Kimberly McCreight

Collide Gail McHugh, 2013-09-17 Her mind tried to fight a bloody battle against what her body already knew. She wanted him, and she wanted him bad. On the heels of college graduation and the unexpected death of her mother, Emily Cooper moves to New York City to join her boyfriend for a fresh start. Dillon Parker has been sweet, thoughtful, and generous through Emily's loss, and she can't imagine her life without him—even as her inner voice tells her to go slow. Then she meets Gavin Blake. A rich and notorious playboy, Gavin is dangerously sexy and charming as hell. Their first encounter is brief, but it's enough to inflame Emily's senses. When their paths cross again through an unexpected mutual acquaintance, she tries to deny the connection she feels, but Mr. Tall, Dark, and Handsome won't let go so easily. As she discovers Gavin's pain-filled past and Dillon's true nature begins to surface, Emily knows she must take action or risk destroying everyone—including herself. But how can she choose when she can't trust her own heart?

He tells her he has come to protect her and her brother and takes her underground, against her will to save her, where they meet others like them. She begins to unravel the truth about Merrick, about what he's really doing

there, about the way he looks at her, about the crazy dangerous world they live in. Can he convince her that he's there to help? Will she like what she finds when she opens up to the truth? Will he be the one to love her when everyone else has failed? Will he be able to protect her?

When You and I Collide Kate Norris, 2021-06-08 A race against time, war, and the very fabric of the universe itself, perfect for fans of Sliding Doors and 11/22/63. Sixteen-year-old Winnie Schulde has always seen splits--the moment when two possible outcomes diverge, one in her universe and one in another. Multiverse theory, Winnie knows, is all too real, though she has never been anything but an observer of its implications--a secret she keeps hidden from just about everyone, as she knows the uses to which it might be put in the midst of a raging WWII. But her physicist father, wrapped up in his research and made cruel by his grief after the loss of Winnie's mother, believes that if he pushes her hard enough, she can choose one split over another and maybe, just maybe, change their future and their past. Winnie is certain that her father's theories are just that, so she plays along in an effort to placate him. Until one day, when her father's experiment goes wrong and

Scott, the kind and handsome lab assistant Winnie loves from afar, is seriously injured. Without meaning to, Winnie chooses the split where Scott is unharmed. And in doing so, finds herself pulled into another universe, an alternate reality. One that already has a Winnie. In this darkly thrilling novel that blends science and war with love and loss, some actions just can't be undone. When We Collide Rebecca J. Epstein-Levi, 2023-03-07 *When We Collide* is a landmark reassessment of the significance of sex in contemporary Jewish ethics. Rebecca Epstein-Levi offers a fresh and vital exploration of sexual ethics and virtue ethics in conversation with rabbinic texts and feminist and

queer theory. Epstein-Levi explores how sex is not a special or particular form of social interaction but one that is entangled with all other forms of social interaction. The activities of sex—doing it, talking about it, thinking about it, regulating it—are sites of ongoing moral formation on individual, interpersonal, and communal levels. *When We Collide* explores the development of Jewish sexual ethics, and represents an opportunity to move beyond the usual heteronormative accounts that are presented as though they were neutral representations of what Judaism teaches about sex.

The Collide Series Millie Belizaire, 2018-07-30 Millie Belizaire's Collide Series - All-In-One Only available in paperback. Sometimes love comes unexpectedly... Lauren is a spoiled daddy's girl, brought up under the protection of Miami's elite black society. With a law professor for a mother,

and a state attorney for a father, she has been raised to understand the law down to its most fundamental form. She's what they call, in every sense of the term, a Good Girl. As her father prepares to take on the biggest case of his career--going against Miami's most notorious kingpin, Silas Montgomery--tensions begin to rise, and our Good Girl becomes Silas Montgomery's newest target. Now on the radar of the most dangerous man in Miami, Lauren's perfect world goes up in flames. Everyday becomes a constant battle to stay alive. Kain is about as close to Silas Montgomery as most people can get. Unlike Lauren's world of sheltered ease, his world is dark and dangerous. He's been raised by the code of the streets, hardened by life's harshest lessons. Not many people are out here doing Kain any favors. Especially not the kind of favor he extends to Lauren. Protection--that's what he offers her. Protection from the most dangerous man in Miami. Lauren and Kain's story is tale of love crossing over to the different side of the tracks. Their's is a tale of what happens when worlds collide. *** In the wake of a national tragedy (and a personal one), the last thing Kain needs is another affront to his peace. Just when he thought things couldn't possibly get worse--they do. Book two in The Collide Series is a look into the enigmatic spirit that is Kain Montgomery. Picking up where book one left off, Kain is caught between a rock an a hard place and must make a very dangerous decision in order to protect his girlfriend. Just as the smoke begins to clear and life begin to return to normal, another threat presents itself, but this threat can't be so readily dealt with. Because this threat is his father... *** After waking up at the hospital last year, dreams of conversations she'd had in her coma were not the only thing that visited her at night. On the nights where she didn't dream of Kain, nightmares ate away at her peace of mind constantly. Most of

the time, it would be a vivid reliving of that awful night in July, when she felt her life slip through her fingers like sand. She died that day. Literally. There was this chunk of time that went blank between the moment she heard the cracking of the gunshot and then waking up sixteen days later, gaunt, scarred, and childless. Clearly, she went to hell. And she relived that night in her nightmares at least once a week for the past sixteen months.
