The Devil In The Detail Paul Holden,Hennie van Vuuren,2011-11-02 The South African 'Arms Deal' was never a single event. Rather it was, and still is, a series of scandals and outrages, all contributing towards a dubious momentum that takes South Africa further away from transparent democratic practice. The Devil in the Detail, written by two of South Africa's leading researchers on the subject, takes the reader on a journey of insight. Witness at close hand the breaking open of State secrets, with tales of outrageous personal enrichment. Explore how the Arms Deal emerged out of the criminal networks of both the old SADF and the ANC's security apparatus, raising questions as to whether South Africa's remarkable transition was not oiled, at key points, by criminal intent and collusion. Follow the trail of the various offset deals done after the Arms Deal - cumulatively worth just as much as - and discover that corruption continues to impact on defence spending in South Africa. Examine the economics and witness how the Arms Deal was not only economically irrational, but virtually suicidal, almost single-handedly derailing the post-apartheid economic project. Finally, read about the rise of the 'shadow state', the politicisation of prosecutions, and the rise of the 'spooks'. The remarkable conclusion of this landmark study is that years after the deal took place, the forces that drove its decisions have only grown in strength, further blighting South Africa's prospects for a future in which all may have a share.

Who Rules South Africa? Martin Plaut,Paul Holden,2012-06-14 In this timely work, WHO RULES SOUTH AFRICA?, highly regarded authors Paul Holden and Martin Plaut analyse the political elites that battle daily for power in South Africa. They argue that power does not reside in traditional institutions such as Parliament or even the Cabinet. Rather, power lies within the ANC-led Alliance which, with no founding document and no written constitution, is an unstructured and mutable political hydra with business and criminal elements in close attendance. It is the interaction between these forces which is the real story behind post-apartheid South Africa. In a country where poverty is rampant and institutions are weak, the battle for power is set to intensify. The authors unravel the mystery of how the rainbow nation has reached such a pass. What are the origins of the Alliance, and will it survive the current power struggles? Who are the shadowy forces that operate within or alongside the Alliance? Most importantly, they seek to answer the burning question of whether South Africa is destined to become another African tragedy, or whether there is still the promise of growth and a stable democracy.

When Zuma Goes Ralph Mathekga,Justice Malala,2016

Zuma Jeremy Gordin,2010-11-22 The first edition of Zuma, published in late 2008, concluded with Jacob Zuma's future balancing on a knife's edge. National elections loomed, but so did corruption charges and endless court battles. Since then Zuma's star has spectacularly risen - the corruption charges were dropped, he led the ANC to election victory and duly became President of South Africa, and his new cabinet and government appointments were generally well received. But he has also recently suffered a huge blow with revelations of another love-child, this time with the daughter of soccer supremo Irvin Khoza. Many of his supporters have distanced themselves from him, and Zuma is looking isolated. Pundits are once again wondering how long he'll survive as President. In this revised and updated edition, Jeremy Gordin takes the reader right up to present. He covers in detail the highs and lows of Zuma's past 18 months, including the final salvos of his legal battles, as well as his first year as President. New material in this edition also includes the 'Pedro' document (a document Zuma wrote in 1986), and accurate information on his wives and children.

Dominance and Decline Susan Booysen,2015 As Jacob Zuma moves into the twilight years of his presidencies of the African National Congress (ANC) and of South Africa, ... [this book] takes stock of his administration ... Susan Booysen shows how the ANC has become centred on Zuma the person, and how its defence of his flawed leadership undermines the party's capacity to govern competently and to protect its long-term future.--Front cover flap.

Regulating Telecommunications in South Africa Charley Lewis,2020-06-10 This book provides the first full account of the 20-year story of universal access and service in South Africa's ICT sector. From 1994 the country's first democratic government set out to redress the deep digital divide afflicting the overwhelming majority of its citizens, already poor and disenfranchised, but likewise marginalised in access to telephone infrastructure and services. By this time, an incipient global policy regime was driving reforms in the telecomms sector, and also developing good practice models for universal service. Policy diffusion thus led South Africa to adopt, adapt and implement a slew of these interventions. In particular, roll-out obligations were imposed on licensees, and a universal service fund was established. But an agency with a universal service mandate was also created; and licences in under-serviced areas were awarded. The book goes on to identify and analyse the policy success and failure of each of these interventions, and suggests some lessons to be learned.

Zuma Exposed Adriaan Basson,2012-11-15 This is the book President Jacob Zuma does not want you to read. From Shaik to 'The Spear', award-winning investigative journalist Adriaan Basson reveals the truth behind Jacob Zuma's presidency of the ANC and South Africa. From one bad decision to another, this explosive, roller-

coaster account traces the unravelling of a likeable but deeply flawed leader who came to power as victim, not visionary. Basson forensically unpacks the charges against Zuma and reveals a president whose first priority is to serve and protect his own, rather than the 50 million people he was elected to lead. To be published on the eve of the ANC elective conference in Mangaung, this is essential reading for any South African who cares about the country they live in.

The Arms Deal In Your Pocket Paul Holden, 2012-03-02 The Arms Deal's taint of corruption has hovered spectre-like over South African politics since 1999, when Patricia de Lille's revelations first hit Parliament. In the foreword to *The Arms Deal in Your Pocket*, former ANC MP Andrew Feinstein describes the Arms Deal as 'the moment at which the ANC and the South African government lost their moral compass'. Paul Holden's succinct, informative and devastating handbook tells the story in the simplest way possible, providing a guide to what was bought (and why), who was involved and what was covered up. The chapters are ordered chronologically to allow the reader to follow the story as it unfolded on the ground, and each chapter includes an info box and short timeline of the key dates to remember. Paul Holden is a freelance writer, researcher and historian, and the co-author (with Hennie van Vuuren) of *The Devil in the Detail: How the Arms Deal Changed Everything*.

In The Shadow of Mandela Alexander Johnston, 2019-12-12 This outstanding and original work goes to the heart of South Africa's political problems - doubts as to the sustainability of the post-apartheid settlement, beset with divisions in the ruling ANC, factionalism, corruption and the widening of fault-lines in state and society. The 'leadership issue' has become key and this will be the first specific examination of leadership in the light of Mandela's legacy and its effect on his successor as potential and actual leaders - all in 'the shadow of Mandela' as the architect of the transition from apartheid to democracy, and with overarching moral authority and international reputation. Alexander Johnston shows how his successors are judged against Mandela's achievements, including the potentially impressive 'lost' leaders and concentrating on his immediate successors, Thabo Mbeki and Jacob Zuma. The book concludes with an in-depth assessment of new president Cyril Ramaphosa's potential to be a leader for a 'new dawn'. This is an objective and critical work by a close observer who acknowledges the achievement of South African leadership but is acutely aware of the doubts as to the sustainability of South Africa's hard won democratic settlement. An essential read for all readers interested in leadership and in the traumatic history and future of Africa's leading state, as the continent rises to global importance.

Precarious Power Susan Booyesen, 2021-02-01 An incisive analysis of South Africa's ANC power-as party, as government, as state South Africa's African National Congress (ANC) is in decline, its hegemony has been weakened, its legitimacy diluted. President Cyril Ramaphosa's appointment suspended the ANC's electoral decline, it also heightened internal tensions between those who would deepen its acquired status as corrupt and captured, and those who would remodel it as redeemable. These are the incontrovertible knowns of South African politics; what will evolve from this is less certain. In *Precarious Power*, renowned political scientist Susan Booyesen uses in-depth research and analysis to distill that which is bound to shape South Africa's political future, Booyesen focuses on contradictory party politics and internal ANC dissent that is veiled for the sake of retaining an electoral following. Also exposed is the incongruous, populist policymaking, protest politics and the use of soft law to ensure it does not alienate angry citizens, fueling further discontent and protest. The ANC's power has become exceedingly precarious. *Precarious Power* is the name of the political game, for the foreseeable future. The comprehensive analysis in *Precarious Power* will appeal not only to political scientists and postgraduate students, but to all who take a keen interest in current affairs.

Applied Reconfigurable Computing Stephan Wong, Antonio Carlos Beck, Koen Bertels, Luigi Carro, 2017-03-30 This book constitutes the refereed proceedings of the 13th International Symposium on Applied Reconfigurable Computing, ARC 2017, held in Delft, The Netherlands, in April 2017. The 17 full papers and 11 short papers presented in this volume were carefully reviewed and selected from 49 submissions. They are organized in topical sections on adaptive architectures, embedded computing and security, simulation and synthesis, design space exploration, fault tolerance, FPGA-based designs, neural networks, and languages and estimation techniques.

Zuma and Numbers Stiaan Wolfaardt, 2020-02-14 If former South African president Jacob Zuma were to read more numbers. Heres what I did. I wrote an application that generates numbers just like Zuma would say them! This is a coffee table book. Read a line or two after you and your guests have had some drinks and laugh the night away. Don't take this book seriously, and remember to listen properly.

Extractive Industries and Changing State Dynamics in Africa Jon Schubert, Ulf Engel, Elísio Macamo, 2018-07-04 This book uses extractive industry projects in Africa to explore how political authority and the nation-state are reconfigured at the intersection of national political contestations and global, transnational capital. Instead of focusing on technological zones and the new social assemblages at the actual sites of construction or mineral extraction, the authors use extractive industry projects as a topical lens to investigate contemporary processes of state-making at the state–corporation nexus. Throughout the book, the authors seek to understand how public political actors and private actors of liberal capitalism negotiate and redefine notions and practices of sovereignty by setting legal, regulatory and fiscal standards. Rather than looking at resource governance from a normative perspective, the authors look at how these negotiations are shaped by and reshape the self-conception of various national and transnational actors, and how these jointly redefine the role of the state in managing these processes for the 'greater good'. *Extractive Industries and Changing State Dynamics in Africa* will be useful for researchers, upper-level students and policy-makers who are interested in new articulations of state-making and politics in Africa.

New Leaders, New Dawns? Chris Brown, David Moore, Blair Rutherford, 2022-06-17 In late 2017 and early 2018, South Africa and Zimbabwe both experienced rapid and unexpected political transitions. In Zimbabwe, Robert Mugabe, the only leader the country had ever known, was replaced in a "soft coup" by his erstwhile vice-president, Emmerson Mnangagwa. Over a twelve-day period in February 2018, South African president Jacob Zuma was prematurely forced from office by his former deputy president, Cyril Ramaphosa. The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions. *New Leaders, New Dawns?* explores these political transitions and the way they were received. Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low; the underlying reasons for their ouster; what happened to their liberation movements turned ruling parties; and, perhaps most importantly, what the rise to power of Ramaphosa and Mnangagwa foreshadowed. Bringing together fourteen leading international scholars of southern Africa, and adopting a political economy framework, this

volume argues that the changes in leadership are welcome, but insufficient. While the time had come for Zuma and Mugabe to go, there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social, economic, and political problems both countries face. New Leaders, New Dawns? reveals that despite what these new leaders may have promised, a “new dawn” has not yet arrived in southern Africa.

Politics and Government in South Africa Mueni Wa Muiu,2023-06-20 Politics and Government in South Africa introduces readers to all aspects of government and politics in South Africa, from local, to provincial, national, and on to international considerations. The perfect guide for students and general readers, this textbook explains how South Africa’s key institutions are governed and interact with each other, and how important issues such as economics, gender, race, and class shape relations between citizens and government. Grounded in history and leading theories and debates, the book also brings in alternative perspectives from artists, writers, and popular culture, to demonstrate the diverse ways in which issues of politics and social justice are engaged with within South Africa. Written with the needs of students at the forefront, each chapter includes: Review and discussion questions Key terms and further resources Fun facts in a Did you know? section Supplementary sources and quotations in a The Past as Present section Interactive and engaging, Politics and Government in South Africa invites readers to consider what they would do in tackling issues such as land distribution, peacekeeping, South Africa’s role in the African Union, and military engagement abroad. It is an essential read for undergraduate students studying Political Science, International Relations, and African Studies, and for anyone looking to develop a deeper understanding of South Africa.
