

Deer Radar

AW Rasmussen

Field & Stream ,2001-09 FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

Deerland Al Cambronne,2013-03-21 In 1942 America fell in love with Bambi. But now, that love-affair has turned sour. Behind the unassuming grace and majesty of America's whitetail deer is the laundry list of human health, social, and ecological problems that they cause. They destroy crops, threaten motorists, and spread Lyme disease all across the United States. In Deerland, Al Cambronne travels across the country, speaking to everybody from frustrated farmers, to camo-clad hunters, to humble deer-enthusiasts in order to get a better grasp of the whitetail situation. He discovers that the politics surrounding deer run surprisingly deep, with a burgeoning hunting infrastructure supported by state government and community businesses. Cambronne examines our history with the whitetail, pinpoints where our ecological problems began, and outlines the environmental disasters we can expect if our deer population continues to go unchecked. With over 30 million whitetail in the US, Deerland is a timely and insightful look at the ecological destruction being wrecked by this innocent and adored species. Cambronne asks tough questions about our environment's future and makes the impact this invasion has on our own backyards.

Deer Wars Bob Frye, 2010-11-01 The story of deer management in Pennsylvania is as complex as it is controversial. From the disappearance of deer in Pennsylvania forests at the beginning of the twentieth century to the population explosion that occurred in the latter half of the century, the balance between herd size and a healthy forest has long been a difficult one. In *Deer Wars*, Bob Frye examines this controversy and the effect that herd management has had on all of the citizens of Pennsylvania; farmers managing deer invasions and property rights, hunters dealing with changing herd densities and ever-complex restrictions, state agencies juggling the rights of hunters with the needs of commercial interests, all with stakes in the success and health of the deer herd. Now with deer harvests decreasing, Chronic Wasting Disease becoming a potential threat, and forests showing serious signs of trouble, the need for compromise from all of the players is essential, but is it possible? This well-researched and engrossing book explores that question.

Winter Sign Jim Dale Vickery, 1998 Written authoritatively on the ecology of the area and philosophically about winter's probing of the human spirit.-- Cover.
