Zur Argumentationswirksamkeit der Abtönungspartikeln in der Sprache der kommerziellen Werbung Abdel-Hafiez Massud,2001-05-03 Inhaltsangabe:Einleitung: In der deutschen Sprachwissenschaft selbst gelten die Abtönungspartikeln und deren kommunikativer Stellenwert erst seit der 60er Jahren als eine Entdeckung. Die Pionierarbeiten hierüber stammen von Krivonosov und Weydt. Zu diesem Zeitpunkt hat man allmählich angefangen, mit der Auffassung aufzuräumen, dass Abtönungspartikeln als „Flick- oder Füllwörtchen“ abzutun sein. Die bisher entstandenen wissenschaftlichen Arbeiten befassten sich je mit einem Teilaspekt dieser Thematik. Im Bereich der kommerziellen Werbung wurde die allgemein-kommunikative und die argumentative Bedeutung dieser Partikeln jedoch kaum wahrgenommen. Ziel dieser Arbeit sei ist daher zu versuchen, diese Lücke zu schließen und auf ein sehr wichtiges Sprachmittel besonders aufmerksam zu machen, deren bewusster und zielorientierter Einsatz in der heutigen aufgeklärten Zeit besonders überfällig ist. Im Gegensatz zu den bisherigen wissenschaftlichen Arbeiten zu den Abtönungspartikeln befasst sich diese Arbeit mit einem besonders spezifischen Problem der Funktion der Abtönungspartikeln auf der semantischpragmatischen Ebene. In dieser Arbeit wird die Auffassung vertreten, dass Pragmatik und Semantik zusammengehören und keine Gegensätze darstellen. Im Vordergrund des Interesses steht hier die Argumentationswirksamkeit der Abtönungspartikeln in der Werbesprache. Ich beschränke mich damit nicht nur auf bestimmte Abtönungspartikeln, sondern auf eine bestimmte Verwendungssituation. Auch die Erfassung der potentiellen Partikelbedeutungen wird vor dem Hintergrund der besonderen Bedingungen dieser Verwendungssituation vorgenommen. Auf diese Weise hoffe ich, durch diese Einschränkungen zu neuen Einsichten in die Funktionalität dieser Wortklasse zu gelangen, da wissenschaftliche Arbeiten, die die allgemeinen, kontextunabhängigen Bedeutungen der Abtönungspartikeln zu erfassen versuchen, nicht auf Textsortenspezifik der Funktionen der Abtönungspartikeln eingehen. Es wird allerdings bei der Partikelanalyse in dieser Arbeit immer wieder auf die Ergebnisse vorangegangener Arbeiten zurückgegriffen. Diese Ergebnisse werden bei gegebenem Kontext für die Frage dieser Arbeit aus guten Gründen verwertet oder kritisch betrachtet. Das heißt, bildlich gesagt, ich trete hier nicht in die Fußstapfen von Kolumbus, um nur Amerika wiederzuentdecken. So hoffe ich wenigstens. Gerade die Abtönungspartikeln, wie diese Arbeit zeigen wird, verhalten sich nicht wie die Ampeln, die überall und in [...]

A Strange and Stubborn Endurance Foz Meadows,2022-07-26 “Many a reader longing for a sense of homecoming in the realm of romantic fantasy will find it in *A Strange and Stubborn Endurance*.”—Jacqueline Carey “Stolen me? As soon to say a caged bird can be stolen by the sky.” Velasin vin Aaro never planned to marry at all, let alone a girl from neighboring Tithena. When an ugly confrontation reveals his preference for men, Vel fears he’s ruined the diplomatic union before it can even begin. But while his family is ready to disown him, the Tithenai envoy has a different solution: for Vel to marry his former intended’s brother instead. Caethari Aeduria always knew he might end up in a political marriage, but his sudden betrothal to a man from Ralia, where such relationships are forbidden, comes as a shock. With an unknown faction willing to kill to end their new alliance, Vel and Cae have no choice but to trust each other. Survival is one thing, but love—as both will learn—is quite another. Byzantine politics, lush sexual energy, and a queer love story that is by turns sweet and sultry, Foz Meadows' *A Strange and Stubborn Endurance* is an exploration of gender, identity, and self-worth. It is a book that will live in your heart long after you turn the last page. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Writing, Authorship and Photography in British Literary Culture, 1880 - 1920 Emily Ennis,2022-03-24 At the turn of the 20th century, printing and photographic technologies evolved rapidly, leading to the birth of mass media and the rise of the amateur photographer. Demonstrating how this development happened symbiotically with great changes in the shape of British literature, *Writing, Authorship and Photography in British Literary Culture, 1880-1920* explores this co-evolution, showing

that as both writing and photography became tools of mass dissemination, literary writers were forced to re-evaluate their professional and personal identities. Focusing on four key authors—Thomas Hardy, Bram Stoker, Joseph Conrad and Virginia Woolf—each of which had their own private and professional connections to photographs, this book offers valuable historical contexts for contemporary cultural developments and anxieties. At first establishing the authors' response to developing technologies through their non-fiction, personal correspondences and working drafts, Ennis moves on to examine how their perceptions of photography extend into their major works of fiction: *A Laodicean*, *Dracula*, *The Secret Agent*, *The Inheritors* and *The Voyage Out*. Reflecting on the first 'graphic revolution' in a world where text and image are now reproduced digitally and circulated en masse and online, Ennis redirects our attention to when image and text appeared alongside each other for the first time and the crises this sparked for authors: how they would respond to increasingly photographic depictions of everyday life, and in turn, how their writing adapted to a distinctly visual mass media.
