Sports Event Management Ben Tyson,Leslie-Ann Jordan,David Truly,2016-04-01 Exploring sports event management from a Caribbean, small island developing state perspective, this volume uses the events of the recently held Cricket World Cup 2007 (CWC 2007) as a launching pad for identifying best practices and the way forward. The CWC 2007 was the first time in any sport, a World Cup was staged in nine independent countries. None of the Caribbean territories hosting a match has a population larger than Jamaica's 3.4 million; most have less than a quarter of a million people; economies are small and infrastructure limited. The hosting of this event produced significant lessons that the region and the world can learn from concerning sports event management.

Limitless Nishad Pai Vaidya, Sachin Bajaj,2022-11-19 The year 2007 was game-changing for Indian cricket. In March that year, Indian cricket was rocked by the early exit at the 50-over World Cup in the Caribbean. However, in the months ahead, the team picked up the pieces and charted a path to recovery. In the backdrop was the ICC World T20 2007 - the first ever world championship in the format. India opted to back the youngsters, led by Mahendra Singh Dhoni. There were no expectations or the pressure of history. In South Africa, MS Dhoni and his men dazzled the public and clinched victory in a dramatic final against arch-rivals Pakistan. A lot happened on and off the field in the months between India's nadir and zenith that year. This book explores those events and recounts how Indian cricket changed in those months. The ripple effects of that victory are felt even today as India's cricket loving public embraced T20 cricket and created a big market for the format.

Organisational Performance Management in Sport Ian O'Boyle,2015-11-19 Effective performance management systems are essential in any successful organisation. In both commercial sport business and not-for-profit sport organisations, the pressure to follow international best practice in performance management has grown significantly in recent years. Organisational Performance Management in Sport is the first book to show how performance management concepts, tools and principles can be applied in the modern sport environment. Linking theory and practice throughout, the book defines fundamental performance parameters impacting on sport organisations, and introduces key issues such as individual performance management through to board-level governance structures, presenting extended real-world case studies and practitioner perspectives. As such, it offers the most clear and complete outline of performance management in sport organisations available. With case studies, insight boxes and industry examples integrated throughout the text, Organisational Performance Management in Sport offers accessible and vital reading for all sport management students, researchers and professionals with an interest in this important area of sport management research and practice.

HCI International 2020 – Late Breaking Posters Constantine Stephanidis,Margherita Antona,Stavroula Ntoa,2020-11-07 This book constitutes the extended abstracts of the posters presented during the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as “Late Breaking Work” (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 82 papers presented in this volume are organized in topical sections as follows: design for all and sssisitive technologies; virtual, augmented and mixed reality; learning; HCI, culture and art; health and wellbeing applications; HCI in mobility, automotive and aviation.

The Impact of Technology on Sport II Franz Konstantin Fuss,Aleksandar Subic,Sadayuki Ujihashi,2007-10-11 Sport technology has to be seen from the holistic, as well as inter- and transdisciplinary point of view. Product development requires close collaboration between engineers, athletes, sports scientists, and business managers. It requires an in-depth understanding of engineering disciplines, life and sport sciences, as well as economics. The Impact

Harold Larwood Duncan Hamilton,2017-02-02 Winner of the William Hill Sports Book of the Year, this is the first ever biography of Harold Larwood. Larwood, one of the most talented, accurate and intimidating fast bowlers of all time is mainly remembered for his role in the infamous Bodyline series of 1932-3 which brought Anglo-Australian diplomatic relations to the brink of collapse. Larwood was made the scapegoat - and despite the fact he was simply following his captain's instructions, he never played cricket for England again. Devastated by this betrayal, he eventually emigrated to Australia, where he was accepted by the country that had once despised him. Acclaimed author Duncan Hamilton has gained unprecedented access to the late sportsman's family and archives to tell the story of a true working-class hero and cricketing legend.

More Than A Game: The Story of Cricket's Early Years John Major,2009-02-16 The former Prime Minister examines the early history of one of the great loves of his life in a book that sheds new light on the summer game’s social origins.

From the Colonial to the Carnival Dr. Siddhartha R., Dr. Rani P. L.,2022-02-14 Research in colonial studies has traditionally revolved around the historical, political and economic aspects of the colonial regime. The case is no different with the British Empire in India. The Empire was, however, built less by military force and more through cultural reinforcement. To this end, the British engaged many tools – religion, language and sport. Among the three Cs of Victorian England that defined civilisation, Cricket stood on par with Christianity and the Classics. Beyond being a sport, cricket was the Englishman’s representation of his ‘English-ness’ in the colonies and a tool used for colonisation – a scantily researched area. This book traces, through the colonial postulates of Edward Said and Homi K. Bhabha, the colonial path cricket took to its growth in the colony. The game moved from the ‘exclusivity’ of the

English to the ‘mimicry’ of the natives as a part of the informal modes of rule employed in a colonial framework. Once formal modes were employed in the Empire, phases of ‘cultural reinforcement’ by the colonists followed by ‘patronage’ by the natives took over the spread of the game. Historical narratives are filled with examples supporting each phase in the sport. The very same tool that was used to establish the native’s ‘effeminacy’ was used, finally, to invert the hegemony. The book argues how decolonisation, in India’s case, did not occur through ‘rejection’ of the colonial culture, but, paradoxically, through ‘adaptation’ and ‘assimilation’ in clear colonial terms. This discussion achieves recency and relevance through its exposition of the telling decolonising moves in cricket to ‘subvert authority’ through the IPL. Mikhail Bakhtin’s theory of the carnival helps view the shift of cricket from the colonial to the carnival mode.

Global Strategic Management Gerardo R. Ungson, Yim-Yu Wong, 2014-12-18 International business is undergoing continuous transformation as multinational firms and comparative management evolve in the changing global economy. To succeed in this challenging environment, firms need a well-developed capability for sound strategic decisions. This comprehensive work provides an applied and integrated strategic framework for developing capabilities that lead to global success. It is designed to help readers achieve three essential objectives. First, it provides intellectual and practical guidelines for readers to execute goals and strategies that lead to meaningful and productive results. The book is packed with frameworks, cases, anchoring exercises, techniques, and tools to help readers emerge with a completed business plan after the last chapter. Second, it focuses on strategy and how firms build competitive presence and advantages in a global context. A primary learning objective is to enable readers to understand and evaluate the major issues in strategy formulation and implementation in a global context. Third, it provides an accessible framework that will help guide readers in making strategic decisions that are sound and effective. It offers a unifying process that delineates the necessary steps in analyzing the readiness of a firm to do business abroad. In addition to core issues, each chapter presents frameworks, analytical tools, action-oriented items, and a real-world case - all designed to provide insights on the challenges imposed by globalization and technology on managers operating in a global context.

Cricket, Race and the 2007 World Cup Boria Majumdar, Jon Gemmell, 2013-09-13 Cricket has been subject to a number of changes over the last twenty years. We can no longer talk of a sport particular to an out-dated English way of life. Cricket has become global and has to exist within the global environment. Primarily the world game has become commercialised. This collection of essays assesses the developments within major playing nations between the World Cups. Do we now live in a world where commercialism is the primary factor in determining sports, or are wider historical prejudices still evident? Seeking to answer these questions, Cricket, Race & the 2007 World Cup focuses on racial and ethnic tensions and their place in the new globalized, cricketing environment. This book was previously published as a special issue of Sport in Society.

Managing Expectations and Policy Responses to Racism in Sport Keir Reeves, Megan Ponsford, Sean Gorman, 2017-10-02 This volume presents research on policy responses to racism in sporting codes, predominantly Australian Rules football, in a global context. While the three guest editors are based in Australia, and their work pertains to the uniquely domestic game of Australian Rules football, the outcomes, research vectors and key issues from this research are part of a much larger on-going international conversation that is equally relevant when considering, for instance, racism in English Premier League football, first class cricket and basketball. The book is an outcome of an Australian Research Council (ARC) funded project titled Assessing the Australian Football League’s Racial and Religious Vilification Laws to Promote Community Harmony, Multiculturalism and Reconciliation, which investigated social participation and the impact of the Australian Football League’s anti-racial vilification policy since its introduction in 1995. This book was published as a special issue of Sport in Society.
