Respond Norman Wilwayco, 2012-01-01 12 stories about loss and discovery, of tragedy and triumph, and the darkest depths people go in the pursuit of life. From multiple Carlos Palanca Memorial Awards for Literature winner, Norman Wilwayco, "Respond" features "Kung paano ko inayos ang buhok ko matapos ang mahaba-habang paglalakbay." The short story is the first incarnation of Wilwayco's first novel "Mondo." Both versions

won the Palanca award for literature in 2000 and 2002, respectively. Within these pages, a bond between a dog and his master ends tragically in one night; a neighborhood crazy is violated in the most brutal way; and one man's obsession over a woman becomes the focus of an entire school when a bet forces them to reveal their true selves.

Between Ape and Human Gregory Forth, 2022-05-03 A remarkable investigation into the hominoids of Flores Island, their place on the evolutionary spectrum—and whether or not they still survive. While doing fieldwork on the remote Indonesian island of Flores, anthropologist Gregory Forth came across people talking about half-ape-like, half-human-like creatures that once lived in a cave on the slopes of a nearby volcano. Over the years he continued to record what locals had to say about these mystery hominoids while searching for ways to explain them as imaginary symbols of the wild or other cultural representations. Then along came the 'hobbit'. In 2003, several skeletons of a small-statured early human species alongside stone tools and animal remains were excavated in a cave in western Flores. Named *Homo floresiensis*, this ancient hominin was initially believed to have

lived until as recently as 12,000 years ago— possibly overlapping with the appearance of *Homo sapiens* on Flores. In view of this timing and the striking resemblance of floresiensis to the mystery creatures described by the islanders, Forth began to think about the creatures as possibly reflecting a real species, either now extinct but retained in ‘cultural memory’ or even still surviving. He began to investigate reports from the Lio region of the island where locals described ‘ape-men’ as still living. Dozens claimed to have even seen them. In *Between Ape and Human*, we follow Forth on the trail of this mystery hominoid, and the space they occupy in islanders’ culture as both natural creatures and as supernatural beings. In a narrative filled with adventure, Lio culture and language, zoology and natural history, Forth comes to a startling and controversial conclusion. Unique, important, and thought-provoking, this book will appeal to anyone interested in human evolution, the survival of species (including our own) and how humans might relate to ‘not-quite-human’ animals. *Between Ape and Human* is essential reading for all those interested in cryptozoology, and it is the only firsthand investigation by a leading anthropologist into the possible survival of a primitive species of human into recent times—and its coexistence with modern humans.
