Clutter Free Kathi Lipp, 2015-01-01 If you've ever wished you could clear out your clutter, simplify your space, and take back your life, Kathi Lipp's new book has just the solutions you need. Building off the success of her *The Get Yourself Organized Project*, this book will provide even more ideas for getting your life and your stuff under control. Do any of these descriptions apply to you? You bought a box of cereal at the store, and then discovered you have several boxes at home that are already past the best by date. You bought a book and put it on your nightstand (right on top of ten others you've bought recently), but you have yet to open it. You keep hundreds of DVDs around even though you watch everything online now and aren't really sure where the remote for the DVD player is. You spend valuable time moving your piles around the house, but you can never find that piece of paper when you need it. Your house doesn't make you happy when you step into it. As you try out the many easy, doable solutions that helped Kathi win her battle with clutter, you'll begin to understand why you hold on to the things you do, eliminate what's crowding out real life, and make room for the life of true abundance God wants for you.

Now she shares 125 quick, easy, and tasty whole food recipes that can help you reach your weight loss goals, too! Brittany Williams had struggled with her weight all her life. She grew up eating the standard American staples—fast, frozen, fried, and processed—and hit a peak weight of 260 pounds. When her 4-year-old daughter's autoimmune disease was alleviated by a low-sugar, dairy-free, grain-free, whole-food-

based diet, Brittany realized she owed her own body the same kind of healing. So on January 1, 2017, she vowed to make every meal for a year from scratch, aided by her Instant Pot®. She discovered that the versatility, speed, and ease of the electric pressure cooker made creating wholesome, tasty, family-satisfying meals a breeze, usually taking under thirty minutes. Not only did the family thrive over the course of the year, Brittany lost an astonishing 125 pounds, all documented on her Instant Loss blog. Illustrated with gorgeous photography, Instant Loss Cookbook shares 125 recipes and the meal plan that Brittany used for her own weight loss, 75% of which are recipes for the Instant Pot® or other multicooker. These recipes are whole food-based with a spotlight on veggies, mostly dairy and grain-free, and use ingredients that you can find at any grocery store. The clearest guide to navigating your Instant Pot® or other multicooker that you'll find, Instant Loss Cookbook makes healthy eating convenient—and that's the key to sustainable weight loss.

Googled Ken Auletta, 2009-11-03 A revealing, forward-looking examination of the outsize influence Google has had on the changing media Landscape. There are companies that create waves and those that ride or are drowned by them. As only he can, bestselling author Ken Auletta takes readers for a ride on the Google wave, telling the story of how it formed and crashed into traditional media businesses?from newspapers to books, to television, to movies, to telephones, to advertising, to Microsoft. With unprecedented access to Google?s founders and executives, as well as to those in media who are struggling to keep their heads above water, Auletta reveals how the industry is being disrupted and redefined. Using Google as a stand-in for the digital revolution, Auletta takes readers inside Google?s closed-door meetings and paints portraits of Google?s notoriously private founders, Larry Page and Sergey Brin, as well as those who work with?and against?them. In his narrative, Auletta provides the fullest account ever told of Google?s rise, shares the ?secret sauce? of Google?s success, and shows why the worlds of ?new? and ?old? media often communicate as if residents of different planets. Google engineers start from an assumption that the old ways of doing things can be improved and made more efficient, an approach that has yielded remarkable results? Google will generate about \$20 billion in advertising revenues this year, or more than the combined prime-time ad revenues of CBS, NBC, ABC, and FOX. And with its ownership of YouTube and its mobile phone and other initiatives, Google CEO Eric Schmidt tells Auletta his company is poised to become the world?s first \$100 billion media company. Yet there are many obstacles that threaten Google?s future, and opposition from media companies and government regulators may be the least of these.

Google faces internal threats, from its burgeoning size to losing focus to hubris. In coming years, Google's faith in mathematical formulas and in slide rule logic will be tested, just as it has been on Wall Street. Distilling the knowledge accrued from a career of covering the media, Auletta will offer insights into what we know, and don't know, about what the future holds for the imperiled industry.

10% Happier Dan Harris,2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATIERAL Winner

of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert

Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.
