Floor Plan Manual Oliver Heckmann,Friederike Schneider,2012-12-13 This housing construction design manual documents and analyzes some 130 international residential structures from the last fifty years. From the standardized floor plans of the 1960s to the more individual concepts of the 1980s and the changed requirements and housing types of recent years, example structures by famous and lesser known architects from throughout the world showcase the tremendous variety of possible designs. The categorization of projects from a town planning perspective is supplemented by the detailed typological description of the relevant housing types. Every project is presented with its typical floor plans to a scale of 1:200; sections, site plans, and photographs illuminate each building's structure and situation. In addition to incorporating some forty new projects, this new edition now contains figure-ground diagrams that highlight the most salient features of the floor plans, making them even easier to compare.

Render Floor Plans with Photoshop Robert H. Frank,2018-11-19 Render Floor Plans with Photoshop emphasizes a step-by-step process showing how to render CAD floor plans. The book focuses on rendering a residential floor plan from start to finish. Each chapter is broken down by room and the rendering of common materials associated with them. It includes detailed instructions on how to add seamless fabric textures to furniture, render wood floors, carpet, stainless steel, and many other common architectural elements and materials. In addition this book shows how to add shadows and shading, giving floor plans a 3D quality. Start from the beginning or jump to different sections to learn specific techniques relevant to your own projects. Developed for both students and professionals alike.Written and illustrated by Robert H. Frank who has a degree in architecture from Rhode Island School of Design. He has extensive experience as an architectural illustrator and college instructor.

The Room Planner Paula Robinson, Phil Robinson, 2014-04-14 Most of us want to improve our homes and to increase their value at the same time, but very few of us have the money to spend on a professional architect. In Room Planner designer Paula Robinson gives you all the ideas and practical information you need to adapt the space in which you live. The book features over 100 clear, colour-coded plans allowing you to pick and choose layouts and designs according to what's appropriate for your home, whether you have a bedsit or a five-bedroom house. To reflect changing lifestyles, the emphasis is very much on versatility and flexibility, with chapters on High-performance space (making maximum use of available space), Valuable space (dividing space to create additional rooms and increase property value), Flexible space (creating moveable partitions) and Individual space (innovative solutions for particular rooms). There's also basic advice and tips, including: Using colour in the home: blue helps to focus the mind and intellect; green has harmonious, soothing effects; yellow stimulates and invigorates; orange stimulates the appetite. Using shapes: the kidney shape brings a softness and flexibility to interiors; circles introduce a sense of freedom and space. Creating atmosphere: an inset fire set higher up in the wall can have a stunning effect; backlit cupboard doors draw the eye; concealed lighting introduces mood and atmosphere while creating a sense of depth;

mirroring the wall opposite the entrance door can bring life and character to a property. This is an essential manual not only for homeowners seeking to rethink their living space, but also for those who are building their home from scratch. Paula and Phil's guide will inspire in you the confidence and enthusiasm to maximise the potential of your living space, so that you too can create your dream home.
