Orientalism and Islam: Oxford Bibliographies Online Research Guide Oxford University Press, 2010-05-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In Islamic studies, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is a static version of an article from Oxford Bibliographies Online: Islamic Studies, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of the Islamic religion and Muslim cultures. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.aboutobo.com.

International Joint Conference SOCO'17-CISIS'17-ICEUTE'17 León, Spain, September 6-8, 2017, Proceeding Hilde Pérez García, Javier Alfonso-Cendón, Lidia Sánchez González, Héctor Quintián, Emilio Corchado, 2017-08-21 This volume includes papers presented at SOCO 2017, CISIS 2017, and ICEUTE 2017, all conferences held in the beautiful and historic city of León (Spain) in September 2017. Soft computing represents a collection of computational techniques in machine learning, computer science, and some engineering disciplines, which investigate, simulate, and analyze highly complex issues and phenomena. These proceedings feature 48 papers from the 12th SOCO 2017, covering topics such as artificial intelligence and machine learning applied to health sciences; and soft computing methods in manufacturing and management systems. The book also presents 18 papers from the 10th CISIS 2017, which provided a platform for researchers from the fields of computational intelligence, information security, and data mining to meet and discuss the need for intelligent, flexible behavior by large, complex systems, especially in mission-critical domains. It addresses various topics, like identification, simulation and prevention of security and privacy threats in modern communication networks. Furthermore, the book includes 8 papers from the 8th ICEUTE 2017. The selection of papers for all three conferences was extremely rigorous in order to maintain the high quality and we would like to thank the members of the Program Committees for their hard work in the reviewing process.

Explorations in the History of Machines and Mechanisms Teun Koetsier, Marco Ceccarelli, 2012-04-05 This book contains the proceedings of HMM2012, the 4th International Symposium on Historical Developments in the field of Mechanism and Machine Science (MMS). These proceedings cover recent research concerning all aspects of the development of MMS from antiquity until the present and its historiography: machines, mechanisms, kinematics, dynamics, concepts and theories, design methods, collections of methods, collections of models, institutions and biographies.

Mechanisms, Transmissions and Applications Erwin-Christian Lovasz, Burkhard J. Corves, 2011-11-02 The first Workshop on Mechanisms, Transmissions and Applications -- MeTrApp-2011 was organized by the Mechatronics Department at the Mechanical Engineering Faculty, "Politehnica" University of Timisoara, Romania, under the patronage of the IFToMM Technical Committees Linkages and Mechanical Controls and Micromachines. The workshop brought together researchers and students who work in disciplines associated with mechanisms science and offered a great opportunity for scientists from all over the world to present their achievements, exchange innovative ideas and create solid international links, setting the trend for future developments in this important and creative field. The topics treated in this volume are mechanisms and machine design, mechanical transmissions, mechatronic and biomechanic applications, computational and experimental methods, history of mechanism and machine science and

teaching methods.

Innovation in Music Russ Hepworth-Sawyer, Justin Paterson, Rob Toulson, 2021-01-21 Innovation in Music: Future Opportunities brings together cutting-edge research on new innovations in the field of music production, technology, performance and business. Including contributions from a host of well-respected researchers and practitioners, this volume provides crucial coverage on a range of topics from cybersecurity, to accessible music technology, performance techniques and the role of talent shows within music business. Innovation in Music: Future Opportunities is the perfect companion for professionals and researchers alike with an interest in the music industry.

Hybrid Machining Xichun Luo, Yi Qin, 2018-06-27 Hybrid Machining: Theory, Methods, and Case Studies covers the scientific fundamentals, techniques, applications and real-world descriptions of emerging hybrid machining technology. This field is advancing rapidly in industrial and academic contexts, creating a great need for the fundamental and technical guidance that this book provides. The book includes discussions of basic concepts, process design principles, standard hybrid machining processes, multi-scale modeling approaches, design, on-machine metrology and work handling systems. Readers interested in manufacturing systems, product design or machining technology will find this one-stop guide to hybrid machining the ideal reference. Includes tables of recommended processing parameters for key engineering materials/products for each hybrid machining process Provides case studies covering real industrial applications Explains how to use multiscale modeling for hybrid machining

Advances in Mechanism and Machine Science Tadeusz Uhl, 2019-06-13 This book gathers the proceedings of the 15th IFToMM World Congress, which was held in Krakow, Poland, from June 30 to July 4, 2019. Having been organized every four years since 1965, the Congress represents the world's largest scientific event on mechanism and machine science (MMS). The contributions cover an extremely diverse range of topics, including biomechanical engineering, computational kinematics, design methodologies, dynamics of machinery, multibody dynamics, gearing and transmissions, history of MMS, linkage and mechanical controls, robotics and mechatronics, micro-mechanisms, reliability of machines and mechanisms, rotor dynamics, standardization of terminology, sustainable energy systems, transportation machinery, tribology and vibration. Selected by means of a rigorous international peer-review process, they highlight numerous exciting advances and ideas that will spur novel research directions and foster new multidisciplinary collaborations.

Online GIS and Spatial Metadata Terry Bossomaier, 2001-11-01 The World Wide Web presents many new, exciting prospects for geographic information systems, but also numerous technical, practical and organizational challenges. Users no longer require specialized and expensive hardware, software and data, and they can access a GIS readily from almost anywhere, using off-the-shelf browser software. An onli

Advances in Mechanisms Design Jaroslav Beran, Martin Bílek, Monika Hejnova, Petr Zabka, 2012-08-21 The International Conference on the Theory of Machines and Mechanisms is organized every four years, under the auspices of the International Federation for the Promotion of Mechanism and Machine Science (IFTToMM) and the Czech Society for Mechanics. This eleventh edition of the conference took place at the Technical University of Liberec, Czech Republic, 4-6 September 2012. This volume offers an international selection of the most important new results and developments, in 73 papers, grouped in seven different parts, representing a well-balanced overview, and spanning the general theory of machines and mechanisms, through analysis and synthesis of planar and spatial mechanisms, dynamics of machines and mechanisms, linkages and cams, computational mechanics, rotor dynamics, biomechanics, mechatronics, vibration and noise in machines, optimization of mechanisms and machines, control and monitoring systems of machines, accuracy and reliability of machines and mechanisms, robots and manipulators to the mechanisms of textile machines.

British Media Coverage of the Press Reform Debate Binakuromo Ogbemor, 2020-07-30 This open access book provides a detailed exploration

of the British media coverage of the press reform debate that arose from the News of the World phone hacking scandal and the Leveson Inquiry. Gathering data from a content analysis of 870 news articles, Ogbebor shows how journalists cover debates on media policy and illustrates the impact of their coverage on democracy. Through this analysis, the book contributes to knowledge of paradigm repair strategies; public sphere; gatekeeping theory; the concept of journalism as an interpretive community; political economy of the press; as well as the neoliberal and social democratic interpretations of press freedom. Providing insight into factors inhibiting and aiding the role of the news media as a democratic public sphere, it will be a valuable resource for the press, media reform activists, members of the public, and academics in the fields of journalism, politics and law.

Who Owns the World's Media? Eli M. Noam, 2016 This publication moves beyond the rhetoric of free media and free markets to provide a dispassionate and data-driven analysis of global media ownership trends and their drivers. Based on an extensive data collection effort from scholars around the world, it covers 13 media industries, including television, newspapers, book publishing, film, search engines, ISPs, and wireless telecommunication, across a 10-25 year period in 30 countries.

Advances in Intelligent Web Mastering Katarzyna M. Wegrzyn-Wolska, Piotr S. Szczepaniak, 2007-08-08 This book contains papers presented at the 5th Atlantic Web Intelligence Conference, AWIC'2007, held in Fontainebleau, France, in June 2007, and organized by Esigatel, Technical University of Lodz, and Polish Academy of Sciences. It includes reports from the front of diverse fields of the Web, including application of artificial intelligence, design, information retrieval and interpretation, user profiling, security, and engineering.

New Trends in Mechanism and Machine Science Paulo Flores, Fernando Viadero, 2014-08-26 This work presents the most recent research in the mechanism and machine science field and its applications. The topics covered include: theoretical kinematics, computational kinematics, mechanism design, experimental mechanics, mechanics of robots, dynamics of machinery, dynamics of multi-body systems, control issues of mechanical systems, mechanisms for biomechanics, novel designs, mechanical transmissions, linkages and manipulators, micro-mechanisms, teaching methods, history of mechanism science and industrial and non-industrial applications. This volume consists of the Proceedings of the 5th European Conference on Mechanisms Science (EUCOMES) that was held in Guimarães, Portugal, from September 16 – 20, 2014. The EUCOMES is the main forum for the European community working in Mechanisms and Machine Science.

Music Industry Directory 2021 J. Paul Dyson, 2020-12-08 This indispensable directory is a must-have for anyone wanting to make it in the music industry. It gives you: • Hundreds of record labels • Hundreds of music managers • Indexes by genre, so you can quickly find all the right listings • Access to overseas markets It also provides free access to the entire current databases online, including over 1,800 record labels, and over 700 managers, with dozens of new and updated listings every month. Your free subscription can be taken out at any time until 2022, and comes packed with all the following features: Advanced search features Save searches and save time – set up to 15 search parameters specific to your work, save them, and then access the search results with a single click whenever you log in. You can even save multiple different searches if you have different types of work you are looking to place. Add personal notes to listings, visible only to you and fully searchable – helping you to organise your actions. Set reminders on listings to notify you when to submit your work, when to follow up, when to expect a reply, or any other custom action. Track which listings you've viewed and when, to help you organise your search – any listings which have changed since you last viewed them will be highlighted for your attention. Daily email updates As a subscriber you will be able to take advantage of our email alert service, meaning you can specify your particular interests and we'll send you automatic email updates when we change or add a listing that matches them. So if you're interested in labels dealing in hard rock in the United States you can have us send you emails with the latest updates about them – keeping you up to date without even having to log in. User feedback Our databases include a user feedback feature that allows our subscribers to leave feedback on each listing – giving

you not only the chance to have your say about the markets you contact, but giving a unique artist's perspective on the listings. Save on copyright protection fees If you're sending your work away to record labels and managers you should first consider protecting your copyright. As a subscriber to MusicSocket you can do this through our site and save 10% on the copyright registration fees normally payable for protecting your work internationally through the Intellectual Property Rights Office (<https://www.CopyrightRegistrationService.com>).
