Drag Racing 201 - Racing in the New Economy Ike Heckler Jr, 2011-11-25 Following the success of his first book, *Drag Racing 101*, where IH Racing's Team Owner Ike Heckler Jr. explains how to build your first race car and secure sponsorship, Ike now brings you *Drag Racing 201 - Racing in the New Economy*. After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. With over 52 career round wins and national media exposure from SPEED TV's Pinks All Out, NHRA's National Dragster, and NMCA's Fastest Street Car magazine, Ike has secured corporate sponsorships from Lucas Oil, VP Racing Fuels, WIX Filters, O'Reilly Auto Parts, ReMax Realty, Holiday Inn Hotels & Resorts, CARQUEST Auto Parts, and Ken's Speed & Machine. IH Racing's primary sponsor, Premier Properties of the Space Coast, is owned by Mr. Heckler and develops residential and commercial properties in southeast Florida. In *Drag Racing 201* Ike explains how to use your own company together with your other sponsors to be able to fund a full race season and be able to travel the hundreds of miles from racetrack to racetrack economically. From getting into the Final 32 at the Pinks All Out event in West Palm, FL to making the WIX All Out 16 at the Pinks All Out event at zMax Dragway in Charlotte, Ike brings you along to all the other races and other fun events he was able to attend in 2010 with the help of good friends and sponsors. You will also ride along as he moves from Florida to North Carolina, then back to Florida just so he could honor his commitment to all his sponsors and race the season. He will also show you how the degrading economy affected his racing operation in 2010 and how he had to adjust and sacrifice his personal life to be able to race and survive. *Drag Racing 201* then looks into the future of the sport and projects how it may look a few years from now and gives the reader some valuable tips on how to afford racing a full season and how the racer may have to live differently in order to race and live their dream. Ike also gives the reader some valuable sponsorship tips along the way that will help with sponsor exposure and could make securing sponsorships a little easier. This 80 page full color book has over 75 pictures highlighting the West Palm FL, Charlotte NC, and the Bristol TN Pinks All Out events (and getting on SPEED TV), the Atlanta, NHRA Unleashed event, and what it feels like to work for an NHRA national event. If your goal is to drag race in the New Economy, this book is a must read that will save you money and increase your sponsor exposure !!

Match Race Mayhem Doug Boyce, 2017-06-15 Drag racing is a very regulated sport. In the history of the NHRA, IHRA, and other sanctioning bodies, many classes existed in an effort to make sure the cars racing against each other are as equal as possible. It is a noble, if not futile, pursuit. You have two cars facing off that have very similar statistics in terms of weight, transmission type, fuel type, estimated horsepower, and all other sorts of measurables. The byproduct is that often the races that were fair were not the races that the fans wanted to see. During the golden age of drag racing, fans didn't care as much about class racing as much as they wanted to see scores settled, rivalries battled, and interesting match-ups. There were the manufacturer rivalries, Ford versus Chevy, Chevy versus Mopar, Mopar versus Ford, as well as numerous driver rivalries. Match races were also a great way to feature wildly popular cars that no longer had a class in which to compete, yet the fans still wanted to see them. So popular and intense were these races that many track promoters didn't bother to promote class racing at all. Instead, they used the match races as headliners, similar to the marquee at your local arena or a billboard in Las Vegas, all resulting in putting more fans in the stands. And the drivers loved it too. Although the prize money for national events was fairly average for the day, the extra appearance fees and prize money to lure the most popular match racers to events increased the driver's take exponentially. Many of the most popular pro drivers quit class racing altogether just to go match racing. Veteran drag race author Doug Boyce tells the tale of the history of match racing through the cars, the drivers, the events, the classes, the rivalries, and everything else that was fun about match racing during the golden era. It's all here, complemented by wonderful vintage photography provided by fans and professionals in attendance. If you are a fan of any class of drag racing, from any era, *Match Race Mayhem* is a fun addition to your racing library. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Drag Racing in the 1960s Doug Boyce, 2021-03-15 The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true, racing prior to World War II was mostly centered around dry-lake activities and top-speed runs. After the war, drag racing became organized with the formation of the NHRA, and during the 1950s, many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead-valve designs, and the horsepower race really started to heat up. In many forms of racing, the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with

purpose-built race-only chassis, fiberglass bodies, fuel injection, nitro methane, and blowers. Quarter-mile times that were in the 13-second range in the beginning of the decade were in the 7-second range by the end. New classes were formed, dedicated cars were built for them, and many racers themselves became recognized names in the sports landscape. In *Drag Racing in the 60s: The Evolution in Race Car Technology*, veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results-based one. Covered are all the classes, including Super Stocks, Altered Wheelbase cars (which led to Funny Cars), Top Fuelers, Gassers, and more.

We Were The Ramchargers David G. Rockwell, 2023-07-24 With over 200 new images, the new edition of *We Were the Ramchargers* is perfect for drag racing enthusiasts. This book takes readers behind the scenes with the group of Chrysler engineers who, from the 1950s through the 1970s, became one of the most successful and influential drag racing teams of all time. The only team of engineers from an automobile manufacturer to drag race successfully, the Ramchargers broke the most time barriers in drag racing history and earned the most National Hot Rod Association (NHRA) Super Stock titles during the sport's golden era of factory competition. Author Dave Rockwell, a Ramcharger himself, interviewed more than 40 team members, competitors, and track operators for *We Were the Ramchargers*, making it the first and only book to provide inside details on all elements of the Ramchargers story. In addition to chronicling the races they won and legendary cars they developed (including the High and Mighty, 426 Hemi, and first Funny Car), Rockwell opens corporate and personal files to take readers behind the doors at Chrysler (showing, among other things, how the Ramchargers helped pioneer the platform team concept), while revealing the personalities of the men who made it all happen. Drag Race Fever Grady Bryant, 2012-10-01 Legendary drag racer and fiction writer Grady Bryant has released his latest book, *Drag Race Fever*. It was only a matter of time before Grady shared his adventures of the early days of drag racing in a story that all sports and drag racers will enjoy. The story involves a young man getting started in drag racing in the early 1960's when the factory experimental race cars were the top calling cards of all drag race promoters. These cars were the first Funny Cars of today. Read how these racers evolved into the cars we see today and learn how driver Johnny Rock and his mechanic Clutch Roberts toured the states pulling their race car to the next match race, continuously sacrificing so their car would have the parts to race again. Although the story is fiction any drag race fan can fit different names to the drivers and relate to all the accounts of living on the road and racing every Saturday and Sunday at different tracks across the nation.

Bracket Racing Tony Sakkis, 1997 A basic guide to drag racing's most popular and fastest growing class. Includes information on: rules and regulations, driving techniques, engine setup, safety, and more.

Inside a Drag Racer Collin MacArthur, 2014-08-01 A look at the racing cars designed to compete along a straight course.

Drag Racing Frank Hawley, Mark Smith, 1993

High Performance Robert C. Post, 1994 What emerges is a compelling look at the men and women who have devoted their lives to this extraordinary pursuit and a sensitive exploration of their motivations.

Drag Racers Jeffrey Zuehlke, 2007-09-01 Drag racing is all about pure speed. Inside and out, top fuel dragsters, funny cars, and other drag racers are built to burn off the starting line and sail across the finish line. Races take just a few seconds, but they're packed with excitement, danger, and intense competition. Even the smallest mistake can be the difference between winning and losing. In this book you will learn how the sport got its start on a lonely stretch of road near Santa Barbara, California. You'll also learn about the major classes of drag racers, how they got their start, and the drivers who push them to their limits.

San Diego Drag Racing and the Bean Bandits Emmanuel Burgin, Colleen M. O'Connor, Susan Wachowiak, 2017-12-11 San Diego enjoys a long and storied race car and drag racing history, and the Bean Bandits are a huge part of that heritage. Yet their story remains buried in plain sight. Told here in photographs garnered from private, personal, and historical collections, the 1950s pioneering exploits of Bean Bandits leader Joaquin Arnett and his contributions to that racing history come to life. The San Diego native led his Bean Bandits to over 300 wins and several land speed records while competing against other local clubs, like the Prowlers, Oilers, Roadsters, and Roadrunners. Eventually, the Bean Bandits' streamliners set records on the Bonneville Salt Flats. Arnett won the first National Hot Rod Association (NHRA) Championship in 1953, was named to the International Car Racing Hall of Fame in 1992, and was awarded an NHRA Lifetime Achievement Award in 1994. Arnett and his Bean Bandits' car also graced the cover of Hot Rod magazine's special drag strip issue in 1953.
