Learn the Nautical Rules of the Road Paul Boissier,2018-07-03 Collisions are expensive! Learning, understanding and remembering the International Regulations for Preventing Collisions at Sea (COLREGs) is essential for anyone venturing onto the water. Leisure boaters, as much as professional mariners, need to know the rules, and a firm understanding is required to pass many nautical exams. But with the COLREGs stretching to over 12,000 words, this is no small task. This is where Paul Boissier's excellent book comes in. Paul knows the COLREGs backwards having used them extensively in his career with the Royal Navy – from the bridges of submarines and warships which he has commanded, with each giving a rather different perspective on other shipping! He also knows the other side well with his extensive cruising experience, from his early years with his father to now, sailing his own yacht. These experiences mean that he knows and understands the COLREGs from both sides and this gives him the ability to take you through the COLREGs from a mariners' and sailors' perspective. He brings the vital, but dry, document to life, going through it not in order, but by topics which are relevant to the mariner and sailor. Paul explains the intention of each rule and how it should be applied when at sea. He includes personal anecdotes (not all favourable to him!) which make everything real and tells us how he remembers different aspects of the Regulations through mnemonics and other devices. Finally, each chapter ends with a self-test to reinforce what has been learnt – other tests are also available online on the Fernhurst Books' website. This new edition has been updated with the 2016 changes to the COLREGS. Whether you want to increase your confidence, pass an exam, require an on-board reference, or wish to improve your understanding of the nautical rules of the road, this is the ideal book for you.

RYA Collision Regulations (G-G2) Royal Yachting Association,Melanie Bartlett,2018-09-28 The International Regulations for Preventing Collisions at Sea (COLREGS/IRPCS) are vital for maritime safety as you must be able to identify vessels during the day by their special shapes, and at night time by their lights, as well as understanding both your obligations and those of other vessels as you interact with one another. This new edition provides a clear and authoritative explanation of each regulation. Illustrations have been enhanced and it will help any seafarer understand their responsibilities, meaning that everybody at sea will be safer. Contents: • Foreword • Introduction • Who, Where, When? • Assessing the Risk • Narrow Channels and Separation Schemes • Who Gives Way? • Fog! • Lights and Shapes • Sound and Light Signals • The Small Print • Key Points In response to feedback, this new edition has been restructured to lead customers through the regulations by rule order, split into themes (i.e. restricted visibility) with a view to helping readers quickly reference the content. Reeds Marine Deck 1: Collision Regulations Handbook Simon Jinks,2023-02-02 A practical and user-friendly guide to the collision regulations, with full interpretations of the rules and clear diagrams. A thorough understanding of the International Regulations for the Prevention of Collisions at Sea (ColRegs) is essential for a wide range of professionals as well as amateur mariners. Written in legal text rather than easy to understand terminology, it is not a surprise that the Colregs are subject to gross misunderstanding and confusion. This makes this a difficult area for the thousands of mariners who need to learn, understand and remember them. This handbook is the answer. Expert marine training director Simon Jinks provides straightforward explanations of the complex situations that the Regulations discuss. He gives simple and comprehensive interpretation of the ColRegs rule by rule, giving students and professionals the clarity they need for exam prep and dealing with real-life situations. Colour illustrations of all lights and shapes, and clear diagrams provide additional support for students. The handbook also includes chapters on bridge watch-keeping, radar plotting and techniques for answering ColRegs questions in MCA exam conditions. It shows you where other maritime regulations work hand-in-hand with ColRegs. Simon Jinks is an experienced teacher of ColRegs to students who are studying for MCA Masters, OOW, Boat master and Chief Mates exams, plus those who are studying for RYA Yachtmasters and IYT Master of Yacht Qualifications and want to have an in-depth knowledge. The book adapts the author's teaching notes, developed over many years, with added extras around the subject to help in greater understanding.

Collisions at Sea Harry Hirst,2019-04-06 It has been over forty years now since the present International Regulations for Preventing Collisions at Sea—the Collision Regulations—came into force. It's been over forty years in which there have been considerable technological improvements in ship design and equipment. Despite these improvements, however, mariners are still having collisions; and marine lawyers are still being called upon to settle liability for these collisions. Understanding how the courts interpret the Collision Regulations and apportion liability, therefore, will benefit both the mariner and the marine lawyer and all those involved in teaching the rules and investigating the causes of collisions at sea. This book is for you.
