Myanmar (Burma) since 1962: the Failure of Development Peter John Perry, 2021-02-27 Why has Myanmar (Burma), a country rich in resources - rice, timber, minerals - descended to 'least developed country' status? Is the explanation to be found inside Burma or beyond? Is the failure of development due to political authoritarianism and conflict? Or perhaps the drugs trade is partly to blame? This book contends that all these factors have contributed. But it also maintains that the mismanagement of the country's resources is of equal, or even greater, importance. A clear answer to the question of Burma's developmental failure is sought by focussing upon the misuse of resources in concert with those factors that are more usually emphasized.

Managing the Media in the India-Burma War, 1941-1945 Philip Woods, 2022-08-11 This book explores how the media was used by the armed forces during the India-Burma campaigns of WWII to project the most positive image to domestic and international audiences of a war that often seemed neglected or misunderstood. Discussing how soldiers were, for the first time, able to access newspapers and radio broadcasts relating stories of the campaigns they were actively fighting in, *Managing the Media in the India-Burma War* reveals not only the impact that the media had in maintaining troop morale, but how the military recognised that the media could be a valuable arm of warfare. Revealing how troops responded to reports of their operations, Philip Woods demonstrates the role of the media in creating the 'Forgotten Army' syndrome, which came about in the last two years of the Burma campaign. Focusing on the British Media, but with examples from the United States and India, including Indian war correspondents, it discusses India's role in the Second World War in relation to social, economic and political developments at the time. Honing in on India and Burma at a turning point in their road to independence, this book offers a fresh angle on a well-known military conflict, unpicks the various constraints and influences on the media in wartime, and links the campaign to India's crucial role in WWII.

The China-Burma-India Campaign, 1931-1945 Eugene L. Rasor, 1998-03-19 The China-Burma-India campaign of the Asian/Pacific war of World War II was the most complex, if not the most controversial, theater of the entire war. Guerrilla warfare, commando and special intelligence operations, and air tactics originated here. The literature is extensive and this book provides an evaluative survey of that vast literature. A comprehensive compilation of some 1,500 titles, the work includes a narrative historiographical overview and an annotated bibliography of the titles covered in the historiographical section. Following an introductory historical essay and a chronology, the historiographical narrative covers land, water, underwater, air, and combined operations, intelligence matters, diplomacy, and logistics and supply. It also examines the memoirs, diaries, autobiographies, and biographies of the personnel involved. Such cultural topics as journalism, fiction, film, and art are analyzed, and existing gaps in the literature are looked at. The bibliography provides both descriptive and evaluative annotations.

SOCIAL ETIQUETTE AND MANNERS Mutea Rukwaru, 2020-06-12 Etiquette, the complex network of rules that govern good behaviour and our social interactions is always evolving and changing as society changes. Without etiquette, members of society would show far too much impatience and disrespect for one another, which would lead to insults, dishonesty, cheating, road rage, fist fights and a rash of other unfortunate incidents. Etiquette help us show respect and consideration to others and makes others glad that we are with them. Without proper etiquette, the customs of polite society would soon disappear and we would act more like animals and less like people. Aggressiveness and an “every man for himself” and God for us all attitude would take the lead.

The Cuckoo's Nest Jagdish Joshi, 2013-08-13 Terror outfits in Asia are looking beyond the 9/11 episode to terrorize the world with nuclear devices. Rogue nuclear scientists involved in smuggling and dissemination of WMD technologies are eager to help Al Qaeda and similar groups in achieving their objectives. Russian mafia groups are arranging sale of nuclear scrap retrieved from ICBM's dismantled under SALT Treaty agreements to whoever is willing to pay in bullion and US Dollars. Indian Intelligence agencies discover a major money laundering operation in Mumbai. A British hydrocarbon specialist working at a major drilling site is kidnapped and taken to Myanmar as hostage. The Tamil Tiger guerillas of Sri Lanka demand the British Government release a Lankan rogue scientist undergoing prison term for smuggling contraband nuclear material, in exchange of the hostage in Myanmar. The murder of a senior executive involved in the money laundering operations in Mumbai sends Indian sleuths on tracing money trails to Sri Lanka, Bangkok and Chiang Mai. The daring rescue of a Bangladesh nuclear scientist held captive for three decades and blackmailed to work on a project of WMD's by the ISI, exposes the conspiracy to arm Qaeda with nuclear devices.
