**Get the Picture?!** Brent Marchant,2014-12-22 Get the Picture?!: Conscious Creation Goes to the Movies provides an in-depth look at how movies illustrate the principles of conscious creation (also known as the law of attraction), the means by which we manifest the reality surrounding us through the power of our thoughts, beliefs and intents. In this newly revised and updated edition, author Brent Marchant offers readers a road map to understanding the process, with reviews of films from a wide array of genres to show how those pictures exemplify the principles in question. Readers learn how to get the picture with regard to this practice. The result is a work that both enlightens and entertains all in one.

**Third Real** Brent Marchant,2017-10-07 Every good movie deserves a great sequel, and so it is with books, too. In his latest offering, Third Real: Conscious Creation Goes Back to the Movies (ISBN 978-1976207501, 2017), award-winning author Brent Marchant builds on the principles explored in his previous two titles, further explaining how the world of film helps to illustrate the process behind the world we create. As in his earlier works, Marchant draws upon his signature approach of using film critiques to show how movies reflect the principles of conscious creation (also known as the law of attraction), the philosophy that maintains we materialize the reality we experience through the power of our thoughts, beliefs and intents. By employing insights that are both enlightening and entertaining, Marchant offers readers an engaging, practical look at these topics and the complementary relationship between them for explaining how our reality comes into being.

GROW THIN WHILE YOU SLEEP Daya Devi Doolin,2017-01-14 When you say I AM you assert the reality of your existence; not the mere reality of the physical existence, which is but temporary and relative, but your real existence in the Spirit, which is not temporary or relative, but is eternal and absolute. The real I is not body, but is the Spirit principle which is manifesting in body and mind. Yogi Ramacharaka Now that you have decided to transform your life and purchased this book, I'm happy to be your guide. You can use the universal principles I have shared within this book that I used to heal myself, to play the guitar again, to get up in the middle of the night by myself, to drive again and continue doing yoga again. As I alluded to earlier, I used these same principles to release the weight that I had put on during and after my recovery from surgery. You will be guided in how to contact your subconscious mind while going to sleep, while sleeping, and immediately after waking up. Of course it is available at any time, but sleep time is a power-packed time for transformation because the ego and conscious mind are resting and out of the way. I will show you how universal principles have worked in my life and how you can have them work for you as well. This is true on any level of business, career, health, healing, improved relationships, and releasing weight. I don't use the words lose weight because I don't want you to think you need to find the weight again. It's not lost, it's released into the ethers and transmuted from your consciousness if you allow and trust. Enjoy the miracles that you are NOW ready to receive! Realize that the miracles are not one-sided but are many faceted for all parts of your life. Do not be obsessed about your body. Love it and grow into loving it more. Release your attack mode and allow the Universe to bless you. Release and let go. Find out how your Creative Mind is the Master of your Success. Learn to figure it does matter what you decide to eat. -You will learn to Recognize Your Stumbling Blocks

**For the Love of Our Children** Rose-Anne Partridge,2020-10-23 Many parents will agree that navigating the roads of parenthood is a challenging task, even at the best of times. However, when you have a child with special needs, the list of considerations and tasks only grows. It begins by learning about the special needs of the child, researching further, locating and accessing effective treatments and resources that conventional parenting doesn't require, and imperatively, coping with the emotional and physical demands of caring for an individual with special needs. Going beyond a how-to book, For the Love of Our Children takes the stories and perspectives of 15 families who are all navigating similar paths in their own unique way, creating a profound and relatable roadmap to help our special children live to their fullest potential. Their stories will leave you crying, nodding with understanding, and cultivating gratitude for your own story. Most importantly, this book will be a reminder that you are never alone in your journey.

*Bioemergency Planning* Angela Hewlett,A. Rekha K. Murthy,2018-09-28 This text gathers the weaknesses revealed during recent infections outbreaks and organizes them into a guide for combating the trends in emerging infections as they relate to hospital preparedness. As the first book to exclusively explore infectious emergencies, the text begins by reviewing potential pathogens and the clinical issues that may threaten hospital safety before delving into the best operational guidelines for commanding a staff under extreme circumstances, including incident command, communication, transport, maintenance, and a myriad of other topics that can remain manageable with proper protocol. Written by experts in the field, this text is the only one that offers the most effective clinical responses to a crisis at every level of care, including special population, laboratory techniques, care of the deceased, behavioral support, and medical documentation. The text concludes by focusing on the reality of care by introducing true examples from the field and the lessons gained from these cases. Bioemergency Planning is a vital resource for infectious disease specialists, hospitalists, epidemiologists, internal medicine physicians, nurses, social workers, public health officials, and all medical professionals who need to be prepared to respond to an infection outbreak.
