Command & Conquer (tm) Keith R.A. DeCandido,2009-07-22 The official novel of the bestselling real-time strategy franchise • In the twenty-first century, Earth is infested with Tiberium, an alien substance that could be humanity’s salvation . . . or its downfall. Though Tiberium is a resource that could solve the world’s energy crisis, it is also incredibly destructive, spreading disease, death, and devastation. Tiberium has divided the planet into two factions: the Global Defense Initiative (GDI), which tries to maintain order at any cost, and the Brotherhood of Nod, a terrorist organization turned superpower that believes with religious fervor in the potential of Tiberium. The groups have already fought two world wars, killing millions. Now, in the year 2047, a vicious Nod attack compels GDI to mobilize. Another epic global war is being waged, with humanity’s fate in the balance. One of GDI’s top units, the 22nd Infantry Division, must halt Nod’s agenda and keep the world from devolving into further chaos and loss of life. But in the midst of heavy fighting all over the world, mysterious visitors arrive . . . who may spell doom for the human race.

Command Of The Air General Giulio Douhet,2014-08-15 In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh “Boom” Trenchard of Great Britain and William “Billy” Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet’s central

vision-that command of the air is all important in modern warfare-has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.
