The Room Planner Paula Robinson, Phil Robinson, 2014-04-14 Most of us want to improve our homes and to increase their value at the same time, but very few of us have the money to spend on a professional architect. The book features over 100 clear, colour-coded plans allowing you to pick and choose layouts and designs according to what's appropriate for your home, whether you have a bedsit or a five-bedroom house. There's also basic advice and tips, including: Using colour in the home: blue

helps to focus the mind and intellect; green has harmonious, soothing effects; yellow stimulates and invigorates; orange stimulates the appetite. Using shapes: the kidney shape brings a softness and flexibility to interiors; circles introduce a sense of freedom and space. Creating atmosphere: an inset fire set higher up in the wall can have a stunning effect; backlit cupboard doors draw the eye; concealed lighting introduces mood and atmosphere while creating a sense of depth; mirroring the wall opposite the entrance door can bring life and character to a property. This is an essential manual not only for homeowners seeking to rethink their living space, but also for those who are building their home from scratch.
