Digital Video Recorders Jimmy Schaeffler,2013-07-24 Four specific trends are driving the DVR industry: consumer content choice, consumer content control, personalization of content libraries,

and the ability to transfer content from device-to-device and person-to-person. Digital Video Recorders features a macro and micro views of the already established yet still burgeoning DVR industry. As part of the NAB Executive Technology Briefing series, this book gives you a wealth of market knowledge, business models, case studies, and industry insignts explained in a non-technical fashion. Digital Video Recorders discusses the impact of the technology across many different industries and platforms, explains hardware, software and technology of set-top boxes, DVR infrastructure, on-screen guides, planning and scheduling, content security, and more. Whether you are an executive in the broadcast, telecommunications, consumer electronic, or advertising space, you will expand your knowledge on DVR impact, explore new business opportunities, and get a brief overview of the technical terms needed. You will also be able to accurately analyze and understand the trends, projections and other data, all of which will help lead to the expedited growth and development of DVR industry.

Accounting Charles Horngren,Walter Harrison,Suzanne Oliver,Peter Best,David Fraser,Rebecca Tan,Roger Willett,2012-11-01 Success in Accounting begins here! The technical details you need to know and decision making processes you need to understand, with plain language explanations and the power of unlimited practice. Accounting is an engaging resource that focuses on current accounting theory and practice in Australia, within a business context. It emphasises how financial decision-making is based on accurate and complete accounting information and uses case studies to illustrate this in a practical way. Time, Technology and Narrative Form in Contemporary US Television Drama JP Kelly,2017-10-09 This book examines how television has been transformed over the past twenty years by the introduction of new viewing technologies including DVDs, DVRs and streaming services such as Netflix, Hulu and Amazon Prime. It shows that these platforms have profoundly altered the ways we access and watch television, enabling viewers to pause, rewind, record and archive the once irreversible flow of broadcast TV. JP Kelly argues that changes in the technological landscape of television has encouraged the production of narrative forms that both explore and embody new industrial temporalities. Focusing on US television but also considering the role of TV within a global marketplace, the author identifies three distinct narrative temporalities: "acceleration" (24; Prison Break), "complexity" (Lost; FlashForward), and "retrospection" (Mad Men). Through industrial-textual analysis of television shows, this cross-disciplinary study locates these narrative temporalities in their socio-cultural contexts and examines connections between production, distribution, and narrative form in the contemporary television industry.

ECCWS2016-Proceedings fo the 15th European Conference on Cyber Warfare and Security " Robert Koch,Gabi Rodosek,2016-06-15 These proceedings represent the work of researchers participating in the 15th European Conference on Cyber Warfare and Security (ECCWS

2016) which is being hosted this year by the Universitat der Bundeswehr, Munich, Germany on the 7-8 July 2016. ECCWS is a recognised event on the International research conferences calendar and provides a valuable plat-form for individuals to present their research findings, display their work in progress and discuss conceptual and empirical advances in the area of Cyberwar and Cyber Security. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and ex-panding range of Cyberwar and Cyber Security research available to them. With an initial submission of 110 abstracts, after the double blind, peer review process there are 37 Academic research papers and 11 PhD research papers, 1 Master's research paper, 2 Work In Progress papers and 2 non-academic papers published in these Conference Proceedings. These papers come from many different coun-tries including Austria, Belgium, Canada, Czech Republic, Finland, France, Germany, Greece, Hungary, Ireland, Kenya, Luxembourg, Netherlands, Norway, Portugal, Romania, Russia, Slovenia, South Africa, Sweden, Turkey, UK and USA. This is not only highlighting the international character of the conference, but is also promising very interesting discussions based on the broad treasure trove of experience of our community and partici-pants.

Othello's Brother Jerry McGill,2014-10-29 In the dark gray winter of the Pacific Northwest, a disturbing pattern is taking hold. In Portland, Oregon, two white males, in completely different locations, with no apparent connection, have been found brutally murdered in the same fashion: their skulls bashed in with a rock-pick hammer and their throats slashed with a straight razor. Beside each victim was placed the name of a slain civil-rights figure. When a third white male victim is found murdered in a suburb in Seattle a task force is put together to investigate what is clearly a serial killer case. Leading that task force is PATTON JAMESON of Portland Homicide. A white male

in his late 40's, Jameson became famous early in his career for being part of a team that captured the notorious Polk Place Killer. But one old case that was tragically mishandled still haunts him. Teamed with Jameson on that task force is MAYA DEVERAUX, an extremely talented young homicide detective with a chip on her shoulder that everyone assumes is because she is a black female in an all white profession. But it isn't as simple as that. Deveraux holds a dark secret close to her. VERNON LANDRY is the head janitor at Portland's toughest high school. He possesses an anger towards a system that he feels has given so much advantage to white males at the expense of people of color, and one evening he just snaps. His first victim he killed out of sheer passion. But he had no idea he would enjoy killing so much, and before he knows it he can't stop. Under the moniker Othello's Brother he methodically terrorizes the city and begins a game of cat and mouse with the police force that ultimately addresses issues of culture, race, and asks the question: Just what is justice anyway?

The Life That I Never Knew I Had William J. Smith,2016-05-11 William Smith is a single, eligible bachelor who has been unlucky in love. He's had only a few girlfriends and recently, no woman would even give him the time of day.Even when he gets lucky and lands a smoking-hot woman as a roommate in his rent-controlled apartment, she hardly even gives him the time of day.Then, one day, Mr. Smith goes to his town library to catch up on some reading when his life changes forever when a little baby girl calls him Daddy. Suddenly, everyone he knows claims that this little girl he found is, in fact, his baby daughter and suddenly, his smoking-hot roommate claims to be his wife and now William must find out if this is just a hoax or the life that he never knew he had.

Knack Dorm Living Casey Lewis,2010-03-16 When high school students think of college life, images of parties and new people and late-night pizza instantly come to mind. Only upon moving in does a freshman realize the buzz-killing downside to the blissful freedom: a 12 x 12 dorm room often shared with a stranger. With Knack Dorm Living, Casey Lewis—herself a college senior at the University of Missouri—provides the guide she searched for, in vain, in her freshman year. She offers invaluable tips on what to pack and what to buy, what to expect, decorating, clothes, and organizing time and money. This is an ideal high school graduation gift for high school seniors—both

girls and guys—set to move away from home.

Handbook of Digital Forensics of Multimedia Data and Devices, Enhanced E-Book Anthony T. S. Ho,Shujun Li,2016-05-20 Digital forensics and multimedia forensics are rapidly growing disciplines whereby electronic information is extracted and interpreted for use in a court of law. These two fields are finding increasing importance in law enforcement and the investigation of cybercrime as the ubiquity of personal computing and the internet becomes ever-more apparent. Digital forensics involves investigating computer systems and digital artefacts in general, while multimedia forensics is a sub-topic of digital forensics focusing on evidence extracted from both normal computer systems and special multimedia devices, such as digital cameras. This book focuses on the interface between digital forensics and multimedia forensics, bringing two closely related fields of forensic expertise together to identify and understand the current state-of-the-art in digital forensic investigation. Both fields are expertly attended to by contributions from researchers and forensic practitioners specializing in diverse topics such as forensic authentication, forensic triage, forensic photogrammetry, biometric forensics, multimedia device identification, and image forgery detection among many others. Key features: Brings digital and multimedia forensics together with contributions from academia, law enforcement, and the digital forensics industry for extensive coverage of all the major aspects of digital forensics of multimedia data and devices Provides comprehensive and authoritative coverage of digital forensics of multimedia data and devices Offers not only explanations of techniques but also real-world and simulated case studies to illustrate how digital and multimedia forensics techniques work Includes a companion website hosting continually updated supplementary materials ranging from extended and updated coverage of standards to best practice guides, test datasets and more case studies

Frontiers in New Media Research Francis L.F. Lee,Louis Leung,Jack Linchuan Qiu,Donna S.C. Chu,2013-05-07 This volume puts together the works of a group of distinguished scholars and active researchers in the field of media and communication studies to reflect upon the past, present, and future of new media research. The chapters examine the implications of new media technologies on everyday life, existing social institutions, and the society at large at various levels of analysis. Macro-level analyses of changing techno-social formation – such as discussions of the rise of surveillance society and the fifth estate – are combined with studies on concrete and specific new media phenomena, such as the rise of Pro-Am collaboration and fan labor online. In the process, prominent concepts in the field of new media studies, such as social capital, displacement, and convergence, are critically examined, while new theoretical perspectives are proposed and explicated. Reflecting the inter-disciplinary nature of the field of new media studies and communication research in general, the chapters interrogate into the problematic through a range of theoretical and methodological approaches. The book should offer students and researchers who are interested in the social impact of new media both critical reviews of the existing literature and inspirations for developing new research questions.
