Ute E. Eisen, Heidrun Elisabeth Mader

Talking God in Society Ute E. Eisen, Heidrun Elisabeth Mader, 2021-02-15 Peter Lampe's work has covered a wide range of fields, the common denominator being his interest in contextualizing belief systems. Mirroring his multifaced work, the authors pursue his interest from different interdisciplinary angles, addressing the interdependence between religious expressions and their situations or contexts. The application of theoretical models to texts examples flanks the inspiring theoretical – epistemological and methodological – reflections. Studies in socio-economic and political history adjoin archaeological, epigraphic, papyrological and iconographic investigations. (Social-)psychological interpretations of texts complement rhetorical analyses. The hermeneutical reception of biblical materials in, for example, the Koran and Christian Chinese or Orthodox contexts, as well as in religious education and homiletics, rounds off the volumes.

Russia's Food Revolution Stephen K. Wegren, 2020-09-21 This book analyzes the food revolution that has occurred in Russia since the late 1980s, documenting the transformation in systems of production, supply, distribution, and consumption. It examines the dominant actors in the food system; explores how the state regulates food; considers changes in patterns of food trade interactions with other states; and discusses how all this and changing habits of consumption have impacted consumers. It contrasts the grim food situation of 1980s and 1990s with the much better food situation that prevails at present and sets the food revolution in the context of the wider consumer revolution, which has affected fashion, consumer electronics, and other sectors of the economy.

Archaeology of East Asia Gina L. Barnes, 2015-10-31 Archaeology of East Asia constitutes an introduction to social and political development from the Palaeolithic to 8th-century early historic times. It takes a regional view across China, Korea, Japan and their peripheries that is unbounded by modern state lines. This viewpoint emphasizes how the region drew on indigenous developments and exterior stimuli to produce agricultural technologies, craft production, political systems, religious outlooks and philosophies that characterize the civilization of historic and even modern East Asia. This book is a complete rewrite and update of *The Rise of Civilization in East Asia*, first published in 1993. It incorporates the many theoretical, technical and factual advances of the last two decades, including DNA, gender, and isotope studies, AMS radiocarbon dating and extensive excavation results. Readers of that first edition will find the same structure and topic progression. While many line drawings have been retained, new color illustrations abound. Boxes and Appendices clarify and add to the

understanding of unfamiliar technologies. For those seeking more detail, the Appendices also provide case studies that take intimate looks at particular data and current research. The book is suitable for general readers, East Asian historians and students, archaeology students and professionals. Praise for *The Rise of Civilization in East Asia*: "... the best English introduction to the archaeology of East Asia ... brilliantly integrates the three areas into a broad regional context." Prof. Mark Hudson

The Hispanic Elite of the Southwest Manuel G. Gonzales, 1989 After the American takeover of the Southwest in 1848, most Mexicans living in the conquered territories were reluctant to be incorporated into the new society. A significant minority, however, especially under the rancho aristocracy, apparently made the transition to life in the United States without too much trouble. In this book Manuel G. Gonzales examines this pro-American Hispanic elite during the course of the 19th century--a group glorified by some historians and maligned by others--in an effort to explain the complex motives for 'accommodation' of such individuals as José Antonio Navarro and Juan Seguín in Texas, Mariano Vallejo and Pablo de la Guerra in California, Donaciano Vigil and Manuel Antonio Chaves in New Mexico, and Estevan Ochoa and Mariano Samaniego in Arizona.

Elite Elizabeth SaFleur, 2018-03-08 A billionaire, age-gap, forbidden love romance by award-winning author Elizabeth SaFleur. This book is the first in the interconnected, standalone series, the *Elite* Doms of Washington. His proposal is indecent. Adventurous. And ripe for scandal. Daughter of a political journalist, Christiana Snow knows how to avoid the meat grinder of D.C.'s gossip mill. Get good grades in college. Work hard at a boutique hotel/restaurant where literally no one brings their spouse. And never, ever bend the rules. But when she encounters Congressman Jonathan Brond, his penetrating green eyes, chocolate-caramel voice, and skin-tingling touch halts her breath. Especially when he offers her something more. Indecently more. But only if she abides by his rules. Calculated risks. That's the secret to Jonathan's success in politics, in business, with women. On the House floor, compromise is essential. In the bedroom? Compromise isn't even in his vocabulary. Christiana's blonde, sapphire-eyed beauty and shy demeanor is everything he's never found in D.C.'s shark-infested high society. If only Christiana wasn't so young, so impressionable...so perfect for him. If only this wasn't Washington, D.C. Where someone's always lurking in the shadows to take you down. Note: Hot enough to fry your e-reader circuits! Handle with care! A compelling love story with real emotion...and the right amount of fantasy. ~Joey W. Hill, award-winning author and recipient of the RT Book Reviews Career Achievement Award

Ancient Perspectives on Paul Tobias Nicklas, Andreas Merkt, Joseph Verheyden, 2013-06-19

While the so-called New perspective in Paul has been in the focus of New Testament exegesis for more than 25 years now, ancient interpretations of Pauline texts and ideas have been neglected widely. The present volume aims to fill this gap. Its articles concentrate on three different foci of modern exegesis: interpretations of Paul's conversion, his ideas about the relation of grace and works and the fate of Israel. Several additional articles contrast these ancient perspectives with answers of modern exegesis.

Party System Formation in Kazakhstan Rico Isaacs,2011-03-21 Since the collapse of the Soviet Union, Central Asian states have developed liberal-constitutional formal institutions. However, at the same time, political phenomena in Central Asia are shaped by informal political behaviour and relations. This relationship is now a critical issue affecting democratization and regime consolidation processes in former Soviet Central Asia, and this book provides an account of the interactive and dynamic relationship between informal and formal politics through the case of party-system formation in Kazakhstan. Based on extensive interviews with political actors and a wide range of historical and contemporary documentary sources, the book utilises and develops neopatrimonialism as an analytical concept for studying post-Soviet authoritarian consolidation and failed democratisation. It illustrates how personalism of political office, patronage and patron-client networks and factional elite conflict have influenced and shaped the institutional constraints affecting party development, the type of emerging parties and parties' relationship with society. The case of Kazakhstan, however, also demonstrates how in the former Soviet space political parties emerge as central to the legitimization of informal political behavior, the structuring of factional competition and the consolidation of authoritarianism. The book represents an important contribution to the study of Central Asian Politics.

Food Policy and Food Security Stephen K. Wegren,Alexander Nikulin,Irina Trotsuk,2018-03-28 This book provides a comprehensive analysis of Russian food policy. Food policy is defined as the way government policy influences food production and distribution. Russia's food policy is important for several reasons. The first and most obvious reason is that a dysfunctional food policy is symptomatic of larger political and societal problems. A failing food policy is often the precursor to political instability. Russian food policy is also important is due to the agricultural recovery since 2004 that has allowed Russia to become self-sufficient in grain production. Being food-sufficient in grain means that Russia is not drawing upon global grain supply. Even more important, Russia now produces surpluses and has become a global grain supplier. Moreover, the agricultural recovery has made the country food secure, traditionally defined as having enough food for a healthy life. An analysis of food policy reveals that the structure of food production has changed with the emergence of mega-farms called agroholdings that are horizontally and vertically integrated. Agroholdings represent a concentration of capital and land, with a small number of farms producing large percentages of total food output. The book explores alternatives to the industrial agricultural model by discussing different variants of sustainable agriculture. A final importance of Russian food policy concerns food trade. Russia has become more protectionist since 2012. The food embargo against Western nations (2014-2017) is one

example, so too is import substitution that is a core component of food policy. The book demonstrates the politicalization of external food trade. Food trade and denial of access to the Russian market is used as an instrument of foreign policy to punish countries with whom Russia has disagreements. Current Russian policymakers have food resources to augment, support, and extend national interests abroad. Russia historically has cycled through periods of integration and isolation from the West. This book raises the question whether a new normal has arisen that is characterized by the permanent withdrawal from integration, as evidenced by its nationalist and protectionist food policy. The book is entirely original, rich in detail and broad in scope. It is based on field work, survey data, a wide reading of primary sources and the secondary literature, all of which are linked to important policy questions in development studies and food studies. It is destined to become a classic book on Russian food policy.
