A Skater's Business SKATE SCHOOL Brigitte Legendre,2015-10-01 Looking for low investment business idea that is fun and rewarding? All the steps to create successful a mobile Skate School will guide you on how to make it happen fast and efficiently. It's all you will need to invest in training material to feel confident you can set up and run your business well right from the start. Before I started, I didn't think I could earn an income out of teaching skating but I can and I do. The great thing is you don't have to charge much per skater to get a good hourly rate when you teach groups. It is very affordable for your students while being profitable for you. In this 65 pages book, we cover all the topics that will make your journey easy, avoiding mistakes and taking full advantage of my experience. Instead of taking a year or two to figure it all out, you can use these tools right now, become a great coach and enjoy a successful business faster.

The skateboarding bible Tant Maxime,2019-10-16 How to skateboard ? If you are currently reading this then it means that you're already passionate about skateboarding. Or that you dream about skateboarding but you don't even own one.This guide is here to help loosen your inflamed tibias after a little session with your friends, to pass the time in the toilets, at the beach or even during maths or history. We'll keep that one to ourselves.Through these pages, written by skaters for skaters, you'll learn the flat, grinds, the ramp, how to be the king of the skateboarding game, to innovate and finally, most importantly, having fun on your board and enjoying it while doing so.Skateboarding is a world far more vast than we think, with various types of people from different backgrounds. That's the beauty of it. Moreover there are absolutely no rules which also means no limits. Each skater is free to do as he pleases, to create his tricks, modules, to film...This book will teach beginners, as well as confirmed skaters, the nearly full amount of existing skateboarding tricks to this day.Not wanting to do things halfway, and being truly passionate about skateboarding, I've pushed this book as far as I can to teach you how to skate as best I can.

Ultimate Speech Sounds Kate Beckett,2024-01-31 Ever faced challenges motivating clients to participate in speech therapy practice at home? Directing parents to helpful resources that reinforce acquired skills from therapy sessions can be a problem. This book provides easy-to-follow instructions, educational resources, and links to 3D animated clips for therapists to use with parents to ensure perfect technique every time. The book considers each of the 24 English consonants, 16 monophthongs, and 8 diphthongs in detail with regards to anatomy, physiological production, and therapy materials to be used in practice. It is accompanied by online 3D animated video material featuring DARA®, an avatar that sounds out each consonant or vowel, clearly showing how the shape of the mouth and positioning of the tongue forms each sound. Photocopiable and free downloadable material from Resourceible.com also makes ideal resources for parents to use at home. This book offers a toolkit to support technique explanation to parents and children rather than an education for therapists. It is a practical clinic resource to help speech therapists teach speech sound formation along with suggested elicitation techniques. This is an essential component for newly qualified and student SLTs as well as those more seasoned in the field.

The New and Complete Dictionary of the English Language... John Ash,1795

The Iron Age ,1902

Art of Skating Irving Brokaw,2009-12 From the Original Introduction (1910) In this book the author has endeavored to condense some of the mass of material which he has collected during many years of the study and practice of figure skating in the United States, Canada and the skating centers of Europe. Enthusiastic interest and unusual opportunity for comparing the best styles of skating to be found among many nations, due to extended travel during the skating seasons, and the unbounded hospitality extended to him in all parts of the world where skating is looked upon as sport in the best sense of the word, have caused the author to venture on this little volume, which, on account of its convenient size, can be carried about and easily referred to when the learner is on skates. It is with some slight sense of responsibility, therefore, and as a contribution to national interest in a sport which really originated in America, that he endeavors to here set down his analysis of the new, artistic figure skating destined soon to be the standard all over the world.

American History through American Sports Bob Batchelor,Danielle Sarver Coombs,2012-12-18 Filled with insightful analysis and compelling arguments, this book considers the influence of sports on popular culture and spotlights the fascinating ways in which sports culture and American culture intersect. This collection blends historical and popular culture perspectives in its analysis of the development of sports and sports figures throughout American history. American History through American Sports: From Colonial Lacrosse to Extreme Sports is unique in that it focuses on how each sport has transformed and influenced society at large, demonstrating how sports and popular culture are intrinsically entwined and the ways they both reflect larger societal transformations. The essays in the book are wide-ranging, covering topics of interest for sports fans who enjoy the NFL and NASCAR as well as those who like tennis and watching the Olympics. Many topics feature information about specific sports icons and favorite heroes. Additionally, many of the topics' treatments prompt engagement by purposely challenging the reader to either agree or disagree with the author's analysis.

Sports Videogames Mia Consalvo,Konstantin Mitgutsch,Abe Stein,2013-07-18 From Pong to Madden NFL to Wii Fit, Sports Videogames argues for the multiple ways that sports videogames—alongside televised and physical

sports—impact one another, and how players and viewers make sense of these multiple forms of play and information in their daily lives. Through case studies, ethnographic explorations, interviews and surveys, and by analyzing games, players, and the sports media industry, contributors from a wide variety of disciplines demonstrate the depth and complexity of games that were once considered simply sports simulations. Contributors also tackle key topics including the rise of online play and its implications for access to games, as well as how regulations surrounding player likenesses present challenges to the industry. Whether you're a scholar or a gamer, Sports Videogames offers a grounded, theory-building approach to how millions make sense of videogames today.

The Impulsive, Disorganized Child James W. Forgan,Mary Anne Richey,2021-09-03 Impulsive, scattered, lost, unfocused, unprepared, disorganized: These are just a few of the words used to describe kids with executive functioning deficits, which commonly affect many children already diagnosed with ADHD, learning disabilities, and autism. The Impulsive, Disorganized Child: Solutions for Parenting Kids with Executive Functioning Difficulties helps parents pinpoint weak executive functions in their children, then learn how to help their kids overcome these deficits with practical, easy solutions. Children who can't select, plan, initiate, or sustain action toward their goals are children who simply struggle to succeed in school and other aspects of life. Parents need the helpful, proven advice and interactive surveys and action plans in this book to empower them to take positive action to teach their disorganized, impulsive child to achieve independence, success, and a level of self-support.
