El planeta de los simios Pierre Boulle,2012-02-02 En un futuro cercano, tres astronautas aterrizan en un planeta que parece idéntico a la Tierra. Aunque su exuberante naturaleza, su clima templado y la atmósfera respirable hacen de él un paraíso, pronto descubren la terrible verdad: en este mundo los humanos son bestias salvajes y los simios han desarrollado inteligencia. Ulises Mérou tratará, por todos los medios, de descubrir el secreto de tan temible civilización, sin saber si eso lo convertirá en el salvador de la raza humana o en el último testigo de su desgracia. Publicada por primera vez hace casi medio siglo, la escalofriante novela de Pierre Boulle ha dado lugar a una de las mejores sagas de la ciencia ficción audiovisual.

El origen del planeta de los simios Juan P Rambla,2020-06-18 El planeta en que habita Pen-Un agoniza. Él trabaja en el Ministerio de la Perpetuación de la Especie. Después de muchos años de búsqueda, hay planeta que reúne las condiciones para acogerlos. Sin embargo, no será fácil llegar hasta él.Su sol ha crecido tanto que una masa gaseosa ardiente rodea al planeta. Su civilización ha tenido que refugiarse en su interior, pero para salir, deben atravesar esa atmósfera infernal.Se saben condenados, pero tienen la solución para salvar a su especie, y a su civilización. Sólo necesitan un planeta en el que establecerse. Y lo han encontrado.Sobre el autorUna de mis obras de ciencia ficción favoritas es El planeta de los simios, por su originalidad, porque es diferente. Incluso la película original, aunque ha sufrido con el paso del tiempo, es la mejor de la saga, con una historia mucho más sólida que las posteriores versiones que se han contado.En esta novela quise hacer un pequeño homenaje a esa gran obra, finalizando la novela en el momento en el que Charlton Heston tiene el primer contacto con los simios.No es la única obra de ciencia ficción que he publicado. En La muerte de Adam recreo un mundo en el que un alma solitaria debe enfrentarse a la muerte.Otros géneros que he tocado han sido la novela bélica con, por ejemplo, Pilar, o el género negro, con la saga Crimen perfecto Puedes contactarme o conocer toda mi obra en mi web, edicionesazarooa.com.

**Sapiens** Yuval Noah Harari,2015-02-10 New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

*Planet of the Apes Archive Vol. 1* Doug Moench,2017-08-22 Longtime fans can now experience the previously uncollected classic Terror on the Planet of the Apes, which follows two friends—man and ape—on the run from the law. Experience the legendary Terror on the Planet of the Apes, collected for the first time ever, and remastered in prestigious archival hardcover. This classic series follows two friends—man and ape—on the run from the law. Renown writer Doug Moench (Batman), the visionary co-creator of DC Comics' fan-favorite villain Bane and Marvel's Moon Knight, joined forces with legendary artists Mike Ploog (Ghost Rider), Tom Sutton (Doctor Strange), and Herb Trimpe (Incredible Hulk) in this timeless tale of two unlikely friends coming together for the adventure of a lifetime.

*Planet of the Apes* Pierre Boulle,2011-04-13 The original novel that inspired the films! First published more than fifty years ago, Pierre Boulle's chilling novel launched one of the greatest science fiction sagas in motion picture history. In the not-too-distant future, three astronauts land on what appears to be a planet just like Earth, with lush forests, a temperate climate, and breathable air. But while it appears to be a paradise, nothing is what it seems. They soon discover the terrifying truth: On this world humans are savage beasts, and apes rule as their civilized masters. In an ironic novel of nonstop action and breathless intrigue, one man struggles to unlock the secret of a terrifying civilization, all the while wondering: Will he become the savior of the human race, or the final witness to its damnation? In a shocking climax that rivals that of the original movie, Boulle delivers the answer in a masterpiece of adventure, satire, and suspense.

The Stringbags Garth Ennis,2020-05-20 If you do the incredible often enough, they'll want you to do the impossible. Nazi Germany, Imperial Japan, and Fascist Italy began World War II with aircraft that could devastate enemy warships and merchantmen at will. Britain's Royal Navy squadrons went to war equipped with the Fairey Swordfish. A biplane torpedo bomber in an age of monoplanes, the Swordfish was underpowered and undergunned; an obsolete museum piece, an embarrassment. Its crews fully expected to be shot from the skies. Instead, they flew the ancient Stringbag into legend. Writer Garth Ennis (Preacher, The Boys, War Stories) and artist PJ Holden (Battlefields, World of Tanks: Citadel) present the story of the men who crewed the Swordfish: from their triumphs against the Italian Fleet at Taranto and the mighty German battleship Bismarck in the Atlantic, to the deadly challenge of the Channel Dash in the bleak winter waters of their homeland. They lived as they flew, without a second to lose--and the greatest tributes to their courage would come from the enemy who strove to kill them. Based on the true story of the Royal Navy's Swordfish crews, The Stringbags is an epic tale of young men facing death in an aircraft almost out of time.

**Planet of the Apes** Dan Abnett,Ian Edginton,Sanford Green,2002 The quest for answers continues as Esau, Seneca, Attar, and the human woman, Crow, flee from the vicious pursuit of ape soldiers. A mysterious forest legend, a warrior in black armor, may provide a rescue but will he be saving our heroes for a worse fate? New battles spark a new war between the ape nation and the collaborative ape-human resistance. But some allegiances and destinies are still left undefined. Collects issue #4-#6 of the ongoing series.

**Massacre** John Merriman,2014-12-09 The Paris Commune lasted for only 64 days in 1871, but during that short time it gave rise to some of the grandest political dreams of the nineteenth century—before culminating in horrific violence. Following the disastrous French defeat in the Franco-Prussian War, hungry and politically disenchanted Parisians took up arms against their government in the name of a more just society. They expelled loyalists and soldiers and erected barricades in the streets. In Massacre, John Merriman introduces a cast of inimitable Communards—from les pétroleuses (female incendiaries) to the painter Gustave Courbet—whose idealism fueled a revolution. And he vividly recreates the Commune’s chaotic and bloody end when 30,000 troops stormed the city, burning half of Paris and executing captured Communards en masse. A stirring evocation of the spring when Paris was ablaze with cannon fire and its citizens were their own masters, Massacre reveals how the indomitable spirit of the Commune shook the very foundations of Europe.

*Planet of the Apes Visionaries* Pierre Boulle,Rod Serling,Dana Gould,2018-08-28 Based on the original screenplay for Planet of the Apes by The Twilight Zone’s Rod Serling. On the road to making the landmark science-fiction classic, 20th Century Fox commissioned Rod Serling to adapt the source material. Serling’s first draft, which was drastically revised before filming, is a radically different vision of the franchise than the one the world has come to know and love. Now, for the first time in any medium, that vision is fully realized as a graphic novel with Planet of the Apes: Visionaries from acclaimed actor/comedian/writer Dana Gould (The Simpsons) and Chad Lewis (Avengers Origins). This is the world you know from the acclaimed Planet of the Apes film series, but with key differences - Taylor is Thomas, and Ape City isn’t a crude, primitive grouping of huts; instead, it’s a bustling and urbane metropolis filled with cars and skyscrapers and a vibrant Ape culture. In a world where Apes wear modern clothes, drive modern cars and rule the late night talk show scene, the arrival of one man will forever change how Apes - and Humans - view themselves.
