The Stroke Book June Biermann,Barbara Toohey,2005-03-03 An indispensable, sensitive guide for stroke sufferers and those who care for them According to the U.S. Centers for Disease Control, an American suffers a stroke every forty-five seconds. More than 700,000 Americans each year find themselves struggling to recover from this affliction—and many hundreds of thousands more are there to help them mend. June Biermann, a stroke survivor, and her coauthor—and

caregiver—Barbara Toohey, authors of the bestselling Diabetic's Total Health and Happiness Book, offer this essential source for those recovering from a stroke and those providing them with support. The Stroke Book offers readers: - Clear explanations of the science of this often misunderstood condition - Information on what to expect at the hospital and in rehabilitation - Analyses of encouraging new developments in stroke therapy, including basic and alternative therapies, and traditional and cutting-edge medications - Advice on coping with complex rehabilitation needs, including adjustments for nutrition, mobility, and everyday living, and on understanding after-stroke emotional and cognitive changes - Suggestions for preventing future strokes - Information on how people recovering from a stroke can reclaim their independence and quality of life—and how caregivers can manage their own stresses and sorrows - Heartening words on keeping hope alive with patience and fortitude, and the curative power of humor - Inspiring stories of the stroke and recovery experiences of well-known individuals With stroke now the leading cause of serious, long-term disability in the United States, Biermann and Toohey's optimistic, user-friendly guide to living well after an attack is a vital tool for recovery.

Hydrogen Medicine Dr. Mark Sircus,2021-06-15

This book will explore hydrogen gas, hydrogen water, oxygen (O2), and carbon dioxide (CO2). Combining these gases will usher in a new age of medicine where the impossible becomes possible. Hydrogen is serious medicine, and so is oxygen and carbon dioxide. All three gases are nutritional and are of enormous help to people with pain, disease, and cancer. Hydrogen allows the body to function and breathe under stress. And it allows for quicker healing and recovery than when oxygen alone is used. The sicker a person is, the more they will experience the benefits of hydrogen. Hydrogen can be flooded into the body to put out the worst flames of inflammation and oxidative stress. The longer one wants to live, the more one supplements with these primary gases. The most powerful healing/medical/anti-aging device in the world is a hydrogen oxygen inhaler.

Transdermal Magnesium Therapy Dr. Mark

Sircus,2011-07-07 This second edition of Transdermal Magnesium Therapy offers a full medical review of how magnesium affects cancer, the heart, diabetes, the emotions, inflammation, surgery, autism, transdermal medicine, and so much more. Magnesium is nothing short of a miracle; it has the potential to save you from considerable suffering and pain. The information presented here could even save your life. Magnesium is the lamp of life and one of the most important keys to overall health. When applied in the correct way, magnesium offers us a return to strength and vigor. When used in the emergency room, magnesium can save the day for both heart and stroke

patients. What you will be introduced to is magnesium oil, a natural concentrated form of magnesium chloride that can be applied directly to the skin for intense effect. When we are deficient in magnesium, over three hundred enzymes in our body are unable to function properly. Magnesium deficiency has been scientifically identified as a critical factor in the onset of a wide variety of diseases. For various reasons and to varying degree, two-thirds or more of the population is magnesium deficient. Learn how to use this powerful secret to good health in Transdermal Magnesium Therapy.
