*Iran's Political Economy since the Revolution* Suzanne Maloney, 2015-08-13 Over three decades after the Iranian Revolution reconfigured the strategic landscape in the Middle East, scholars are still trying to decipher its aftereffects. Suzanne Maloney provides the first comprehensive overview of Iran's political economy since the 1979 revolution and offers detailed examinations of two aspects of the Iranian economy of direct interest to scholars and non-specialist readers of Iran: the energy sector and the role of sanctions. Based on the author's research as both a scholar and government advisor, the book also features interviews with American and Iranian government officials. Moving chronologically from the early years under Khomeini, through the economic deprivations of the 1980s during the Iran-Iraq war, through liberalization under Khatami to the present, Maloney offers fascinating insights into Iran's domestic politics and how economic policies have affected ideology, leadership priorities, and foreign relations.

**The Gut Balance Revolution** Gerard E. Mullin, 2017-07-03 Research shows that gut microflora and intestinal microbiota play a pivotal role in weight maintenance through its influence on metabolism, appetite regulation, energy expenditure, and endocrine regulation. Gut flora imbalance is why so many people can't lose weight despite exercising more and eating less. In *The Gut Balance Revolution*, Dr. Gerard Mullin--the foremost authority on digestive health and nutritional medicine--explains how to prevent leaky gut, inflammation, and insulin resistance, which are major contributors to obesity. This book will teach you how to rebalance the gut microbiome using a simple three-step method: Reboot: Weed out fat-forming bad bacteria by eliminating foods that make them grow and promote inflammation, insulin, and fat accumulation, and reignite fat burning metabolism with exercise and dietary supplements. Rebalance: Reseed your gut with good bugs and fertilize these friendly flora to establish a healthy gut ecology, reduce stress, and reinstitute a healthy lifestyle including sleep hygiene. Renew: Carry this lifestyle adjustment forward and maintain your weight with good eating habits with allowances for pleasure foods. The book features step-by-step meal plans, shopping lists, restaurant guides, recipes, recommendations on dietary supplements, and exercises for each phase so you can easily reboot, rebalance, and renew your health.

*Backyard Chickens' Guide to Coops and Tractors* Members of Backyard Chickens.com, 2011-08-01 Keeping chickens isn't just for farms! **The Suburban Chicken** Kristina Urquhart, 2015-11-10 With more and more city dwellers and suburbanites embracing

the notion of getting back to basics and living simpler, more rustic lives, it's no surprise that the popularity of backyard chicken keeping has skyrocketed in recent years. Whether for enjoyment as pets or for the convenience of farm-fresh eggs right outside your door, chicken keeping can be an easy and fun step on the road to more sustainable, ecologically friendly living. Written by self-taught homesteader Kristina Urquhart, *The Suburban Chicken* shares the author's knowledge on general chicken husbandry, profiles of 20 suitable breeds for suburban living, how to provide your birds with optimal accommodations, and the healthcare needs of chickens, among other important topics about which prospective chicken owners should be familiar. **INSIDE SUBURBAN CHICKEN:** •The benefits and enjoyment of keeping chickens as pets. •Considerations for would-be chicken keepers, including local ordinances, space requirements, initial and ongoing expenses, and preparing the home and family. •Favorite standard-size, bantam, and egg-laying breeds for metropolitan and family living. •Hatching eggs and raising chicks. •Coop styles and descriptions of all equipment that a budding chicken keeper needs, as well as a chapter dedicated to keeping chickens safe from predators. •Preventive care and optimal diets for healthy, hardy birds. •Raising chickens for eggs: the science behind egg production, how to properly handle and store fresh eggs, and the differences between store-bought and homegrown eggs, as well as some exciting recipes for your bounty.

**Why Did the Chicken Cross the World?** Andrew Lawler, 2014-12-02 In a brilliant combination of historical sleuthing and journalistic exploration on four continents, a renowned science writer takes readers on an adventure from prehistory to the modern era that follows the animal most crucial to the spread of civilization across the globe—the chicken. 40,000 first printing.

*Dynamics of Industrial Revolution 4.0: Digital Technology Transformation and Cultural Evolution* Ratri Wulandari, Idhar Resmadi, Vika Haristianti, Rahmiati Aulia, Riky Taufik Afif, Gema Ari Prahara, Aulia Ibrahim Yeru, 2021-08-25 The 7th Bandung Creative Movement conference presented the theme Dynamics of Industrial Revolution 4.0 which discussed how the digital world and connectivity changed human culture in various aspects of life, and transformed in accordance to human needs and social culture. Digital technology has transformed society to serve people from manufacturing needs to smart cities, from network connectivity to people connectivity. The application of information technology has helped in improving live quality and environmental sustainability. Digital transformation is revolutionizing how businesses and workers interconnect to be more productive and efficient. The result is improved collaboration, faster processes and time-to-market, lower costs and better products. Devices are getting smarter, meaning they are able to perform more and more tasks without human intervention; moreover, these devices generate data that provide insights to further improve processes and gain greater efficiencies. Moreover, with the Internet of Things (IoT), all these smart devices are interconnected in ways that not only help make them even smarter, but also enhances the intelligence of the overall system. Digital technology is a formidable driver for the transformation of a highly carbon-dependent world into one that is more ecologically 'smart.' We are entering a new era of environmental innovation that is driving better alignment between technology and environmental goals. Since its first announcement in 2011, industrial revolution 4.0 has dynamically changed

and transformed to adjust itself to the human needs and to serve more efficiency and effectiveness of everyday life as well as environmental enhancement. The 7th Bandung Creative Movement has brought forward discussions on dynamic changes, ups and downs, innovations, relations of industrial revolution of the internet of thing, data, automation, to human physical world, new art and aesthetic, business, product innovation, built environment, and education.

**Blockchain Chicken Farm** Xiaowei Wang, 2020-10-13 A New York Times Book Review Editors' Choice A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In Blockchain Chicken Farm, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

**Comrades and Chicken Ranchers** Kenneth Kann, 1993 This book is a portrait of the Petaluma Jewish community from the early years of the century to the present day. Kenneth L. Kann interviewed more than two hundred residents, representing three generations of Jewish Americans. The picture that emerges from their testimony is of a wonderfully animated and fractious community. Its history blends many of the familiar themes of American Jewish life into a richly individual tapestry. In the first few decades of this century, many Jewish immigrants from Russia and Eastern Europe wound up in Petaluma. This first generation of chicken farmers consisted largely of educated, often professional men and women; many were drawn to chicken farming as much by Marxist or Zionist beliefs in the dignity of labor as by economic necessity. They helped establish the particular character of a community, with its combination of arduous work and cultural aspiration.

*Coturnix Revolution* Alexandra Douglas, 2013-04-25 Coturnix Revolution is the realization that Coturnix can provide meat and eggs inexpensively and simpler than chicken. Less space requirements and more efficient feed conversion, these birds are excellent sources of protein for the self sufficient lifestyle. From learning about the history behind the bird to marketing your eggs and meat, Coturnix Revolution gives you a dual purpose guide for the many uses of the bird. You will learn more about this bird than what is shown on the internet and forums with scientific research such as: - Housing - Nutrition - Health - Egg biology - Reproduction - Variety - Genetics - Incubation -Hatching - Brooding - Breeding - Meat - Self Sufficiency And much more! This is the How to Guide to the next level!

**Tapas Revolution** Omar Allibhoy, 2013-08-16 Omar Allibhoy is the new face of Spanish cooking: he's charismatic, effusive, passionate and wants to bring Spanish food to the people of the UK. Tapas Revolution is the breakthrough book on simple Spanish cookery. Using everyday storecupboard ingredients, Omar offers a new take on the classic tortilla de patatas, making this iconic dish easier than ever, and brings a twist to pinchos morunos and pollo con salsa. With sections covering vegetables, salads, rice dishes, meat, fish, cakes and desserts, the emphasis is on simplicity of ingredients and methods – reinforcing the fact that absolutely anyone can cook this versatile and accessible food. TAPAS NOT PASTA!

Sacred Cows and Chicken Manchurian James Staples, 2020-11-15 Bovine politics exposes fault lines within contemporary Indian society, where eating beef is simultaneously a violation of sacred taboos, an expression of marginalized identities, and a route to cosmopolitan sophistication. The recent rise of Hindu nationalism has

further polarized traditional views: Dalits, Muslims, and Christians protest threats to their beef-eating heritage while Hindu fundamentalists rally against those who eat the sacred cow. Yet close observation of what people do and do not eat, the styles and contexts within which they do so, and the disparities between rhetoric and everyday action overturns this simplistic binary opposition. Understanding how a food can be implicated in riots, vigilante attacks, and even murders demands that we look beyond immediate politics to wider contexts. Drawing on decades of ethnographic research in South India, James Staples charts how cattle owners, brokers, butchers, cooks, and occasional beef eaters navigate the contemporary political and cultural climate. *Sacred Cows and Chicken Manchurian* offers a fine-grained exploration of the current situation, locating it within the wider anthropology of food and eating in the region and revealing critical aspects of what it is to be Indian in the early twenty-first century.

*The Neoliberal Diet* Gerardo Otero, 2018-10-03 Why are people getting fatter in the United States and beyond? Mainstream explanations argue that people simply eat too much “energy-dense” food while exercising too little. By swapping the chips and sodas for fruits and vegetables and exercising more, the problem would be solved. By contrast, *The Neoliberal Diet* argues that increased obesity does not result merely from individual food and lifestyle choices. Since the 1980s, the neoliberal turn in policy and practice has promoted trade liberalization and retrenchment of the welfare regime, along with continued agricultural subsidies in rich countries. Neoliberal regulation has enabled agribusiness multinationals to thrive by selling highly processed foods loaded with refined flour and sugars—a diet that originated in the United States—as well as meat. Drawing on extensive empirical data, Gerardo Otero identifies the socioeconomic and political forces that created this diet, which has been exported around the globe, often at the expense of people’s health. Otero shows how state-level actions, particularly subsidies for big farms and agribusiness, have ensured the dominance of processed foods and made healthful fresh foods inaccessible to many. Comparing agrifood performance across several nations, including the NAFTA region, and correlating food access to class inequality, he convincingly demonstrates the structural character of food production and the effect of inequality on individual food choices. Resolving the global obesity crisis, Otero concludes, lies not in blaming individuals but in creating state-level programs to reduce inequality and make healthier food accessible to all.

**Eggs before chickens?** Andam, Kwaw S., Arndt, Channing, Hartley, Faaiqa, 2017-12-15 This paper analyzes the impacts of adopting restrictive import policies for chicken meat in Ghana, which would be like the policies adopted in

Nigeria. A prohibitive tariff stimulates domestic chicken meat production but also imposes significant costs on consumers and encourages illicit trade. However, a substantial poultry industry, producing mostly eggs, will exist independent of the border policy applied to chicken meat, due to the natural protection offered to local producers in the egg subsector. A subsector analysis of an egg production cluster in Ghana highlights the importance of trade links with other West African countries in developing the egg subsector. A focus on feed efficiency, through a mix of domestic production and imports, would benefit the layer industry, provide reasonable indications of prospects for globally competitive chicken meat production, and benefit other industries dependent on competitive feed, notably aquaculture.

**Fresh-Air Poultry Houses** Prince T Woods, M.D., 2008-10-01 Open-Front Chicken Coops Are Healthier, Summer and Winter To stay healthy, your chickens need plenty of ventilation—probably more than they’re getting today. This was discovered over 100 years ago, but has been largely forgotten. Today’s small-flock chicken coops tends to be dank, dark, and smelly. Chickens, like miners’ canaries, are easily harmed by poor air quality. Wet litter breeds disease. Darkness forces chickens, like parrots, to be artificially inactive. “Dank, dark, and smelly” is a deadly combination! Closed chicken houses are so harmful that knocking out a wall can cause an immediate improvement, even in winter (there’s an interesting case study of this in Chapter 2). Chickens, after all, have a thick coat of feathers to keep them warm, but are vulnerable to poor air quality and pathogens in the litter; and their unwillingness to eat in the dark means they can starve in the midst of plenty. An open-front coop during a Canadian winter. Note the snow on the ground. And in summer! Poor air circulation and a thick coat of feathers is hard on the chickens. It can easily kill them. Chickens are far more vulnerable to heat than cold. Fresh-Air Poultry Houses was written by Dr. Prince T. Woods, a noted poultry health expert. Dr. Woods describes not only his own poultry houses, but those of many of his clients, giving the book a breadth of experience that makes it a unique resource. This 1924 book is old-fashioned and a little eccentric, but in a good way. The Fresh-Air Revolution The principles Woods describes in his book achieved total victory at the time. Open-front poultry houses were not only the dominant type, they were the only type for many years (until the industry moved to the use of gigantic fans at the ends of poultry houses to provide even more ventilation than open-front housing!). The principles of open-front housing were taken to extremes in some parts of the country, with surprisingly good results. In California, chicken houses were so open that they didn’t have walls at all! Just a roof. This method was used as far north as Oregon in the Fifties, and worked at least as well as conventional houses. The improved air quality made up for the increased wind chill. While the large producers have consistently embraced the benefits of fresh air, small-flock owners gradually reverted to the kind of under-ventilated chicken coops that was common in the Nineteenth century. The need to keep baby chicks warm trains all of us to be obsess over providing warmth and exclude drafts, and it’s hard to do the opposite when the chicks are older. Even during the heyday of open-front housing, there was a saying that “the best chicks come out of the sorriest houses,” meaning that even experienced farmers couldn’t resist shutting up their houses too tightly, and that only a drafty,

dilapidated house could prevent this from doing harm. Things are even worse now, since most people have never even heard of the benefits of fresh air for poultry. We're proud to be able to bring the Fresh-Air Revolution into the Twenty-First Century.

**Authenticity in the Kitchen** Richard Hosking, 2006 The Oxford Symposium on Food and Cookery is a premier English conference on this topic. The subjects range from the food of medieval English and Spanish Jews; wild boar in Europe; the identity of liquamen and other Roman sauces; the production of vinegar in the Philippines; the nature of Indian restaurant food; and food in 19th century Amsterdam.

*Art and Science in Breeding* Margaret Elsinor Derry, 2012-01-01 Chickens are now the most scientifically engineered of livestock. How have the methods used by geneticists differed from those employed by domestic breeders over time? *Art and Science in Breeding* details the relationship between farm practices and agricultural genetics in poultry breeding from 1850 to 1960. Margaret E. Derry traces the history and organization of chicken breeding in North America, from craft approaches and breeding as an 'art,' to the conflicts that had emerged between traditional and scientific methods by the 1940s. Derry assesses links between the 'scientific' revolution of chicken farming and the development of corporate breeding as a modern, international industry. Using poultry as a case study for the wider narrative of agricultural genetics, *Art and Science in Breeding* adds considerable knowledge to a rapidly growing field of inquiry.
