Selling Contract Cleaning Services 101 Richard D. Ollek, 2008-08 This book chronicles God's involvement with America in the past up to the present times. While researching America's birth, it is easy to witness the hand of God working through faithful men to help create the foundations of this great country. This is easily demonstrated through the words of the Founding Fathers and the miraculous victory of a small rag-tag militia over the world's greatest superpower of the day; Great Britain. The author also demonstrates amazing parallels between the formation of this country and God's work in the creation of Israel in the days of David and Solomon. During the middle 1800s, many religions and philosophies began to pervade the American consciousness. Many cults found there growth out of this time period and the world was reshaped by the philosophical outgrowth of Darwinism and his godless explanation of the evolution of life. Eugenics followed on the heels of Darwinism, which set the stage for the bloodiest century in the history of humanity. This paradigm shift in the American consciousness reached its full fruition in the creation of the Federal Reserve, the Great Depression and the carnage of WWI and WWII. Humanity's answer to the carnage of WWII was not to repent to a Holy God, but to create the foundation of a One World Superstate known as the United Nations. The United Nations will never be able to achieve its stated goal as long as the United States is more powerful than this organization. Nevertheless, since the U.S. has drifted so far from God's word we find that the ultimate fate of our country is sealed by our revelations of God and His judgment. You will be amazed to discover just how much the bible has to say about America's future.

How To Start A Cleaning Business Elizabeth Branch,2012-04-01 There is a difference between desire and decision. After a bad day at work, or when a particularly big bill you hadn't expected arrives, every working person wants to have more money, wants to be his or her own boss. But really: that feeling is temporary. It's a reaction to current circumstances, and - for whatever reason - it will fade fairly quickly. That is the first lesson to learn in starting your own business: not everyone was meant to have one. Sometimes, of course, that desire persist. It will become solid and strong - something that doesn't fade in hours or days. And it's that driven desire that can lead you to make a decision - one that will change your life. And that's why you're holding this book in your hands, or reading it on your screen: because that fleeting dream just won't go away ... and you think you may really want to start a cleaning business of your own. This book will help you make an intelligent decision.

The Lost Art of JAN M. DOUGHERTY,2011-03 Yes! you really can clean your house and everything in it using just 3 products and it will cost you about \$20 per year. I have owned a residential cleaning company since 2004 and this book actually started life as my employees' handbook. Since this book was first published not much has changed. Dirt is still dirty and whether

or not you want to clean your home, it still has to be cleaned. Most people hate to clean simply because they don't know how to do it, they were never taught. Were you actually taught how to clean? Probably not, but that's not your fault. Do you want to learn how to do it, like a professional, using minimal products and saving a bucket of money on cleaning supplies? If you do, then buy my book. First, I will send you to the store with a short shopping list; I will explain why I use each product and then how to use each product or tool, which by the way isn't much. I will then explain the logic behind my method of cleaning, called The PATH and then I will literally walk you through cleaning the different rooms in your house. The beauty of The PATH is that you can start and stop a cleaning job in any room and not lose your place. Just pick up where you left off and continue until the room is clean. So go answer the phone or change the baby. I only use 3 readily available products in both my business and in my house to clean everything. No more need for window, floor, counter, toilet, sink, tub, shower and mirror cleaners. No more polishes, waxes or air fresheners. Just think about how much you spend a year on cleaning products? Go ahead, I'll wait while you look under your sinks and calculate that. More than \$20.00 per year? If you are spending more than that you need my book. Everyone that embraces my methodology has a cleaner home, extra money to spend on the important things and the time to enjoy them. I have a website; The Lost Art of House Cleaning.com where I have uploaded a number of videos demonstrating my methodology and posted numerous articles on cleaning particular things. I have read all the reviews posted about my book on Amazon and I found the vast majority to be very complimentary. I have also found that some of the harshest critics still recognized that my methodology works. In addition to the Amazon reviews I have personally received comments and compliments directly from the people that have bought my book. And I know that what I say in my book has helped thousands realize that cleaning their home is not all it's cracked to be if you know what you are doing. So buy my book, read it the first time for entertainment then read it a second time for inspiration and then, Enjoy the Clean! Thanks, Jan M Dougherty
