**Reverse Entrepreneurship in Latin America** Pável Reyes-Mercado,Guillermo Jesús Larios Hernández,2018-09-11 This book explores the concept of reverse entrepreneurship, providing real-life examples of innovative start-ups and ventures hoping to internationalize. Traditionally, entrepreneurial ideas have flowed from developed countries to emerging markets. This book, however, examines entrepreneurial ideas flowing in the opposite direction, with case studies from organizations that were initially launched in emerging markets. With a specific focus on Latin America, the cases examine the experiences of entrepreneurs and reveal much-needed strategies for entry into developed markets. This book will undoubtedly be useful to both academics and practitioners as it covers a wide range of industries, products and services and takes a closer look at market platforms and high-impact entrepreneurship. Providing a valuable contribution to a relatively unexplored area, this is a compelling collection of insights into reverse entrepreneurship which presents practical solutions for entrepreneurs looking to expand their businesses in the future.

*Mexican Multinationals* Alvaro Cuervo-Cazurra,Miguel A. Montoya,2018-12-06 Over the past two decades, emerging market multinationals have become an important force in international business. This book provides a better understanding of the actions and strategies used by firms from mid-sized emerging markets to upgrade their capabilities and become successful multinationals. It is the first book to provide an in-depth look at Mexican multinationals, or 'Multimexicans'. These include some of the leading firms in the world, such as the construction materials producer Cemex and the tortilla maker Grumasa, as well as smaller but innovative firms such as the theme park Kidzania and the cinema multicomplex Cinépolis. This comprehensive analysis contains case studies written by local industry experts on these and other firms, across twenty-two industries. The lessons drawn will be of interest to researchers, students, and consultants, as well as managers and executives of firms in other emerging markets looking to upgrade capabilities and expand abroad.

Hollywood's Embassies Ross Melnick,2022-04-26 Winner - 2022 Richard Wall Memorial Award, Theatre Library Association Beginning in the 1920s, audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies. These theaters aimed to provide a quintessentially “American” experience. Outfitted with American technology and accoutrements, they allowed local audiences to watch American films in an American-owned cinema in a distinctly American way. In a history that

stretches from Buenos Aires and Tokyo to Johannesburg and Cairo, Ross Melnick considers these movie houses as cultural embassies. He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging, selling American ideas, products, and power, especially during fractious eras. Melnick demonstrates that while Hollywood's marketing of luxury and consumption often struck a chord with local audiences, it was also frequently tone-deaf to new social, cultural, racial, and political movements. He argues that the story of Hollywood's global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization. Instead, it is one of negotiation, booms and busts, successes and failures, adoptions and rejections, and a precursor to later conflicts over the spread of American consumer culture. A truly global account, *Hollywood's Embassies* shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U.S. soft power.

**Latin American Film Industries** Tamara L. Falicov, 2019-06-27 Film production in Latin America is as old as cinema itself, but local film industries have always been in a triangulated relationship with Hollywood and European cinema. This book situates Latin American film industries within the global circulation of film production, exhibition and distribution, charting the changes that the industries have undergone from the sound era to the present day. Focusing in particular on Argentina, Brazil and Mexico, Tamara Falicov examines commonalities among Latin American film industries, such as the challenges of procuring funding, competition from Hollywood, state funding battles, and the fickle nature of audiences, as well as censorship issues, competition from television, and the transnational nature of Latin American film. She addresses production, exhibition, and distribution contexts and financing and co-production with Europe and the United States, as well as the role of film festivals in funding and circulating films both within and outside of Latin America. Newer trends such as the revival of protectionist measures like the screen quota are framed in contrast to the U.S.'s push for trade policy liberalization and issues of universal concern such as film piracy, and new technologies and the role of television in helping and hindering Latin American cinema.

**Mexican Screen Fiction** Paul Julian Smith, 2014-01-27 Mexican cinema is booming today, a decade after the international successes of *Amores perros* and *Y tu mamá también*. Mexican films now display a wider range than any comparable country, from art films to popular genre movies, and boasting internationally renowned directors like Alfonso Cuarón, Alejandro González Iñárritu, and Guillermo del Toro. At the same time, television has broadened its output, moving beyond telenovelas to produce higher-value series and mini-series. Mexican TV now stakes a claim to being the most dynamic and pervasive national narrative. This new book by Paul Julian Smith is the first to examine the flourishing of audiovisual fiction in Mexico since 2000, considering cinema and TV together. It covers much material previously unexplored and engages with emerging themes, including

violence, youth culture, and film festivals. The book includes reviews of ten films released between 2001 and 2012 by directors who are both established (Maryse Sistach, Carlos Reygadas) and new (Jorge Michel Grau, Michael Rowe, Paula Markovitch). There is also an appendix that includes interviews carried out by the author in 2012 with five audiovisual professionals: a feature director, a festival director, an exhibitor, a producer, and a TV screenwriter. Mexican Screen Fiction will be an invaluable resource for students and scholars and essential reading for anyone interested in one of the most vibrant audiovisual industries in the world today.

**Globalization and Latin American Cinema** Sophia A. McClennen, 2018-05-25 Studying the case of Latin American cinema, this book analyzes one of the most public - and most exportable- forms of postcolonial national culture to argue that millennial era globalization demands entirely new frameworks for thinking about the relationship between politics, culture, and economic policies. Concerns that globalization would bring the downfall of national culture were common in the 1990s as economies across the globe began implementing neoliberal, free market policies and abolishing state protections for culture industries. Simultaneously, new technologies and the increased mobility of people and information caused others to see globalization as an era of heightened connectivity and progressive contact. Twenty-five years later, we are now able to examine the actual impact of globalization on local and regional cultures, especially those of postcolonial societies. Tracing the full life-cycle of films and studying blockbusters like *City of God*, *Motorcycle Diaries*, and *Children of Men* this book argues that neoliberal globalization has created a highly ambivalent space for cultural expression, one willing to market against itself as long as the stories sell. The result is an innovative and ground-breaking text suited to scholars interested in globalization studies, Latin-American studies and film studies.

**Achieving Excellence Through Customer Service** John Tschohl, 2011-09-22 If you've heard and read all you want to know about how bad service is in the world and how important service is to customers and to your bottom line, you may be ready for a little action. This is the 8th edition and has been updated with 2011 information. After many recent articles and books dealing with the need for quality service, few business managers remain unconvinced. Many, however, remain unequipped to express their commitment in action. The mission of this book is to equip the already convinced to implement the already proved: service is a strategy as powerful as marketing and as potent as a quality product itself in the ongoing effort to realize the full profit potential of a company. This book gives you detailed, step-by-step knowledge that you can use in establishing profitable customer service strategies. The profit-producing capability of an organization derives from impressions made by all employees on the organization's customers. The means of creating these impressions are the quality and efficacy of the product or service that the employees sell: the quality, accuracy, dependability, and speed of their service and the warmth of their human relationships with customers. Training and motivation for people who actually deliver service and how-to-do-it implementation instructions are the twin I-beams supporting the substance of this book. They are: The reason this book was written. The features that distinguish this book from other books on service. Among key benefits to readers of this book are: Hands-on ideas, skills, and techniques that can be used immediately. Knowledge about shaping employee attitudes, a powerful competitive force moving a firm toward greater market share, customer loyalty, and profitability.

**International Directory of Company Histories** Jay P. Pederson, 2007-02-06 This multi-volume series provides detailed histories of more than 8,500 of the most influential companies worldwide.

**New Transnationalisms in Contemporary Latin American Cinemas** Dolores Tierney, 2018-01-23 Through a textual analysis of six filmmakers (Alejandro González Iñárritu, Alfonso Cuarón, Guillermo del Toro, Fernando Meirelles, Walter Salles and Juan José Campanella), this book brings a new perspective to the films of Latin America's transnational auteurs.

**Screening Neoliberalism** Ignacio Sanchez Prado, 2014-06-30 Cavernous, often cold, always dark, with the lingering smell of popcorn in the air: the experience of movie-going is universal. The cinematic experience in Mexico is no less profound, and has evolved in complex ways in recent years. Films like *Y Tu Mama Tambien*, *El Mariachi*, *Amores Perros*, and the work of icons like Guillermo del Toro and Salma Hayek represent much more than resurgent interest in the cinema of Mexico. In *Screening Neoliberalism*, Ignacio Sanchez Prado explores precisely what happened to Mexico's film industry in recent decades. Far from just a history of the period, *Screening Neoliberalism* explores four deep transformations in the Mexican film industry: the decline of nationalism, the new focus on middle-class audiences, the redefinition of political cinema, and the impact of globalization. This analysis considers the directors and films that have found international notoriety as well as those that have been instrumental in building a domestic market. *Screening Neoliberalism* exposes the consequences of a film industry forced to find new audiences in Mexico's middle-class in order to achieve economic and cultural viability.

Global Media Dialogues Lee Artz, 2023-07-24 This book, the first of its kind, brings together leading scholars from multiple perspectives in a serious dialogue about continuity and change in global media production and content. Looking at a wide swath of the world, these authors show the emergence of transnational collaboration in global television and film production across national borders that seem to transcend national cultures and

identities. At the same time, traditional class analysis of such phenomena is reframed within the rise of myriad social movements for equality, democracy, human rights, and defense of the environment. What are the effects of media, local or global? Does the West continue to dominate or is cultural imperialism waning? With original chapters written by leading scholars from a variety of disciplines, this book will appeal to students and scholars interested in global media communication, cultural studies, and international political economy.

**Global Mexican Cultural Productions** R. Blanco-Cano, R. Urquijo-Ruiz, 2011-11-30 In this book, the authors propose a multilayered reading of contemporary transnational cultural manifestations in which it is possible to recognize challenges and cultural strategies that transnational Mexican communities conceive in order to claim cultural, political and social agency.

**Mexican Melodrama** Elena Lahr-Vivaz, 2016-10-18 In Mexican Melodrama, Elena Lahr-Vivaz explores the compelling ways that new-wave Mexican directors use the tropes and themes of Golden Age films to denounce the excesses of a nation characterized as a fragmented and fictitious construct. Analyzing big hits and quiet successes of both Golden Age and new-wave cinema, the author offers in each chapter a comparative reading of films from the two eras, considering, for instance, *Amores perros* (Love's a Bitch, Alejandro González Iñárritu, 2000) alongside *Nosotros los pobres* (We the Poor, Ismael Rodríguez, 1947). Through such readings, Lahr-Vivaz examines how new-wave directors draw from a previous generation to produce meaning in the present. Mexico's Golden Age of film—the period from the 1930s to the 1950s—is considered “golden” due to both the prestige of the era's stars and the critical and popular success of the films released. Golden Age directors often turned to the tropes of melodrama and allegory to offer spectators an image of an idealized Mexico and to spur the formation of a spectatorship united through shared tears and laughter. In contrast, Lahr-Vivaz demonstrates that new-wave directors of the 1990s and 2000s use the melodramatic mode to present a vision of fragmentation and to open a space for critical resistance. In so doing, new-wave directors highlight the limitations rather than the possibilities of a unified spectatorship, and point to the need for spectators to assume a critical stance in the face of the exigencies of the present. Written in an accessible style, Mexican Melodrama offers a timely comparative analysis of critically acclaimed films that will serve as key referents in discussions of Mexican cinema for years to come.
