Inner Engineering Sadhguru,2016-09-20 NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. “A loving invitation to live our best lives and a profound reassurance of why and how we can.”—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life.” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

**The Milinda Panha** Thomas William Rhys Davids, The Mininda Panha, or 'The Questions of the King Milinda are a classical Pali text describing how Menander embraced the Buddhist faith while discussing with the Buddhist sage Ngasena. He is described as constantly accompanied by a guard of 500 Greek (Yonaka) soldiers, and two of his counsellors are named Demetrius and Antiochus. This type of discussion was known to ancient Greeks as a sozo, it is important for Buddhists to understand the cultural context in which this discussion was held.

*The Four Foundations of Mindfulness* U Silananda,2012-06-25 An absolute essential of Buddhist thought and practice. In addition to practitioners of Insight meditation, those who engage in other meditation forms such as dzogchen, mahamudra, and zazen will find that The Four Foundation of Mindfulness provides new means of understanding how to approach and deepen their own practices. The entire Great Discourse is included here, coupled with a beautifully clear commentary from the great scholar-yogi, Venerable U Silananda.

**A Comprehensive Manual of Abhidhamma** Anuruddha,2000 Abhidhamma has the fearsome reputation of being somewhat juiceless to a beginner. I was delighted to find that in the introductory chapter Bhikkhu Bodhi gives his explanation of the four-fold ultimate realities in a very clear, calm, exact and expressive way. He brings to the subject a distinctively passionate voice and profound care and respect for the unfathomable wisdom of the Buddha. This is a brilliant gem of a guidebook and will lead the reader to new dimensions of the wisdom of the Buddha. Book jacket.

*The Buddha and His Dhamma* B.R. Ambedkar,2011-01-11 The Buddha and His Dhamma was B.R. Ambedkar's last work. Published posthumously, it presented a radical reorientation of Buddhist thought and literature, aptly called navayana. It deals with Ambedkar's conceptualization of Buddhism and the possibilities it offered for liberation and upliftment of the Dalits. It presents his reflections on the life of the Buddha, his teachings, and the spread of Buddhism by interweaving anecdotes with detailed analyses of the religion's basic tenets. The author also includes important elements of the Buddhist canon and tradition to make the teachings more accessible. In the first critical and annotated edition of this work, the editors address the on-going debate on Ambedkar's interpretation of the Buddha's dhamma by focusing on the accuracy of his citations and providing missing sources. They also discuss Ambedkar's modification of source materials. The introduction contextualizes the scholarly work related to the text.

**Staying Sober Without God** Jeffrey Munn,2019-01-10 Staying Sober Without God is a guide for non-believers who want to get sober without an act of faith. Traditional 12-step programs push for a belief in God or a higher power. The practical 12 steps outlined in this book provide a path to lasting recovery that requires no belief in the supernatural.

*The Manuals of Dhamma* Ñāṇa (Ledi Cha rā to‘),2016 Originally published under the title, The manuals of Buddhism, in 1965 by the Union Buddha Saasana Council, Yangon, Myanmar--Title page verso.

In the Spirit of the Buddha Paul R. Fleischman,Susan K. Fleischman,2021-08-19 This collection of prose poems is based upon the teaching of the Buddha. The selections have been chosen for inspiration, rather than representing the full span of the teaching. We have previously presented them as slides, or read them aloud to friends, on various occasions, such as after workshops, following assistant teacher meetings, around fireplaces in national parks, or after evening metta. They have consistently been received with appreciation, and have evoked multiple requests for their publication. All of these compositions combine the Buddha’s thoughts with contemporary phrasing. They cannot be considered direct quotes from the Pali Canon, because we have worked only with English language translations, and because we have combined similar passages, or modified the language for readability. But at the same time, we can’t claim that these words are original to us, because they are in the spirit of the Buddha. They are brief, poetic, re-speaking of some of the Buddha’s most important ideas. They are sparks from the campfire that continue to glow in the dark. Our intention is that these slides, or pages, will inspire meditators and nonmeditators alike. They are written from the authentic experience of the troubling human condition, and they speak from the standpoint of suffering and the Path out of suffering. They are insights that have crossed the bridge of time from ancient India to today. We hope you will find wisdom flowing through time on the river of words that originates in the ancient spring of the Pali Canon. —Paul R. and Susan K. Fleischman

*The Gem Set in Gold* S. N. Goenka, This is the English translation of the Pali and Hindi chanting by S.N. Goenka from a ten-day Vipassana meditation course. It is formatted so that one can readily find the translations of the chanting from throughout the course, including the opening night, each day's morning chanting, and all other chantings. The Pali and Hindi text appears on pages opposite the English translation.

*Abhidhamma Studies* Nyanaponika,1998-03 The Abhidhamma expounds a revolutionary system of philosophical psychology rooted in the twin Buddhist insights of selflessness and dependent origination. In keeping with the liberative thrust of early Buddhism, this system organizes the entire spectrum of human consciousness around the two poles of Buddhist doctrine?bondage and liberation?the starting point and the final goal. It thereby maps out, with remarkable rigor and precision, the inner landscape of the mind to be crossed through the practical work of Buddhist meditation. In this book of groundbreaking essays, Venerable Nyanaponika Thera, one of our age's foremost exponents of Theravada Buddhism, penetrates the Abhidhamma to make its principles intelligible to the thoughtful reader of today. Innovative and rich in insights, this book does not merely open up new avenues in the academic

study of early Buddhism. By treating the Abhidhamma as a fountainhead of inspiration for philosophical and psychological inquiry, it demonstrates the continuing relevance of Buddhist thought to our most astute contemporary efforts to understand the elusive yet so intimate nature of the mind.

**Karma Chakme's Mountain Dharma** Khenpo Karthar Rinpoche,2006 The five volume set, Karma Chakme's Mountain Dharma, includes the text as taught by Khenpo Karthar Rinpoche at Karma Triyana Dharmachakra (KTD) from 1999 to 2003, with translations by Lama Yeshe Gyamtso and Chojor Radha. Volume two examines the complete path of Mahamudra from initial experience to full realization. There is emphasis on how to conduct a proper retreat, including the use of geomancy in determining the appropriate site, the longevity practices of White Tara and Tseringma, chA practice, and how to use compassion as protection from fear and danger. This volume introduces the tantras, and gives anuttara yoga tantra instructions for Vairochana purification practices both for oneself and for the deceased.

**Deepening Insight** Bhikkhu Anālayo,2021-08-07 Deepening Insight presents a selection of passages from the early Buddhist discourses that provide perspectives on the cultivation of liberating insight into vedanā, “sensation,” “feeling,” or “feeling tone.” For meditators, such passages can be of considerable help as a reference point for deepening insight. A metaphor that can offer considerable help when facing vedanās describes bubbles arising on the surface of a pond during rain...they arise and soon enough burst and disappear. Contemplation of the changing nature of vedanā provides a firm foundation for the growth of insight into not self. Such insight proceeds through successive layers of the mind’s ingrained habit of self-referentiality. Based on relinquishing the explicit view of affirming the existence of a permanent self, increasingly subtler traces of conceit and possessiveness need to be successively overcome until with full awakening all selfing in any form will be removed for good. Deepening Insight is based on textual sources that reflect “early Buddhism,” which stands for the development of thought and practices during roughly the first two centuries in the history of Buddhism, from about the fifth to the third century BCE. These sources are the Pāli discourses and their parallels, mostly extant in Chinese translation, which go back to instructions and teachings given orally by the Buddha and his disciples. In those times in India, writing was not employed for such purposes, and for centuries these teachings were transmitted orally. The final results of such oral transmission are available to us nowadays in the form of written texts. Bhikkhu Anālayo's presentation is meant to provide direct access, through the medium of translation, to the Chinese Āgama parallels to relevant Pāli discourses. In commenting on such passages, his chief concern throughout is to bring out practical aspects that are relevant to actual insight meditation. Endorsements In spring 1990 S.N. Goenka initiated an international seminar named The Importance of Vedanā and Sampajañña. It had the purpose to disseminate the prominence of sensations (vedanā) as a core object of meditation to recognize the intrinsic nature of change and impermanence. Venerable Bhikkhu Anālayo now provides a thorough, comprehensive and well selected collection on vedanā as maintained in the original early Pāli Canon. Along with the comparison to the Chinese Āgama, otherwise hardly available, this collection if adapted and applied to practice may indeed serve as an inspiring source for deepening insight. —Klaus Nothnagel, Pāli teacher and Center Teacher for Dhamma Pallava in Poland

**The Discourse Summaries** S. N. Goenka,William Hart,2000 The 11 discourses in this volume provide a broad overview of the teachings of Buddha to help meditators understand what to do and why, so they work in the proper way and achieve the proper results.

The lectures were given at the request of a religious study group headed by two Americans. They contain a summary of the life of the Buddha and his teachings.

**The Future of Faith** Harvey Cox,2010-10-05 The Rise and Fall of Belief and the Coming Age of the Spirit There is an essential change taking place in what it means to be “religious” today. As religious people shift their focus to ethical guidelines and spiritual disciplines—not doctrine—we are seeing a universal trend away from hierarchical, regional, patriarchal, and institutional religion. Now, legendary Harvard scholar Harvey Cox offers a new interpretation of the history and future of religion, revealing how doctrines and dogma are giving way to new grassroots movements based in community, social justice, and spiritual experience. The Future of Faith is a major statement and a hopeful vision from one of the most revered theologians today.
