Pfeffer, 2016-12-19 The AVEC symposium is a leading international conference in the fields of vehicle dynamics and advanced vehicle control, bringing together scientists and engineers from academia and automotive industry. The first symposium was held in 1992 in Yokohama, Japan. Since then, biennial AVEC symposia have been established internationally and have considerably contributed to the progress of technology in automotive research and development. In 2016 the 13th International Symposium on Advanced Vehicle Control (AVEC'16) was held in Munich, Germany, from 13th to 16th of September 2016. The symposium was hosted by the Munich University of Applied Sciences. AVEC'16 puts a special focus on automatic driving, autonomous driving functions and driver assist systems, integrated control of interacting control systems, controlled suspension systems, active wheel torque distribution, and vehicle state and parameter estimation. 132 papers were presented at the symposium and are published in these proceedings as full paper contributions. The papers review the latest research developments and practical applications in highly relevant areas of vehicle control, and may serve as a reference for researchers and engineers.

The Armoured Campaign in Normandy Stephen Napier, 2015-07-01 Beginning with the D-day landings, this is a frank appraisal of the planned use and actual results of the deployment of armour by both German and Allied commanders in the major tank battles of the campaign including Epsom, Goodwood, Cobra and Totalize. 'Tiger!' is a critique of how Montgomery's plans to seize territory and break out failed in the face of German resistance. It details the poor planning by British generals who made many mistakes and how the German convoluted chain of command contributed to their own defeat. Official reports, war diaries, After Action reports, letters, regimental histories, memoirs of generals and troopers are used to tell the inside story of the campaign from an armour point of view to give a different but detailed perspective. For the first time the book gives real numbers of tanks lost in the battle of the campaign from research at archives around the world.

Kern County Sports Chronicles Bryce Martin, 2013-11-19 Moon Mullen was an integral member of George Halas's old Chicago Bears. Verl Lillywhite played on the mid-century San Francisco 49ers, integrating the pro football roommates' tradition by bunking with Joe The Jet Perry. Rodeo star Chuck Roberson doubled for John Wayne when the stunt work got dicey. Jay Carty played on the Los Angeles Lakers with Jerry West. George Culver tossed a no-hitter for the Cincinnati Reds. What these former athletes and others profiled in this collection have in common is Kern County, California, and the good fortune to have had Bryce Martin covering their careers. With decades of experience writing for top publications, former St. Louis Cardinals prospect Martin offers a collection of profiles that forms a veritable Kern County sports hall of fame.

The Tank Commander Pocket Manual R. Sheppard, 2016-08-19 From the pioneering tactics and terror of the Blitzkrieg assault, through the carnage of Barbarossa, Kursk, the Desert War, and the Normandy Bocage and the Battle of the Bulge, there were perhaps no more unsettling and merciless positions to occupy in the Second World War than that of a tank commander. This new book puts the reader at the very heart of this "hell on wheels" and presents all of the original information required to perform this most dangerous of wartime battlefield roles. From training manuals and war office memorandums to combat reports and first-hand accounts, The Tank Commander Pocket Manual sits you in the turret position of commander of some of the most fearsome land vehicles. These include the Soviet T-34, the German Panther and its nemesis the American Sherman, the terrifying Tiger I as well as tank variants including flamethrowers and tank destroyers such as the Allied M10 and the StuG III. Original documents, diagrams, technical drawings and reports have been collated and compiled from archives and collections to include original Russian, German and English angles on the commander's many roles including how to 'run' the rest of the crew of this most decisive weapon of the Second World War. • Published to mark the centenary of the tank • Rare, previously unpublished documents • Attractively produced in cloth-bound retro-styled case R Shepherd has worked for many years in military publishing for leading companies such as Casemate and Osprey, and has compiled a number of books. Pool of London Pocket Manuals The new Pocket-Manual series from the Pool of London Press presents some of the most iconic military, naval and transport machines from the last 100 years by means of compiling the original documents, confidential memos, plans and artworks that contributed to their celebrated history. This approach allows the modern reader both to have an excellent understanding of the development of these extremely influential aircraft, AFVs, ships, automobiles and trains, but also provides the unique opportunity for further interpretation through the study of many previously unpublished original documents, diagrams and illustrations. Every volume in the series is skillfully compiled and researched by the leading experts in their field who also provide a lengthy contextualizing introduction. Superbly priced, retro-styled to their historical period, and beautifully hard-bound in debossed cloth, the Pool of London Pockets sell as self-purchase, gift and are excellently suited to book trade as well as to museum stores and heritage outlets across the world.
