Different from the Others Cyd Sturgess,2022-11-11 For much of Europe, the interwar period was one of cultural expansion and diversion and increased visibility for lesbians. While historical research on Germany during the period immediately after the First World War has been extensively studied by historians through the lens of gender and sexuality—with an implicit emphasis on the “masculine” dimension of queer female sexuality—the Dutch context has been virtually ignored. Through careful and sensitive studies of medico-social discourses, media representations, and literary depictions of queer femininity, *Different from the Others* recovers the submerged history of queer feminine women in both Germany and the Netherlands. Cyd Sturgess provides a theoretical analysis that makes key empirical contributions to the history of Dutch gays and lesbians while reframing our collective understanding of queer femininity more broadly.

Hb Cyd Webster,2010-10-05 **HB! HomeBoy... Androids! Replace men?** How in the world can this happen? Its a story about a scholarly young woman who invests her energy toward finding a solution to answer the problem of women who are unable to find a suitable mate in the traditional sense, leading to traditional family life. The story takes place in a time where the legacy of war and devastation, economic turmoil and social decline, has led to a diminishing population of men. The main character, Annelle Carter is a scholarly, leader who takes an idea, seizes opportunities and brings it to fruition, but not without controversy. Throughout the story, we can see many attitudes and opinions displayed by the characters, Annelles friends and adversaries. HB is a story that is just one possible outcome of the many, on how our future plays out.

Two Pews from Crazy Cyd Andrews-Looper,2016-01-13 (UPDATED AND AUTHORIZED EDITION) In *Two Pews from Crazy*, the author takes us on a painful but always hopeful spiritual journey that made me think of Pilgrim's Progress. Each time this lesbian Christian pastor nears the Celestial City, there's another Slough of Despond, Valley of Humiliation or River of Death to cross. It's a kind of miracle that Rev. Cyd is still standing after being born a female in a male dominated culture, after accepting her sexual orientation in the homophobic South, after refusing to renounce her call to ministry in a Christian community that forbids women clergy, after adopting a child, losing three different partners and suffering through spiritual and emotional abuse as a pastor. Cyd has a great sense of humor. The chapters are short. Her story is honest, frank, easy to follow and never dull. And though her journey is sometimes painful to read, it is also a celebration of God's presence and power in the life of a lesbian, Christian pastor who never stops believing that God loves her and is with her every step of the way. Reading Cyd's story reminded me that God loves me, too, and is with me on my own sometimes painful journey. If you need to be reminded of the Holy Spirit's presence and power in your life, just sit down next to Rev. Cyd just *Two Pews from Crazy* and enjoy. ---Mel White, Author, *Stranger at the Gate*, to be Gay and Christian in America

Proceedings of the Ninth International Symposium on Cyclodextrins Juan José Torres Labandeira,José Luis Vila-Jato,2012-12-06

This volume contains the proceedings of the Ninth International Symposium on Cyclodextrins, held in Santiago de Compostela, Spain,

May 31 - June 3, 1998. The papers collected represent a summary of the last two years' achievements in the application of cyclodextrins in such diverse fields as pharmaceuticals, biotechnology, textiles, chromatography and environmental sciences. Highlights: Chiral selection of chemicals, nuclear waste management, cyclodextrins in nasal drug delivery, cyclodextrins in pulmonary drug delivery, cyclodextrins as pharmaceutical excipients, pharmacokinetics, stabilization of drugs by cyclodextrins, structural characterization of cyclodextrin complexes by nuclear magnetic resonance and molecular modeling, artificial receptors, large cyclodextrins, cyclodextrins as enzyme models, new cyclodextrin derivatives and potentials. Audience: This book will be of interest to researchers whose work involves biotechnology, pharmaceuticals, food and chemicals and chromatographic methods, as well as fundamental cyclodextrin research.

Does God Really Like Me? Cyd Holsclaw, Geoff Holsclaw, 2020-01-21 I guess I believe that God loves me. But does he like me? We all know what it's like to feel overlooked, disconnected, and ashamed. We might believe in God's love in the abstract, but we often live our lives without experiencing it in any deep or lasting way. Pastors Cyd and Geoff Holsclaw understand this—indeed, they've felt it themselves. In this warm, engaging book, they explain from the story of Scripture that God not only likes us and wants to be with us, he also wants to work through us to bless the whole world. Filled with personal stories and simple, clear teaching from the Bible, *Does God Really Like Me?* applies the good news of the gospel to the shame and disconnection that we all experience in our everyday lives. God wants to be with us—we belong in his presence. And from that place of belonging, we can bless the whole world with the message of God's love.

Soul Equity, Inc. Cyd Penny, 2013-01-11 Veteran Key Largo police captain Jack Micelli is drawn into a shadowy world of south Florida Voodoo while investigating a series of suspicious deaths. Micelli finds himself joined in a search for the truth by a cast of unlikely characters including a dwarf stripper, a disillusioned friar, a grieving widow and an ex-con who thinks he can make himself invisible. Some are motivated by greed, some by a broken heart and some by greater purpose. None are prepared for the reality that they will find. A wealthy, but secretive conglomerate, Soul Equity, Inc. is preparing a global stock offering to buy equity in peoples souls. They'll pay good money for all or part of a soul, and their slogan, You're not using it, are you? says it all. Is the company involved in the deaths in the Keys? Is there a connection between reality and the supernatural? Between good and evil? Or are they inseparable parts of the same thing? Micelli must find some answers, and he's running out of time. They all are.

The "Plan A" Diet Cyd Notter, 2019-07-02 "A great blueprint for changing your life . . . This book provides food for the body and for the soul." —Pamela A. Popper, PhD, ND, author of *Food Over Medicine* By combining her decades-long study of both nutrition and scripture, Cyd Notter has created The "Plan A" Diet to serve as a message of hope to those who are nutritionally confused, suffer with declining health, or continually flit from one failed diet plan to another. The book provides a simple, achievable answer for permanent weight loss and improved health, as well as useful insights for dealing with resistance to change. Research confirms that plant-based nutrition is more powerful in restoring health than drugs or surgery, and is proven to be the only diet capable of reversing our number one killer: heart disease. Readers ready to take an active role in their health are equipped with a meal plan, tips for evaluating conflicting information, and an optional transition strategy. Prayer and biblical support has also been included to encourage people of faith. By correlating today's unbiased science with the wisdom of applicable scripture, the book illustrates why God's first prescribed

diet for mankind—His “Plan A” Diet—remains the ideal food to this day.

The Imperial Underbelly Gunnel Cederlöf, 2022-11-01 The volume introduces a new analysis of interconnected labour and economic history of colonial India and Scandinavia. From a recently found archive of a railway contractor's private and business papers, the studies revise both Indian labour history and Scandinavian modern history, and ties south Sweden into the British Empire. With deep insights into everyday work practices of Indian and European contractors and manual labourers, the book establishes a bridge across the globe, between two poor regions as sites of extraction and industrial transformation, resulting from global migration and capital flows. Drawing on rich archival sources such as the Joseph Stephens Archive, Maharashtra State Archives, the National Archives of India, and the British Library, the book offers deep insights into everyday business practices of European contractors in India, which were rarely documented and have remained largely inaccessible so far. A unique look into the labour and entrepreneurship practices under British colonial rule in India, as well as its impact on the most transformative years of modern southern Scandinavia, the book will be of great interest to students, academics, and teachers of history, labour studies, subaltern studies, colonialism, imperialism, economic history, railways, economics, and Scandinavian and South Asian studies.

Chiral Luminescence Kazuo Akagi, 2024-04-09 Comprehensive resource illustrating the latest stage and development of chiral luminescence in science and technology, from fundamentals to applications Chiral Luminescence imparts a comprehensive understanding for chiral materials bearing circularly polarized luminescence (CPL) functions, including molecules, oligomers, polymers, chiral metal organic complexes, and chiral biochemical materials, with guidance on how to promote and control this kind of luminescence towards the development of advanced photonic materials and devices such as chiroptical and electronic devices, next-generation displays, and others. The book covers detailed information on the molecular design, synthesis, and polymerization methods of chiral luminescent materials, the evaluation of chiroptical properties represented by CPL, novel spectroscopic instruments and techniques, the fabrication of chiral luminescent devices such CPL-OLED, a theoretical evaluation, and potential applications. With insight from leading academics and industrial researchers in the field, Chiral Luminescence includes information on: Optical resolution and chiroptical properties of partially overlapping carbazolophanes and developments in CPL research using cyclodextrins Synthesis and chiroptical properties of helical, conjugated polymers and twisted molecules, and chiroptical and magnetooptical properties of porphyrin compounds Principles of CPL measurement systems and advances in measurement methods, and intense and sign-invertible CPL Development of organic light-emitting diodes using aggregation-induced enhanced CPL perylene diimides Binding constants as fundamental physical properties for quantitative treatments of sensing processes in supramolecular systems Providing far-reaching coverage of chiral luminescence and its many applications, Chiral Luminescence is a must-read resource for a variety of chemists and engineers who wish to understand the state-of-the-art development in this optical science.

Fogged Off Wendall Thomas, 2021-11-02 Lefty Award Nominee for Best Humorous Novel! “The setting is old London Town, but the story is Wendall Thomas’s trademark three-ring circus, with the redoubtable Cyd Redondo as ringmaster, high-wire walker, and—of course—animal wrangler. What a joy it is to follow the increasingly bonkers plot knowing that every last madcap thread is guaranteed to come together in the end. Fogged Off is what the world needs right now.” —Catriona McPherson, multi-award winning author of The Last Ditch Motel mysteries When travel agent Cyd Redondo’s client and Jack the Ripper expert Shep Helnikov is found

dead in London, she navigates the cutthroat worlds of research librarians, unemployed actors, rodent smugglers and more to find his killer and bring his body back home . . . When one of her clients is found dead in London, Cyd Redondo is on the hook for thirty thousand dollars to return his body home. So when his university offers to cover the costs if she'll go in person to collect him—and his Ripper research—she jumps at the chance. But no sooner does Cyd arrive in London than Shep's death by natural causes starts to look most unnatural. Cyd's only hope for recovering the body and vamoosing back to Brooklyn is to find the killer herself—but she's thwarted at every turn by Scotland Yard, Shep's former girlfriends, a sinister mortuary service, an old nemesis, and her taxidermist uncle. And when Shep's apartment is ransacked and a second Ripper expert is found murdered, Cyd knows she'll have to solve the crimes fast, before someone books her on a one-way trip to the morgue . . . "Cyd's Balenciaga bag deserves to become as legendary as Sherlock Holmes's deerstalker and magnifying glass." —James W. Ziskin, Anthony, Barry, and Macavity Award-winning author of the Ellie Stone Mysteries Praise for the Cyd Redondo Mysteries: Lost Luggage 2018 Macavity Award nominee for Best First Novel 2018 Lefty Award nominee for Best Debut Mystery "Thomas makes a rollicking debut with this comic mystery featuring an unconventional protagonist who proves to have the skills of MacGyver. With its sexy overtones, this fun, character-driven novel will appeal to Janet Evanovich fans." —Library Journal (starred review) "Ms. Thomas has an absolutely lunatic talent for plot and one of the funniest first-person voices I've read in years . . . what kept coming to my mind as I read this were comedy films from the 30s—for me, the golden age of American film humor." —Timothy Hallinan, Lefty winner and Edgar and Macavity Award-nominated author of the Junior Bender and Poke Rafferty novels "Laugh-out-loud funny and enchantingly ridiculous . . . highly entertaining . . ." —Jessica Howard, Shelf Awareness Drowned Under 2020 Anthony Award nominee for Best Paperback Original 2020 Lefty Nominee for Best Humorous Mystery "Fans of Janet Evanovich's Stephanie Plum will cotton to Cyd." —Publishers Weekly "The passenger list in Wendall Thomas's Drowned Under is a cavalcade of randy former nuns, gigolos, stowaways, near-extinct marsupials . . . and one brilliantly sexy disaster of a globetrotting travel agent named Cyd Redondo . . . This is a remarkable novel in what is shaping up to be an exciting and hilarious series. You'll love Cyd, perhaps the funniest heroine out there. Highest recommendation." —James W. Ziskin, Anthony, Barry, and Macavity Award-winning author of the Ellie Stone Mysteries "With her clever mind, tart comebacks, and Balenciaga tote bag, Cyd is a fearsome force. What a heroine for the modern age. Do not miss this!" —Daryl Wood Gerber, Agatha Award-winning national bestselling author of the Cookbook Nook and French Bistro Mysteries "Drowned Under is laugh-out-loud funny. With its finely tuned timing and zany, emotional protagonist, this novel puts Thomas in a class with Carl Hiassen and Janet Evanovitch." —Nancy Tingley, Lefty-nominated author of the Jenna Murphy Mysteries

A Simple Explanation of Absolutely Everything Cyd Ropp, Ph.D., 2015-03-17 A Simple Explanation of Absolutely Everything is an entirely original philosophy that shows how ancient spiritual traditions harmonize with cutting-edge scientific discoveries. The Simple Explanation proceeds from the fundamental idea that the ground state of creation is consciousness. Using only four basic principles, A Simple Explanation explains our universal cosmology as a fractal pattern of consciousness that repeats itself in endless cycles of organization and cooperation, from the smallest quanta through the largest astronomical objects. A Simple Explanation of Absolutely Everything gives the reader new clarity to classical spiritual concepts such as 'centering,' 'God,' and The Golden Rule,' while at the same time explaining new ideas like fractals and quantum entanglement. This most ecumenical and inclusive philosophy is able to bridge science with world religions by making sense of esoteric passages in such diverse works as the Bible and the Tao Te Ching and relating them to one, simple-to-understand, theory of everything.--Back cover.
