Create Your Own Website Using WordPress in a Weekend Alannah Moore,2013-09-11 Having a website built can be a complicated and expensive undertaking. For large businesses this is a necessary expense, but for the ever-increasing number of independents and small businesses, this can easily be handled by the intrepid amateur. In *Create Your Own Website Using WordPress in a Weekend*, author Alannah Moore draws on her extensive experience to show how, in just a weekend, almost anyone can create a website in WordPress that looks professional and is entirely tailored to their needs and preferences. Through carefully structured step-by-step tutorials, the book takes the reader through every stage of the web design process. It is illustrated with fabulous examples, and features checklists and tips throughout, covering domain registration, planning, plugins, and choosing the right theme. This will cover the upcoming WP 2012 version.

All Things Medieval [2 volumes] Ruth A. Johnston,2011-08-15 This insightful survey of the things of medieval Europe allows modern readers to understand what they looked like, what they were made of, how they were created, and how they were used. *All Things Medieval: An Encyclopedia of the Medieval World* covers the widest definition of medieval Europe possible, not by covering history in the traditional, textbook manner of listing wars, leaders, and significant historic events, but by presenting detailed alphabetical entries that describe the artifacts of medieval Europe. By examining the hidden material culture and by presenting information about topics that few books cover—pottery, locks and keys, shoes, weaving looms, barrels, toys, pets, ink, kitchen utensils, and much more—readers get invaluable insights into the nature of life during that time period and area. The heartland European regions such as England, France, Italy, and Germany are covered extensively, and information regarding the objects of regions such as Byzantium, Muslim Spain, and Scandinavia are also included. For each topic of material culture, the entry considers the full scope of the medieval period—roughly 500–1450—to give the reader a historical perspective of related traditions or inventions and describes the craftsmen and tools that produced it.
