The Complete Guide to Chinese Horoscopes Zheng Weijian, 2020-01-14 The Chinese horoscope represents a tradition more than 2,000 years old. It lasts for twelve years, with each year featuring a different symbolic animal. Ancient Chinese beliefs, which persist to the current day, hold that the year of one's birth has a significant effect on one's character, which relates to the features of that year's symbolic animal. For example, a person born during the year of the mouse will be smart and wealthy, which are characteristics attributed to the mouse. Likewise, a person born in the year of the ox will be hardworking and down-to-earth, while a person born in the year of the tiger will be majestic and fierce. There are further levels of refinement to the Chinese horoscope cycle, based on beliefs related to the

ancient divination text, Classic of Changes (I Ching), the Five Elements Theory (metal, wood, water, fire, earth), yin and yang, and the Ten Celestial Stems and Twelve Terrestrial Branches. These concepts, fundamental in China, are explained in this book, giving a fuller understanding of the Chinese zodiac, as well as an insight into Chinese culture. Today, a vast number of people around the world believe their zodiac animal influences their hearts, minds, fortunes and relationships. Do you know to which symbolic animal you belong, according to the year of your birth? And do you know the element and other nuances of the forces that rule your particular birth year? This knowledge can guide you in every step of life, helping you to answer such important questions as: Who is a good partner? What kind of job is most suitable? Get to know yourself better with this handy guide.

The Handbook of Chinese Horoscopes Theodora Lau, Laura Lau, 2019-07-02 Do you know which of the twelve animal signs you are? Chinese Astrology Shelly Wu, 2005-06-15 "He who knows others is learned. He who knows himself is wise." –Lao-Tzu The quest for self-knowledge has been a universal human pursuit for millennia. Who are we? And could our destiny be written in the stars? Why do some commit their wings to life's flames, while others tiptoe through life so cautiously? In a quest for answers to these questions, there has been an explosion of renewed interest in Chinese astrology. Awareness of our essential nature provides insight into our most intimate relationships...and into ourselves. Chinese Astrology: Exploring the Eastern Zodiac/i> explains our "natural endowment" or "inner being"—our personality from the beginning. This 5,000-year-old art paints a remarkable picture of personality and potential using the archetypes of the 12 signs of the ancient Eastern zodiac. While each one of us possess some qualities of all 12 signs, we each have a dominant sign and birth element. Be prepared for some ah ha! moments as you explore this ancient art and gain insight into the characters of those you meet along life's path. You may notice interesting similarities to your friends and family, and you may never look at yourself the same way again. This is a timeless system that is as pertinent today as it was many centuries ago. In a book that will fascinate both devotees of Western astrology and those who have never even checked their horoscopes in the newspaper, you'll learn – The twelve signs of the Eastern Zodiac and what they tell you about yourself and others. – The Five Elements, and how your birth element influences your destiny. – Chinese love signs, karmic connections, and the secrets of soul mates. – Your Chinese birth hour "companion"—your other self.
