Che's Travels Paulo Drinot,2010-09-01 Ernesto “Che” Guevara twice traveled across Latin America in the early 1950s. Based on his accounts of those trips (published in English as *The Motorcycle Diaries* and *Back on the Road*), as well as other historical sources, *Che's Travels* follows Guevara, country by country, from his native Argentina through Chile, Peru, Colombia, and Venezuela, and then from Argentina through Bolivia, Peru, Guatemala, and Mexico. Each essay is focused on a single country and written by an expert in its history. Taken together, the essays shed new light on Che's formative years by analyzing the distinctive societies, histories, politics, and cultures he encountered on these two trips, the ways they affected him, and the ways he represented them in his travelogues. In addition to offering new insights into Guevara, the essays provide a fresh perspective on Latin America's experience of the Cold War and the interplay of nationalism and anti-imperialism in the crucial but relatively understudied 1950s. Assessing Che's legacies in the countries he visited during the two journeys, the contributors examine how he is remembered or memorialized; how he is invoked for political, cultural, and religious purposes; and how perceptions of him affect ideas about the revolutions and counterrevolutions fought in Latin America from the 1960s through the 1980s. Contributors Malcolm Deas Paulo Drinot Eduardo Elena Judith Ewell Cindy Forster Patience A. Schell Eric Zolov Ann Zulawski

**Union in Separation** Autori Vari,2016-01-14T00:00:00+01:00 *Union in Separation* presents a series of case studies on diasporic groups in the late medieval and early modern Mediterranean and Black Sea regions. It explores how Armenian, Byzantine/Greek, Florentine, Genoese, Hospitaller, Jewish, Mamluk, and Venetian communities characterized by diasporic identities and inserted into local contexts navigated religious and socio-ethnic boundaries as well as other categories of difference. The volume draws on a wide range of historical and social-scientific methods and offers new perspectives on the arbitration of difference in the wider eastern Mediterranean from Tana to Cairo and Marseille to Isfahan prior to the emergence of nation states. It provides not only an analytical toolbox for historical diaspora studies but also reveals how, under the looming threat of crusade and within the daily routines of trade, diasporic groups and their hosts negotiated modes of coexistence that oscillated between cooperation and conflict, integration and rejection, union and separation.

**Migrants shaping Europe, past and present** Helen Solterer,Vincent Joos,2022-11-08 This pioneering volume explores the contribution of migrants to European culture from the early modern era to today. It takes culture as an aesthetic and social activity of making, one practised by migrants on the move and also by those who represent their lives in an act of support. Adopting a multilingual approach, the book interprets the aesthetics and political practices developed by and with migrants in Spain, Italy and France. It juxtaposes early modern and modern work with contemporary, reconceiving migrants as crucial agents of change. Scholars and artists track people on the move within the continent and without, drawing a significant map for the cultural history of migration around Europe.

*Words of the True Peoples/Palabras de los Seres Verdaderos: Anthology of Contemporary Mexican Indigenous-Language Writers/Antología de Escritores Actuales en Lenguas Indígenas de México* Carlos

Montemayor,Donald Frischmann,2014-07-03 As part of the larger, ongoing movement throughout Latin America to reclaim non-Hispanic cultural heritages and identities, indigenous writers in Mexico are reappropriating the written word in their ancestral tongues and in Spanish. As a result, the long-marginalized, innermost feelings, needs, and worldviews of Mexico's ten to twenty million indigenous peoples are now being widely revealed to the Western societies with which these peoples coexist. To contribute to this process and serve as a bridge of intercultural communication and understanding, this groundbreaking anthology—to be published in three volumes over the coming years—gathers works by the leading generation of writers in thirteen Mexican indigenous languages: Nahuatl, Maya, Tzotzil, Tzeltal, Tojolabal, Tabasco Chontal, Purepecha, Sierra Zapoteco, Isthmus Zapoteco, Mazateco, Nāhñu, Totonaco, and Huichol. Volume 1 contains narratives and essays by Mexican indigenous writers. Their texts appear first in their native language, followed by English and Spanish translations. Frischmann and Montemayor have abundantly annotated the English, Spanish, and indigenous-language texts and added glossaries and essays that trace the development of indigenous texts, literacy, and writing. These supporting materials make the anthology especially accessible and interesting for nonspecialist readers seeking a greater understanding of Mexico's indigenous peoples. The other volumes of this work will be Volume 2: Poetry/Poesía and Volume 3: Theater/Teatro.

**The French Descent into Renaissance Italy, 1494-95** David Abulafia,2016-12-05 The French invasion of Italy under Charles VIII in 1494-95 has long been seen as inaugurating a new and wretched era in Italian history. The present volume, the work of an international team of contributors, seeks to question that assumption by focusing anew on the intricate politics of Renaissance Italy and the long history of Angevin attempts to impose their rule in southern Italy. It was later invasions, it is argued, that did most to reshape the politics of the Italian peninsula. These studies also look at social and economic effects of the French invasion, as well as its cultural aspects, not least the impact of Renaissance culture in France itself. Combining survey papers and research articles, this volume presents a new introduction to the history of late 15th-century Italy. The appendix, listing the Ilardi collection of microfilms, will also provide an invaluable guide to the diplomatic history of the era.

*Women and Music in Sixteenth-Century Ferrara* Laurie Stras,2018-09-27 Rethinks and retells the history of music in sixteenth-century Ferrara, putting women, of the court and convent, at the narrative centre.

**Boccaccio and the Book** Rhiannon Daniels,2009 As a new digital era increasingly impacts on the 'age of print', we are ever more conscious of the way in which information is packaged and received. The influence of the material form on the reading process was no less important during the gradual shift from manuscript to early print culture. Focusing on the physical structure and presentation of manuscripts and printed books containing texts by one of the most influential authors of the medieval period, Rhiannon Daniels traces the evolving social, cultural, and economic profile of Boccaccio's readership and the scribes and printers who laboured to reproduce three of his works: the *Teseida*, *Decameron*, and *De mulieribus claris*.

**Venice and the Renaissance** Manfredo Tafuri,1995-03-27 Pursuing the intersections of Venetian culture from the beginning of the sixteenth century through the first decades of the seventeenth, Manfredo Tafuri develops a story crowded with characters and full of surprises. He engages the doges Andrea Gritti and Leonardo Dona; architects and artists Sansovino, Serlio, Palladio, and Scamozzi; and scientists Francesco Barozzi and Galileo. He records the battle that was fought for architecture as metaphor for absolute truth and good government, and contrasts these with the myths that inspired them.
