Man vs Big Data Stewart Cowley, 2017-10-19 Have you ever wondered how to beat the bookies? How does your computer know you might like this song? Should you be worried about this?... We can't answer that for you, but Man vs Big Data does explore the numerous ways in which 'Big Data' has, sometimes imperceptibly, infiltrated our lives. Everything we do leaves a trail of data behind, from buying something on a credit card, to using a GPS-enabled mobile phone – whether you know it or not, like it or not, Big Data is now a part of modern life. Heralded as the Fourth Industrial Revolution, it is now more crucial than ever to learn about how data is affecting the way we live. Man vs Big Data proves that this topic is one of the most important subjects facing us today and helps you get to grips with what that means for

you.

And the Rest Is History Marlene Wagman-Geller, 2011-01-25 Did my heart love till now? Forswear it, sight! For I ne'er saw true beauty till tonight. -Romeo and Juliet Antony and Cleopatra, Diego Rivera and Frida Kahlo, Gertrude Stein and Alice B. Toklas, Humphrey Bogart and Lauren Bacall, Joe DiMaggio and Marilyn Monroe, Elvis Presley and Priscilla Beaulieu, John Lennon and Yoko Ono-while we're familiar with all of these people as individuals, we also associate them with the grand, sometimes fiery passion they shared with their partners. And the Rest Is History is an intriguing look at how these iconoclastic lovers first crossed paths, whether it was through fate, setups, or blind luck. From angry sparks flying to love at first sight, the meetings shared in this book give us a look at what makes that one great love.

The Meaning of Love Geraline Thomas, 2021-06-21 This book is about how I have wronged people and how they have wronged me, as well as my four beautiful children and how I used to party hard. I was a bad young woman, just bad, bad, bad.

Dataclysm Christian Rudder, 2014-09-09 A New York Times Bestseller An audacious, irreverent

investigation of human behavior—and a first look at a revolution in the making. Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In *Dataclysm*, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook likes can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, *Dataclysm* is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers

The End of Love Sabrina Strings,2024-01-30 From Playboy to Jay-Z, the racial origins of toxic masculinity and its impact on women, especially Black and “insufficiently white” women More men than ever are refusing loving partnerships and commitment, and instead seeking out “situationships.” When these men deign to articulate what they are looking for in a steady partner, they’ll often rely on superficial norms of attractiveness rooted in whiteness and anti-Blackness. Connecting the past to the present, sociologist Sabrina Strings argues that following the Civil Rights movement and the integration of women during the Second Wave Feminist movement, men aimed to hold on to their power by withholding love and commitment, a basic tenet of white supremacy and male domination, that served to manipulate all women. From pornography to hip hop, women—especially Black and “insufficiently white” women—were presented as gold diggers, props for masturbation, and side-pieces. Using historical research, personal stories, and critical analysis, Strings argues that the result is fuccboism, the latest incarnation of toxic masculinity. This work shows that men are not innately “toxic.” Nor do they hate love, commitment, or sex. Instead, men across race have been working a new code to effectively deny loving partnerships to women who are not pliant, slim, and white as a new mode of male domination.

Infiei Wednesday Martin,2019-10-22 Wednesday

Martin nos proyecta desde una perspectiva personal y científica algunos temas que han estado castigados por la sociedad durante siglos: la infidelidad, la monogamia, la lujuria, las mujeres y el sexo. Una visualización moderna que muestra la diferencia entre la sexualidad masculina y la femenina que teme a las consecuencias construidas por la sociedad a través de entrevistas realizadas a expertos y mujeres reales que han experimentado de cerca la monogamia y la infidelidad. Infiel, es una mirada fascinante a la sexualidad femenina que puede alejarnos de nuestra zona de confort y sin duda cambiará nuestra forma de pensar acerca del sexo y las mujeres para siempre.

Trying to Live with the Dead B. L.

Brunnemer,2017-05-09 Hi, I'm Alexis Delaney. I'm your average 17-year-old girl. Except I can see the dead. And talk to the dead. And push them away and, well, help them move on. So..okay, I'm not your average 17-year-old girl. For years I've been struggling to survive the souls still roaming around. The shitheads always seem to find me. Moving from town to town every few months never helped either. More dead just always find me. But things are changing for me now. I'm moving in with my uncle Rory and cousin Tara. I'm finally going to be able to do normal teenage stuff I've been missing out on. Right? Well, if this one bitch of a ghost could leave me alone on campus that would be great. Especially since I haven't told my new friends about my abilities. Can you believe this? Five good looking guys practically adopt me on my first day of school, and I still think they're a bit nuts for it. Now if I can only just keep my life with the dead from mixing with my normal life, everything would be great. Yeah...I don't see that happening either. But I'm going to give it a shot. Who knows? It might work.

At First Click B. F. Christman,2021-12-15 , Looking for that instant connection between two people can sometimes take a lifetime. Searching for love should never end up with you losing all your life savings as well as faith in yourself and God. Being vulnerable following her second

divorce, BF was mesmerized by all the sweet nothings coming from the men she met on Internet dating sites. Each one of these potential love partners eventually proved to be fraudulent. After believing them, she gave up life as she knew it, ignoring all the red flags warning her, and was forced to pay the consequences. Because of her background, others expected her to be perfect and solve all problems that she might encounter; however, she discovered that she was not perfect, but instead was human and capable of making mistakes like anyone else. When the world seemed like it was against her, she didn't give up but instead faced her addiction, embraced the twelve steps of recovery, made a plan to correct her mistakes, and set out to fix them. Courage is not having the strength to go on; It's going on when you don't have the strength. —Theodore Roosevelt
