DirecTV, Inc., Plaintiff-appellant V. Hoa Huynh, Defendant-appellee Hoa Huynh,2005 Federal law makes it illegal to intercept satellite TV signals without authorization and also bans modifying or assembling interception tools for sale or distribution. In this case before the Ninth Circuit, DirecTV claims that it can sue individuals for both interception of its signal and modification of receiving equipment in cases where altered smart cards are simply inserted into standard television equipment. DirecTV claims that inserting a smart card into preexisting television equipment constitutes assembling a pirate device. The amicus brief claims that DirecTV is overreaching and also points out that legitimate security researchers would be threatened under the proposed misreading of the law. A lower court has already ruled that DirecTV cannot sue on this theory and dismissed DirecTV's attempt to double-dip by punishing individuals twice for a single offense. Brief supports a lower court decision that 47 U.S.C., section 605(e)(4) does not apply to individuals who used interception devices solely for personal use.
