 / large size Glossy softcover

**Photography in China** Oliver Moore, 2021-12-24 Emphasizing the medium's reception among several Chinese constituencies, this book explores photography's impact within new discourses on science, as well as its effects in social life, visual modernity and the media during China's transition from imperial to republican government. General knowledge and academic teaching of early modern Chinese visual culture stops short of fitting photography into the larger context of visual practices and theories. This study redraws the boundaries by making photography the central concern within changing priorities of visual representation and its functions during a period of major cultural and political change. No other study draws on such intimate familiarity with the early glamour of photography as science, commerce and communication in the various local conditions of China's cities and towns. Joining a body of critical writing that examines photography's histories outside the familiar confines of the West, this book looks beyond the tourist and imperialist gazes of photographer-adventurers from the Western powers and Japan. It defines instead the Chinese priorities of photographic vision that are abundantly evident in surviving photographs as well as in records as various as technical manuals and personal inscriptions. Local practices and local knowledge are the keys to explain the highly successful indigenization of a medium as globalizing as photography with reference to Chinese society's own terms and practices. This book will be of particular interest to scholars in art and visual culture, the history of photography and Asian art.

A Brief History of Image Science and Technology in China Congyao Han, 2021-06-26 This book, within the vision of the study on the image history, clearly manifests the development of Chinese image science and technology of over 2000 years based on compendium, while having briefly sorted out expositions by scientists since ancient times in China, demonstrates the spiritual course, ideas of thinking and forms of life and reveals profound humane ideas, basis of sentiments and styles of the spirit featured by Chinese image culture. The historic outline of images is clear-cut along with authenticated inter-attestation for clues of images and texts. Historic facts concerning images are ecologically diversified, while historic documents about images are properly chosen, in addition to the integration between liberal arts and science and perfect combination between images and texts. Blessed with nice integration between images and texts, this book serves as reference to experts, scholars, undergraduates and postgraduates related to the study on image history, history of science and technology, study of history and news communication.

Zooming In Wu Hung, 2016-10-15 From the first sets of photographic records made by Western travellers to the emergence of 'Chinese photography' imbued with national anxiety and individual desire, and from doctored portraits of Chairman Mao to 'experimental' representations of urban transformation and avant-garde performances of the post-Cultural Revolution era, the development of photography in China has followed divergent paths through changing sociopolitical contexts, producing images with different agendas, technological innovations and artistic pursuits. *Zooming In* explores multiple histories of photographic production in China. At its centre lies a large question: how has photography represented China and its people, collective history and memory, individual subjectivity and creativity? To address this multifaceted question, Wu Hung offers an in-depth study of selected photographers, themes and movements of photography in China from 1860 to the present, covering a wide range of topics from portraiture to photojournalism, architectural and landscape photography, photo-publications and conceptual photography.--from the publisher

**A Photographer's Journey By Boswell** Boswell, 2023-03-09 Who is Boswell? Boswell is the pseudonym for an award-winning freelance photographer with engaging and sometimes controversial stories to tell. You've likely seen his photos in national and international magazines, books and travel brochures. This ebook will describe how an inspiration during his early years in a tiny rural Midwestern town led to a life spent traveling in 130 countries on all seven continents and how a successful business was built by producing a prolific number of marketable photos as a professional stock and assignment photographer. Filled with entertaining anecdotes and accompanied by 99 photos, Boswell's journey takes readers inside some of the most colorful aspects of editorial and corporate photography: Landing and executing magazine assignments, gaining "special access required" entrée to exclusive corridors of privilege, "seeking serendipity" in the world's streets, and cruising the world's seas and oceans -- as well as uncovering some dark sides of the industry. Just a few stories include: Waiting for Mandela, chasing Doctor Death, repatriating skyjackers from Cuba, attending Zimbabwe's first session of parliament, surviving the Drake Passage, standing on stage with the Lord of the Dance, roving the pits with famous race drivers, hanging with a Piston Bad Boy, chumming with Sparky in the Tigers locker room, and being interviewed by oral historian Studs Terkel while taking his portrait. One of the first Americans to visit Mao's China during the Cultural Revolution, Boswell returned over fifty times to produce books on China, including a very large one stolen by the French. Several chapters of his unlikely story are devoted to travels in China, how specializing in that country proved a key to his photographic success, and why he fell in love in a rice paddy.

*China Photography* Jana Villaneuva, 2019 A book of photographs of various locations throughout China.

History of Photography in China 1842-1860 Terry Bennett, Lindsey Stewart, 2009 This book is the first extensive survey of early Chinese photographers in any language. It is profusely illustrated with more than 400 photographs, many of which are published here for the first time, including a fine selection of Foochow landscapes from the studios of Lai Fong, China's leading photographer during this period, and Tung Hing. Early chapters introduce the historical milieu from which the earliest Chinese photographers emerged and illuminate the beginnings of photography in China and contemporary Chinese reactions to its introduction. Early Chinese commercial photography - both portrait and landscape - are also discussed with reference to similar genres in a more international context. Individual chapters are devoted to Chinese photographers in Peking, Hong Kong, Canton, Shanghai, Foochow, Amoy, Hankow, Tientsin and other ports, Macau and Formosa. These are followed by a series of appendices: writings on photography in China by John Thomson and Isaac Taylor Headland and an invaluable guide to the identification of photographs from the Afong

Studio. It concludes with an extensive bibliography, general and regional chronologies, and a biographical index. Publisher's note.

**Photo Poetics** Shengqing Wu, 2020-11-17 Shengqing Wu explores how the new medium of photography was transformed by Chinese aesthetic culture. She details the complex negotiations between poetry and photography in the late Qing and early Republican eras, examining the ways traditional textual forms collaborated with the new visual culture.

**China Roundtrip** Roman Plesky, 2018-06-17 Blurb: Lonely ridges and rough coasts, impenetrable mountains and impenetrable virgin forests, vibrant modern urbanity and traditional life in the village, Chinese as well as the varied culture of 55 other ethnic groups characterize the image of China. Whether it is culture, nature or adventure, the Empire of the middle offers something for every traveler. Speaking of the Empire of the middle - not Europeans have invented this concept, but the Chinese themselves call it their country. Once upon a time, they were regarded as the center of the civilized world. China is no longer Eastern, as it is understood in the West, but it is not Western, and certainly not Marxist. It is nothing of all this, but rather a mixture of everything. It is not easy to choose a tour through China. There are simply too many places worth seeing in this great country. This tour includes the following cities: Hong Kong, Guangzhou, Guilin, Shanghai, Xi'an and Beijing. Do you want to discover this incredible natural spectacle of China at close range? Do you want to go to the most beautiful places, that has the Empire of the middle to offer? Do you want to shoot the most spectacular holiday pictures? Then this E-Book is the right tool for you! In this e-book, you will be inspired by the countless countryside and city photos. At the same time learns the user with the help of Google Maps locating, how to go to the photo shot spots or where the pictures are taken from. Here you can try by self the high art of photography. The author is wishing a good success and a memorable holiday in one of the most breath taking area on this world.

**The Chinese Photobook** Martin Parr, WassinkLundgren (Photography partnership), 2015 The Chinese Photobook : From the 1900s to the Present offers an introduction to the richness and diversity of photobooks published about China, including key titles by established and emerging contemporary Chinese photographers published in recent years; books created by early colonial powers in China, including France, Germany, and Japan during the Second Sino-Japanese War; and a selection of books produced during the first years of New China and the Cultural Revolution, among many others. Over the last decade there has been a major reappraisal of the role and status of the photobook within the history of photography. These revisionist histories have added enormously to our reading and understanding of the culture of photography, particularly in places that are often marginalized, such as Latin America and South Africa. However, until now, only a few Chinese photobooks have made it onto historians' short lists. Yet China has a fascinating history of publishing photography--including publications produced by the Chinese state as well as those that offer an external perspective, by some of the world's greatest photographers. Here, over 250 volumes, drawn primarily from Martin Parr's peer-less collection of photobooks, are contextualized by an international team of scholars and historians: Gu Zheng, Raymond Lum, Ruben Lundgren, Stephanie H. Tung, and Gerry Badger. Their painstaking research into each of the featured books unveils a complex, multifaceted perspective of China, revealing much about the country and the dramatic twists and turns of its history over the last century. -- Book jacket.

**Developing Mission** Joseph W. Ho, 2022-01-15 In Developing Mission, Joseph W. Ho offers a transnational cultural history of US and Chinese communities framed by missionary lenses through time and space--tracing the lives and afterlives of images, cameras, and visual imaginations from before the Second Sino-Japanese War through the first years of the People's Republic of China. When American Protestant and Catholic missionaries entered interwar China, they did so with cameras in hand. Missions principally aimed at the conversion of souls and the modernization of East Asia, became, by virtue of the still and moving images recorded, quasi-anthropological ventures that shaped popular understandings of and formal foreign policy toward China. Portable photographic technologies changed the very nature of missionary experience, while images that missionaries circulated between China and the United States affected cross-cultural encounters in times of peace and war. Ho illuminates the centrality of visual practices in the American missionary enterprise in modern China, even as intersecting modernities and changing Sino-US relations radically transformed lives behind and in front of those lenses. In doing so, Developing Mission reconstructs the almost-lost histories of transnational image makers, subjects, and viewers across twentieth-century China and the United States.

**Youth Lens on the Silk Roads** UNESCO, 2020-10-08

**The People of China**, 2009-07-01

**Photography and China** Claire Roberts, 2012-12-15 With its lush and diverse landscapes, ancient ruins, and stunning architecture, China is a photographer's dream. Exploring this visually rich and evocative country, Photography and China highlights Chinese photographers and subjects from the inception of photography to the present day. Drawing on works in museums, and archival and private collections across China, the United States, Europe, and Australia, Claire Roberts locates images from commercial, art, and documentary photography within the broader context of Chinese history. She focuses on the images as well as the studios and individuals who created them, describing the long tradition of Chinese artistic culture into which photography was first absorbed and subsequently expanded. As she recounts the stories of practitioners--from China and overseas--who were agents in that process of change, she also examines the commercial, political, and artistic purposes for which they used photography. Featuring one hundred striking, little-known images, Photography and China will make a significant contribution to photography, Chinese art, and twentieth-century history.

**History of Photography in China** Terry Bennett, 2009

**Chinese Pictures** Isabella Bird, 2019-09-05 A loving reproduction of the photograph collection first published by the intrepid traveller Isabella Bird in 1900. The images were all taken by Isabella on her long travels in China in the late 1890s, and provide a unique record of different aspects of China in that era, just before the Boxer Rebellion and its aftermath unleashed far-reaching changes.

**America Views China** Jonathan Goldstein, Jerry Israel, Hilary Conroy, 1991 U.S. historians present 16 essays on the American view of the Chinese from the 18th century to the present. Among the perspectives are art, commerce, missionary activity, diplomacy, popular culture, and a comparison with images of Japan. Includes a general

*Among the Celestials* Ferdinand M. Bertholet,2014 The flourishing of photography as a medium in the mid-19th century coincided with a rise in curiosity about China on the part of the Western world. As the number of foreigners living and traveling in China increased, early photographs of China were taken by and for an international audience. Among the Celestials assembles 250 fascinating images of China in the second half of the 19th century and first half of the 20th, captured by the Western camera lens. The photographs portray the gritty side of the country as well as stunning views of palaces, temples, harbors, and gardens. This juxtaposition of the sordid and the serene provides a multidimensional picture of China's physical and social landscape before Mao Zedong's ascent to power changed the country forever. The photographs, many published here for the first time, are both beautiful and moving, and together offer a new understanding of a social and cultural history associated with a time of significant historical change.
