Onomastics in Contemporary Public Space Oliviu Felecan,2013-08-19 Onomastics in Contemporary Public Space aims at analysing names and name-giving from an intercultural perspective, within the context of contemporary public space. As was the case of *Name and Naming: Synchronic and Diachronic Perspectives* (Cambridge Scholars Publishing, 2012), the geographical areas investigated in the studies included in this volume are very diverse, referring not only to European cultural space, but also to American, Asian, African and Australian contexts. Being a collective work, the book brings together 49 specialists from 18 countries; namely Australia, Belgium, Finland, France, Germany, Israel, Italy, Japan, Malta, the Netherlands, Poland, Romania, Russia, Singapore, South Africa, Spain, the United Kingdom and the USA. Thematically, the volume is organised so that it may cover all the dimensions of public space, as far as onomastics is concerned. The specific areas studied are: the theory of names; names of public places (linguistic landscapes); names of public, economic, cultural, religious and sports institutions (names of business establishments, religious institutions – places of worship – and cultural associations, as well as names in journals and magazines); names of objects/entities resulting from various processes in public space (names of foods, drinks and food brands, code names of collaborators in secret service organisations, names in literature, nicknames/bynames/pseudonyms in the world of politics, high life, art and sport, names in virtual space, and zoonyms); and miscellanea. The originality and topicality of the subject lie in the multidisciplinary viewpoint adopted in the research, in which onomastics merges with adjacent linguistic disciplines, such as sociolinguistics, psycholinguistics and pragmatics, as well as other sciences, such as history, literature, anthropology, politics, economy and religion.

Main Lines, Blood Feasts, and Bad Taste Lester Bangs,2008-12-10 Before his untimely death in 1982, Lester Bangs was inarguably the most influential critic of rock and roll. Writing in hyper-intelligent Bazedrine prose that calls to mind Jack Kerouac and Hunter S. Thompson, he eschewed all conventional thinking as he discussed everything from Black Sabbath being the first truly Catholic band to Anne Murray's smoldering sexuality. In *Mainlines*, *Blood Feasts*, *Bad Taste* fellow rock critic John Morthland has compiled a companion volume to *Psychotic Reactions and Carburetor Dung*, the first, now classic collection of Bangs's work. Here are excerpts from an autobiographical piece Bangs wrote as a teenager, travel essays, and, of course, the music pieces, essays, and criticism covering everything from titans like Miles Davis, Lou Reed, and the Rolling Stones to esoteric musicians like Brian Eno and Captain Beefheart. Singularly entertaining, this book is an absolute must for anyone interested in the history of rock.

Encyclopedia of Contemporary Christian Music Don Cusic,2009-11-12 The first comprehensive overview of contemporary inspirational music, covering its historical roots and dramatic growth into one of America's most vital music genres. The *Encyclopedia of Contemporary Christian Music: Pop, Rock, and Worship* is the first comprehensive reference work on a form of American music that is far more popular than nonfans may realize. It fills a major gap in the literature on American music and Christian culture, looking at this increasingly popular genre in the context of the overall history of religious music in the United States. With over 200 entries, *The Encyclopedia of Contemporary Christian Music* covers important performers and industry figures, songs and albums, concerts and festivals, the rise of Christian radio and television, and other issues related to the growth of inspirational music. Scholars and fans alike will find a wealth of revealing information and insightful coverage illustrating the influence of gospel on modern American music with musicians such as Elvis, Sam Cooke, Johnny Cash, Bob Dylan, and U2. The work also examines the use of fundamental rock, pop, and rap music templates in the service of songs of faith.
