Man vs Big Data Stewart Cowley,2017-10-19 Have you ever wondered how to beat the bookies? How does your computer know you might like this song? Should you be worried about this?... We can't answer that for you, but *Man vs Big Data* does explore the numerous ways in which 'Big Data' has, sometimes imperceptibly, infiltrated our lives. Everything we do leaves a trail of data behind, from buying something on a credit card, to using a GPS-enabled mobile phone – whether you know it or not, like it or not, Big Data is now a part of modern life. Heralded as the Fourth Industrial Revolution, it is now more crucial than ever to learn about how data is affecting the way we live. *Man vs Big Data* proves that this topic is one of the most important subjects facing us today and helps you get to grips with what that means for you.

And the Rest Is History Marlene Wagman-Geller, 2011-01-25

Did my heart love till now? Forswear it, sight! For I ne'er saw true beauty till tonight. -Romeo and Juliet Antony and Cleopatra, Diego Rivera and Frida Kahlo, Gertrude Stein and Alice B. Toklas, Humphrey Bogart and Lauren Bacall, Joe DiMaggio and Marilyn Monroe, Elvis Presley and Priscilla Beaulieu, John Lennon and Yoko Ono-while we're familiar with all of these people as individuals, we also associate them with the grand, sometimes fiery passion they shared with their partners. *And the Rest Is History* is an intriguing look at how these iconoclastic lovers first crossed paths, whether it was through fate, setups, or blind luck. From angry sparks flying to love at first sight, the meetings shared in this book give us a look at what makes that one great love.

The Meaning of Love Geraline Thomas, 2021-06-21 This book is about how I have wronged people and how they have wronged me, as well as my four beautiful children and how I used to party

hard. I was a bad young woman, just bad, bad, bad.

I, Spy Daniel Ribacoff, Dina Santorelli, 2016-02-09 Dan will teach you the do's and don'ts of surveillance; how to conduct a stakeout--from what to wear to what to bring; how to track down anyone anywhere; how to collect and interpret evidence; how to tell if someone is lying; how to utilize informants; how to protect your home, your valuables, and your privacy; how to go off-grid, for now or forever; how to know if you're being stalked; the fundamentals of garbage retrieval--and much, much more--Dust jacket flap.

Dataclysm Christian Rudder, 2014-09-09 A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In *Dataclysm*, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook likes can predict, with surprising accuracy, a

person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, *Dataclysm* is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

40 Days of Dating Timothy Goodman, Jessica

Walsh, 2015-01-20 "What would happen if Harry met Sally in the age of Tinder and Snapchat? . . . A field guide to Millennial dating in New York City" (New York Daily News). When New York-based graphic designers and long-time friends Timothy Goodman and

Jessica Walsh found themselves single at the same time, they decided to try an experiment. The old adage says that it takes forty days to change a habit—could the same be said for love? So they agreed to date each other for forty days, record their experiences in questionnaires, photographs, videos, texts, and artworks, and post the material on a website they would create for this purpose. What began as a small experiment between two friends became an Internet sensation, drawing five million unique (and obsessed) visitors from around the globe to their site and their story. 40 Days of Dating: An Experiment is a beautifully designed, expanded look at the experiment and the results, including a great deal of material that never made it onto the site, such as who they were as friends and individuals before the forty days and who they have become since.

These apps are scary. Many of the kids at my school use these apps to 'hook-up.' They usually have no idea who the person really is. Rapes and robberies are not uncommon as a result of meeting up with someone for anonymous sex. This book has helped me understand what information is out there and how to get it. -

Detective, University of California Police Department I used the information in this book the same week I got it. My agency had a series of armed robberies where the victims had arranged to meet over a casual sex application. The End of Love Sabrina Strings, 2024-01-30 From Playboy to Jay-Z, the racial origins of toxic masculinity and its impact on women, especially Black and “insufficiently white” women More men than ever are refusing loving partnerships and commitment, and instead seeking out “situationships.” When these men deign to articulate what they are looking for in a steady partner, they’ll often rely on superficial norms of attractiveness rooted in whiteness and

anti-Blackness. Connecting the past to the present, sociologist Sabrina Strings argues that following the Civil Rights movement and the integration of women during the Second Wave Feminist movement, men aimed to hold on to their power by withholding love and commitment, a basic tenet of white supremacy and male domination, that served to manipulate all women. From pornography to hip hop, women—especially Black and “insufficiently white” women—were presented as gold diggers, props for masturbation, and side-pieces. Using historical research, personal stories, and critical analysis, Strings argues that the result is fuccboism, the latest incarnation of toxic masculinity. This work shows that men are not innately “toxic.” Nor do they hate love, commitment, or sex. Instead, men across race have been working a new code to effectively deny loving partnerships to women who are not pliant, slim, and white as a new mode of male domination.

Infidel Wednesday Martin, 2019-10-22 Wednesday Martin nos proyecta desde una perspectiva personal y científica algunos temas que han estado castigados por la sociedad durante siglos: la infidelidad, la monogamia, la lujuria, las mujeres y el sexo. Una visualización moderna que muestra la diferencia entre la sexualidad masculina y la femenina que teme a las consecuencias

construidas por la sociedad a través de entrevistas realizadas a expertos y mujeres reales que han experimentado de cerca la monogamia y la infidelidad. Infiel, es una mirada fascinante a la sexualidad femenina que puede alejarnos de nuestra zona de confort y sin duda cambiará nuestra forma de pensar acerca del sexo y las mujeres para siempre.

nossos dados para todo tipo de atividade: nos espionar, nos contratar, nos demitir e, principalmente, nos vender coisas de que realmente não precisamos. Em Dataclisma, no entanto, Christian Rudder usa todos esses dados para nos mostrar quem realmente somos na internet — quando pensamos que ninguém está vendo. Ousado, original e irreverente, Rudder encara o desafio de manter a privacidade do público ao mesmo tempo em que explica, com base na análise dos dados, a diferença do comportamento dos homens e mulheres na rede; como o botão curtir do Facebook pode prever, com precisão surpreendente, a orientação sexual de uma pessoa; como mulheres bonitas têm mais chances de conseguir se sair bem em entrevistas de emprego; como o Twitter pode provocar uma nova dinâmica do ódio em massa e muito mais. O autor mostra como a Internet pode ser um lugar vibrante, brutal, carinhoso, indulgente, enganador, sensual e cheio de fúria. Afinal ela reflete a nossa sociedade e é composta por seres humanos. Da zona urbana a rural, dos ricos aos pobres, dos negros aos asiáticos, passando por brancos e latinos, de várias idades, todos estão conectados. E nunca na história da humanidade suas vidas e relações nunca foram tão rastreadas e transformadas em dados.

Trying to Live with the Dead B. L. Brunnemer,2017-05-09 Hi, I'm Alexis Delaney. I'm your average 17-year-old girl. Except I can see the dead. And talk to the dead. And push them away and, well, help them move on. So..okay, I'm not your average 17-year-old girl. For years I've been struggling to survive the souls still roaming around. The shiteheads always seem to find me. Moving from town to town every few months never helped either. More dead just always find me. But things are changing for me now. I'm moving in with my uncle Rory and cousin Tara. I'm finally going to be able to do normal teenage stuff I've been missing out on. Right?

Well, if this one bitch of a ghost could leave me alone on campus that would be great. Especially since I haven't told my new friends about my abilities. Can you believe this? Five good looking guys practically adopt me on my first day of school, and I still think they're a bit nuts for it. Now if I can only just keep my life with the dead from mixing with my normal life, everything would be great. Yeah...I don't see that happening either. But I'm going to give it a shot. Who knows? It might work.

At First Click B. F. Christman, 2021-12-15 , Looking for that instant connection between two people can sometimes take a lifetime. Searching for love should never end up with you losing all your life savings as well as faith in yourself and God. Being vulnerable following her second divorce, BF was mesmerized by all the sweet nothings coming from the men she met on Internet dating sites. Each one of these potential love partners eventually proved to be fraudulent. After believing them, she gave up life as she knew it, ignoring all the red flags warning her, and was forced to pay the consequences. Because of her background, others expected her to be perfect and solve all problems that she might encounter; however, she discovered that she was not perfect, but instead was human and capable of making mistakes like anyone

else. When the world seemed like it was against her, she didn't give up but instead faced her addiction, embraced the twelve steps of recovery, made a plan to correct her mistakes, and set out to fix them. Courage is not having the strength to go on; It's going on when you don't have the strength. —Theodore Roosevelt
