*A Guide to Neo-Latin Literature* Victoria Moul,2017-01-16 Latin was for many centuries the common literary language of Europe, and Latin literature of immense range, stylistic power and social and political significance was produced throughout Europe and beyond from the time of Petrarch (c.1400) well into the eighteenth century. This is the first available work devoted specifically to the enormous wealth and variety of neo-Latin literature, and offers both essential background to the understanding of this material and sixteen chapters by leading scholars which are devoted to individual forms. Each contributor relates a wide range of fascinating but now little-known texts to the handful of more familiar Latin works of the period, such as Thomas More's *Utopia*, Milton's Latin poetry and the works of Petrarch and Erasmus. All Latin is translated throughout the volume.

Here for Good: Community Foundations and the Challenges of the 21st Century  
Terry Mazany,David C. Perry,2014-12-18 Community foundations bring together the resources of individuals, families, and businesses to support effective nonprofits in their communities. Over the years, foundations have come to engage community problem-solving through more than just grant-making. They have added a rich array of other activities, including programs of community capacity building, active modes of advocacy, and centres for meeting. In 2011, the 700+ institutions in the United States gave an estimated \$4.2 billion to a variety of nonprofit activities in fields that included the arts and education, health and human services, the environment, and disaster relief. The origins of this book stem from conversations among the leadership of community foundations about the challenges they must overcome in order to make such foundational contributions to their communities. As community foundations enter the second century of their existence (the first foundation was formed in Cleveland in 1914), the need for knowledge and best practices has never been greater. This book, with expert authors representing the best and the brightest in this important field, fills that need.

*Political Dissidence Under Nero* Vasily Rudich,2005-08-15 Vasily Rudich examines dissidence under Nero from both historical and psychological

perspectives and inquires into the balance of the universal and historically conditioned components of political behaviour. The careers of numerous dissident individuals and their attempts at accomodation to a hostile reality are discussed.

Volume II: contains 130 plates, each depicting 15 family crests in b&w and a further 18 plates illustrating regalia, insignia, crowns, flags, monograms, arms of principal cities etc. also in b&w. There is a key to all the plates which, in the case of the crests, shows which families have which crest.

**Cultural Mobilities Between Africa and the Caribbean** Birgit Englert,Barbara Gföllner,Sigrid Thomsen,2021-06-17 This book investigates the cultural connections between Africa and the Caribbean, using the lens of Mobility Studies to tease out the shared experiences between these highly diverse parts of the world. Despite their heterogeneity in terms of cultures, languages, and political and economic histories, the connections between the African continent and the Caribbean are manifold, stretching back to the trans-Atlantic slave trade. The authors in this book look to the past as well as to the present, focusing on the manifold mobile connections between the regions' subjects, objects, ideas, texts, images, sounds, and beliefs. In doing so, the book demonstrates that mobility extends beyond just the movement of people, and that we can also see mobility in objects and ideas, travelling either in a material sense or in imaginary terms, in physical as well as in virtual spaces. Bringing the transdisciplinary fields of African Studies, Caribbean Studies, and Mobility Studies into dialogue, this book will be of interest to students and scholars across the humanities and social sciences.
