Signal App Dr. Timothy Zahar, 2021-01-17 How do you feel? How do you feel when Twitter, Facebook, Snapchat... turn off the US President Donald Trump's account permanently? I understand that some of you are supportive, some are not interested, and the rest (many people) feel outraged and angry. What are they doing with the President of the United States? The man who truly kept his promise Make America great again We resent not only because that is how to behave in the style of imposing, gagging. It is because that act seriously violates the freedom we worship in the West (And that is the reason why social networks exist). But they broke their promise, patted themselves on the face. They have exceeded their own limits. They engage in politics, expressing their likes and dislikes, not in a neutral position. The behavior of social media platforms must comply with the laws and legal frameworks set by the legislators, not the political views of the company executives. Obviously, when these tech giants shake hands together, they will manipulate everything, and we will be manipulated. It was Facebook and Twitter that controlled, navigated, and manipulated the news surrounding the 2020 US presidential election. All the above shares, each of us see existence before our eyes. But what's behind all of the above? Why did those big techs do that? The answer is... Rights To Private Personal Information On Internet. We are being watched every moment. We have been violated personal privacy when participating in platforms Facebook, Twitter... They have collected the maximum of all the data about us. Sometimes I still tell my friends, Facebook knows you better than you do. So, is there a way for us to escape their influence and manipulation? Yes! We have 2 options. · Or not join any social networking platform. This is difficult today because our work is tied to social connections. · Or we choose a social networking platform that is committed to respecting our privacy. And don't just end up with commitments, they need to give us the tools to proactively establish their own security. And luckily for you and me, there are platforms now that meet these criteria. That is Singal - A security-proven messaging app by tech giants like Elon Musk. Or even the CEO of Twitter (Jack Dorsey) also publicly uses and encourages people to use Signal. What do you learn more from reading this book? 1. I will show you 7 powerful reasons why you should immediately quit WhatsApp, Facebook Messenger, and switch to Signal immediately. And not only that you will also encourage your friends and colleagues to do the same. I commit to this. 2. I will show you how to install Signal and set up the perfect features to help you keep your personal information secure on the Internet. So that we will not be under surveillance, control and navigate. I will write about personal security on the Internet in the simplest, most popular way that a 7-year-old can understand and share with everyone. Now let

us get started, the journey of finding real freedom on social media platforms. Dr. Timothy Zahar

Professional Advances in Sports Coaching Richard Thelwell,Matt Dicks,2018-12-07 Despite the rapid advance of the academic study of coaching science, there is a dearth of evidence on contemporary progressions within the coaching profession itself, particularly around the wide-ranging challenges that coaches face. Professional Advances in Sports Coaching constitutes an essential collection of the most innovative, up-to-date reviews and research on professional issues in sports coaching and coaching psychology. Seeking to assess and challenge contemporary conceptual and theoretical research around the evolving nature of the coach's role, issues associated with athlete and coach welfare, and societal demands of the coach, the book covers topics as diverse as: gender and spirituality within sports coaching; working in culturally diverse environments and disability sport; understanding hazing, mental health issues, and disordered eating in

athletes; moral behaviour and safeguarding; high performance coaching and talent development; communicating with athletes in the age of social media, and managing cliques. Written by leading experts from around the world, every chapter clarifies and defines key concepts, gives an up-to-date and comprehensive review of literature within the area, and examines the implications for future research and applied practice. This is a critical resource for any upper-level student enrolled in sports coaching science or practice classes, sports coaching academics with an interest in professional practice, and practicing sports coaches.

Practical Music Education Technology Richard Dammers, Marjorie LoPresti, 2020-02-26 Today's music teachers are caught in a conundrum about technology - while all are interested in it and told to utilize it in music instruction, a lack of equipment and funding act as enormous barriers to technology access. In fact, studies indicate that the mere perception of these obstacles may be partly responsible for the gap between these teachers' interest in technology and the lack of technology integration in the classroom. As a result, students potentially miss out on active, hands-on music technology instruction at school. In Practical Music Education Technology, veteran music educators Rick Dammers and Marjorie LoPresti help music teachers introduce technology into the classroom by providing accessible strategies to support and enrich students' musical learning. The authors highlight a plethora of free online tools at teachers' disposal, and provide options that can be flexible for all school environments and types of teachers - from those with large budgets to those operating on a shoestring, from those well-versed in technology to non-experts. Each chapter outlines pedagogically appropriate resources and strategies that facilitate, support, and enhance music learning, performance, and creation. Additionally, model lesson plans featuring classroom-tested uses of technology aim to empower student engagement while also keeping music learning goals at the forefront. All teaching ideas presented can be tailored to individual teachers' needs and preferences, making Practical Music Education Technology an essential guide to music technology for the everyday music teacher.

Social Media K.M Shrivastava, 2013 Social media is everywhere you go and it is here to stay! But are you ready for it? Social media is a powerful means to achieve success in your businesses. But, like all communication mediums, social media has attributes that need to be tapped in specific and relevant situations. It can help you build a reputation and it is useful in crisis communication. But, at the same time, if you don't know what you are doing it can be a waste of time and can create a crisis situation too. Businesses, news organisations and governments have started developing social-media policies and guidelines for its proper use. This book attempts to put together varied aspects of social media, focusing on its tremendous potential for the growth of a business and its appropriate and legal use. With real-

world examples of guiding principles of big companies, and an in-depth coverage of the most-happening social networks, this is a great read for business leaders, policy makers and, of course, students of communication.
