Proum, 2011-01-10 This was the first English-Khmer (Cambodian)

dictionary to be published in the Western world. It contains some 40,000 English entries and subentries and their translations. The primary objective of the dictionary is to provide a corpus of basic words and phrases which it would be useful for Western students of Khmer to know how to say or write in standard Khmer. The second objective is to provide the first comprehensive English-Khmer dictionary for Khmer students learning English, particularly important now because of the recent arrival in the United States of more than 15,000 Khmer refugees. The third objective is to provide a research tool for those linguists, philologists, and other scholars interested in the study of the Khmer language, notable both for its rich literary traditions and for its place in the linguistic history of Southeast Asia.

*English-Spoken Khmer Dictionary* Keesee, 2012-11-12 This is a unique learning aid for making rapid headway in the acquisition of comprehension and speaking ability in Khmer, the language of Cambodia. In recent years, Cambodia has moved from a society menaced by war to a society orientated to commerce. With this shift in attention from military to social and economic matters has come an increase in the numbers of foreign visitors and residents in the country for the purposes of tourism, aid work or investment-

related activities. Many of these foreigners or 'chun bor-tay' speak English as a first or second language, but know little of written or spoken Khmer. This dictionary is designed to enable residents and visitors to better understand both the country and its people through speaking to Cambodians in their own language. With more than 6,000 key word entries, the English-Spoken Khmer Dictionary has the distinctive feature of presenting Khmer words in an all-new easily grasped Romanized writing system. Incorporating phrases is essential for tourists, business travellers, scholars and long term Cambodia residents who wish to become more familiar with a country poised to play an increasingly significant role in the area.

*A Dictionary of Mah Meri as Spoken at Bukit Bangkong* Nicole  
Kruspe,2010-07-06 Mah Meri is an Aslian (Austroasiatic: Mon-  
Khmer) language spoken in scattered settlements along a section  
of the southwest coast of Selangor in Peninsular Malaysia. The  
Mah Meri are the only Aslian speakers who live in a coastal  
environment. Their language, which may have about 2,000  
speakers, has no written language and is highly endangered. This

is the first comprehensive dictionary of Mah Meri and is based on the author's extensive field research and consultation with members of the community over the last ten years. The dialect presented here is spoken by about 600 people at Bukit Bangkong, the most southerly Mah Meri settlement. The dictionary contains around 4,000 entries, each with a phonetic transcription and translations in both English and Malay. Many entries are further complemented by illustrative examples, notes on usage, derivations, ethnographic information, and illustrations—all provide insight into the world of Mah Meri speakers. Two finder lists (English–Mah Meri and Malay–Mah Meri) are included, giving access to the intended audience of international and local scholars and community members. The volume also includes a general introduction to the Mah Meri, notes to assist the reader in using the dictionary, and a short grammatical description.
