Countdown Deborah Wiles, 2016-04-26 The story of a formative year in 12-year-old Franny Chapman's life, and the life of a nation facing the threat of nuclear war. Franny Chapman just wants some peace. But that's hard to get when her best friend is feuding with her, her sister has disappeared, and her uncle is fighting an old war in his head. Her saintly younger brother is no help, and the cute boy across the street only complicates things. Worst of all, everyone is walking around just waiting for a bomb to fall. It's 1962, and it seems that the whole country is living in fear. When President Kennedy goes on television to say that Russia is sending nuclear missiles to Cuba, it only gets worse. Franny doesn't know how to deal with what's going on in the world -- no more than she knows how to deal with what's going on with her family and friends. But somehow she's got to make it through. Featuring a captivating story interspersed with footage from 1962, award-winning author Deborah Wiles has created a documentary novel that will put you right alongside Franny as she navigates a dangerous time in both her history and our history.

Countdown Alan Weisman, 2013-09-24 Every four days there are a million more people on the planet. More people and fewer resources. In this timely work, Alan Weisman examines how we can shrink our collective human footprint so that we don't stomp any more species - including our own - out of existence. The answer: reducing gradually and non-violently the number of humans on the planet whose activities, industries and lifestyles are damaging the Earth. Defining an optimum human population for the Earth is an explosive concept. Weisman, one of the most brilliant environmental writers, will travel the globe, from the settlements of Israel and the plains of Mexico to the bustling streets of Pakistan and the teeming cities of the UK. In his search for answers, he will speak to religious leaders, demographers, ecologists, economists, engineers and agriculturalists in what

promises to be an international classic.

Countdown Ben Mikaelson, 1997-10 When fourteen-year-old Elliot Schroeder is selected by NASA to be the first Junior Astronaut, he has no way of knowing the profound effect it will have on Vincent Ole Tome, a Maasai herder who is also fourteen years old. An unexpected event puts the boys in contact via short-wave radio, and an African drought and an in-space emergency bring about a climactic face-to-face meeting. Provocative and action-packed, this novel probes culture and value differences while offering plenty of perilous exploits for fans of high adventure.

Revelation Countdown Cris Mazza, 1993 Projects onto the open road not the nirvana of personal freedom, but rather a type of freedom more closely resembling loss of control. While in many ways reaffirming the mythic dimension of being on the road romanticized in American pop and folk culture, *Revelation Countdown* also subtly undermines that view. These stories project onto the open road not the nirvana of personal freedom, but rather a type of freedom more closely resembling loss of control. Being in constant motion and passing through new environments destabilizes life, casts it out of phase, heightens perception, and skews reactions. Every little problem is magnified to overwhelming dimension. Events segue from slow motion to fast forward. Background noises intrude, causing perpetual wee hour insomnia. Imagination flourishes, often as an enemy. People suddenly discover that they never really understood their travel companions. The formerly stable line of their lives veers

off course. In such an atmosphere, the title Revelation Countdown, borrowed from a roadside sign in Tennessee, proves prophetic. It may not arrive at 7:30, but revelation will inevitably find the traveler.

Countdown Deborah Wiles, 2010 Eleven-year-old Franny deals with the challenges of growing up against the backdrop of the Cuban Missile Crisis of 1962. Interspersed with the text are photographs, news items, and advertisements from the early sixties.

Countdown: M Day Tom Kratman, 2011-09-01 War is brutal. Colonel Wes Stauer gets it. He ought to. He was once one of war's most brutal practitioners^{3/4}not to mention one of its most effective and least bloody. Brutal yes; stupid no. Now, not only must Stauer command his crack outfit of former comrades and pull off yet another miracle mission, he must also harness and direct the brute within himself^{3/4}a beast he will need in order to destroy an intelligent enemy who is as implacable as Stauer himself. Okay, almost as implacable. There will be war. And there will be warriors like Wes Stauer who have the know-how and, once set in motion, the unstoppable professional drive, to see the bad guys to their graves and destroy every last earthly piece of their nasty legacies. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Who is after her-and what do they want so badly they'll kill anyone in their way? That's what Jane is determined to find out, without the help of the police, the FBI, or her adoptive parents, forensic sculptor Eve Duncan and her husband, Joe Quinn, of the Atlanta PD-because whoever is after her won't hesitate to hurt those she loves the most. Now Jane will go on the run with the only man who may be more dangerous than those who are pursuing her. A smuggler, a con man, and who knew what else, Mark Trevor had his own mysterious reasons for wanting to keep Jane safe and out of the hands of a killer obsessed with a two-thousand-year-old mystery that could rock the modern-day world. Orphaned at an early age, Jane grew up the hard way, but she was given a new life, a loving family, and a chance to pursue her interest in one of the greatest archaeological finds ever unearthed.
