Lawrence T. Lorimer

Henry Aaron's Dream Matt Tavares, 2010 A picture book biography of African-American baseball player Hank Aaron.

To Chase a Dream Paul Kapsalis, Ted Gregory, 2014-12-15 Winners of 8 national championships, Indiana University is to men's college soccer what University of North Carolina is to college basketball or University of Notre Dame is to college football. *To Chase a Dream* is the true story of one kid's near-impossible desire to play soccer at that national powerhouse, a kid who was told time after time that he simply wasn't good enough and never would be. What all the doubters failed to consider was that inside the body of an under-sized, humble Paul Kapsalis was the heart of a lion. This is his journey, a story that affirms that perseverance, optimism, hard work, a willingness to learn, and kindness can lead to remarkable achievements and transform a kid who just wanted to play soccer into a leader of men. It took him 5 years, fighting through rejection and a career-threatening injury, but Paul got where he never expected to go. Here's a chance to see how he did it.

Scoring is Boring Saumya Saxena, 2023-06-22
Scoring is boring is written for teenagers who
find it challenging to score well in studies and
find mainstream subjects boring. This boredom
keeps them from achieving their academic goals and
enjoying their student lives. When they struggle
with homework, their playtime is snatched. A low
score keeps them grounded and away from friends.

And don't forget the rituals of scolds and tantrums that exhaust both parents and kids. Parents have been struggling to find a solution to this problem for a long but only a few have succeeded. What if we believe that kids themselves can solve the problem if given proper direction? This book will guide your ordinary teenager and turn one into an extraordinary person who knows how to deal with life. The book is based on the premise that it's not the learning that is boring but books, curriculums, and studies because of the pressure of scoring which is exhausting. If only we made studies interesting and meaningful, your kids can realize their true strengths, they would forge their own paths. They don't need to be pushed but only propelled. The book will also help teenagers grow smarter in other areas socially, mentally, psychologically, and emotionally so they develop holistically. This book will create an extraordinary person who is the jack of all trades and the master of one. It has a set of self-discovery exercises and tested methods to help them realize their dreams by channelling their true potential.

Topics from Australian Conferences on Teaching Statistics Helen MacGillivray, Brian Phillips, Michael A. Martin, 2014-09-01 The first OZCOTS conference in 1998 was inspired by papers contributed by Australians to the 5th International Conference on Teaching Statistics. In 2008, as part of the program of one of the first National Senior Teaching Fellowships, the 6th OZCOTS was held in conjunction with the Australian Statistical Conference, with Fellowship keynotes and contributed papers, optional refereeing and proceedings. This venture was so successful that the 7th and 8th OZCOTS were similarly run, conjoined with Australian Statistical Conferences in 2010 and 2012. Authors of papers from these OZCOTS conferences were invited to develop chapters for refereeing and inclusion in this volume. There are sections on keynote topics, undergraduate curriculum and learning, professional development, postgraduate learning, and papers from OZCOTS 2012. Because OZCOTS aim to unite statisticians and statistics educators, the approaches this volume takes are immediately relevant to all who have a vested interest in good teaching practices. Globally, statistics as a discipline, statistical pedagogy and statistics in academia and industry are all

critically important to the modern information society. This volume addresses these roles within the wider society as well as questions that are specific to the discipline itself. Other chapters share research on learning and teaching statistics in interdisciplinary work and student preparation for futures in academia, government and industry.

The Passion for the Beautiful Game, Soccer Gene Ventriglia,2022-05-23 Gene Ventriglia was a very poor fourteen-year-old immigrant when he arrived in New York harbor in early July 1958. Coming from the tiny village of Alife (Italy), he had grown up in a farm village of about three hundred inhabitants. The village, as well as his parents' house, had been leveled by bombs in the final days of World War II. In 1958, the memories were still very much alive as postwar reconstruction was far from completion. These were the surroundings where Gene Ventriglia grew up. Gene had only known his small village and was unaware that common items, such as telephones and TV sets, even existed. One

can only imagine his reaction upon seeing the New York skyscrapers and the size and number of cars when he first walked on the New York streets. He had no idea how his life would change in the very near future. How would he react? He wondered if he would make friends. After all, how would he communicate? He did not know a word of English. Gene soon realized that getting a good education was the key to success. However, he also realized that it would take great efforts and motivation on his part. Was he willing to put in the necessary effort? He needed to learn a new language in a community where he only heard Italian. His search to find that American Dream lasted more than sixty years. During this time, Gene was faced with one challenge after another in his search for that dream. In each case, Gene used his passion for the game of soccer to fuel his inner motivation and determination not to give up every time he arrived at a dead end. Gene's path to finding that dream was full of surprises. In all cases, he was very determined and he demonstrated outstanding motivation to achieve his goal.

Unsettled Scores Sally Bick, 2019-12-20 The Hollywood careers of Aaron Copland and Hanns Eisler brought the composers and their high art sensibility into direct conflict with the premier

producer of America's potent mass culture. Drawn by Hollywood's potential to reach—and edify—the public, Copland and Eisler expertly wove sophisticated musical ideas into Hollywood and, each in their own distinctive way, left an indelible mark on movie history. Sally Bick's dual study of Copland and Eisler pairs interpretations of their writings on film composing with a close examination of their first Hollywood projects: Copland's music for *Of Mice and Men* and Eisler's score for *Hangmen Also Die!* Bick illuminates the different ways the composers treated a film score as means of expressing their political ideas on society, capitalism, and the human condition. She also delves into Copland's and Eisler's often conflicted attempts to adapt their music to fit Hollywood's commercial demands, an enterprise that took place even as they wrote hostile critiques of the film industry.
