Dub Michael Veal, 2013-08-15 Winner of the ARSC's Award for Best Research (History) in Folk, Ethnic, or World Music (2008) When Jamaican recording engineers Osbourne "King Tubby" Ruddock, Errol Thompson, and Lee "Scratch" Perry began crafting "dub" music in the early 1970s, they were initiating a musical revolution that continues to have worldwide influence. Dub is a sub-genre of Jamaican reggae that flourished during reggae's "golden age" of the late 1960s through the early 1980s. Dub involves remixing existing recordings—electronically improvising sound effects and altering vocal tracks—to create its unique sound. Just as hip-hop turned phonograph turntables into musical instruments, dub turned the mixing and sound processing technologies of the recording studio into instruments of composition and real-time improvisation. In addition to chronicling dub's development and offering the first thorough analysis of the music itself, author Michael Veal examines dub's social significance in Jamaican culture. He further explores the "dub revolution" that has crossed musical and cultural boundaries for over thirty years, influencing a wide variety of musical genres around the globe. Ebook Edition Note: Seven of the 25 illustrations have been redacted.

Flyer & Cover Art Junior Tomlin, 2020 Showcasing the mastermind behind some of the most iconic rave flyers and record covers of the late eighties and early nineties, Junior Tomlin: Flyer & Cover Art is a comprehensive insight into Junior's incredible back catalogue. Intrinsic to the spread of rave culture in pre-internet days was the dissemination of flyers, giving ravers information on where and when promoters would be organising parties. To stand out from the competition events needed to have distinctive flyer artwork and Junior's visionary capabilities led to a long-running career as a flyer artist. His often surreal imagery earned him the title 'The Salvador Dali of rave'. 30 years since he designed his first flyer, this book documents his work, with commentary and draft sketches provided by Junior himself. Chronicling the work of a pioneering artist whose art was part of the visual identity of early rave culture, Junior Tomlin: Flyer & Cover Art marks a critical time in British history. In a time where division and conflict seem to be more prevalent than ever, the book allows us to escape into Junior's fantasy worlds and travel back in time to an era when social barriers were being broken down.

Breakcore Andrew Whelan, 2009-05-27 Peer-to-peer music exchange, sampling, and digital distribution have garnered much attention in recent years, notably in debates about authorship, intellectual property, media control, and 'Web 2'. However, empirical scholarship on how these technologies are used creatively by musicians and fans is still sparse. In this interdisciplinary ethnography of 'bedroom producer' culture, Andrew Whelan examines interaction and exchange within a specific online milieu: peer-to-peer chatrooms dedicated to electronic music, focusing on a genre known as 'breakcore'. The author draws on semantic anthropology, ethnomethodology, sociolinguistics, and critical musicology to explore the activity afforded by this controversial and criminalised environment. Through in-depth analysis of often ritually vituperative text-based interaction, discussions of music, and the samples used in that music, Whelan describes the cultural politics and aesthetics of bedroom producer identity, highlighting the roles gender and ethnicity play in the constitution of subcultural authenticity. Empirically driven throughout, this book also engages with a spectrum of social theory; in doing so, it highlights the intersections between gender, interaction, technology and music. This book will prove valuable for students and scholars with interests in gender and language use, computer-mediated communication, online subcultures and virtual community, and the evolution, production and distribution of electronic music.
