Abracadabra Nathaniel Schiffman,2009-09-25 Magicians use more than just mirrors, string, and sleight of hand to deceive their audience. Those who are masters at this trade have developed an arsenal of techniques to manipulate people. Every action and utterance on stage and off is precisely planned to achieve a specific effect. Abracadabra! is an insider's look at what goes on at a magic show, behind-the-scenes, and in the mind of the magician. Nathaniel Schiffman explains the principles of deception, exposing those innocent-seeming motions that conceal vital actions from onlookers; how the conjurer uses misdirection of space and time to mislead the audience; how silly and simple optical illusions can fool us, and what to look for during a magic show. Also explored in detail is the world of off-stage magic. Some magicians use various techniques in life to deceive and influence you, yet these magicians don't boast of their magic talent, because they are advertisers, politicians, army commanders, spies, con artists, computer programmers, movie directors, faith healers, psychics, and others. These magicians work to make you buy their product, believe in their cause, and influence your thinking from the time you get up in the morning, until you go to bed at night. This is not a how to book for aspiring magicians, but a layperson's guide to methods used to mislead or fool you. Lighthearted and informal, Abracadabra! will fascinate anyone interested in knowing how one person can control many. Included are hands-on experiments, magic tricks, and reader participation segments. You'll soon see that magicians don't just manipulate playing cards and animals; they manipulate you.

Lady Left Robert Westbrook, Can Hollywood's rich and famous find happiness in the Third World—or will they find only murder? That's the question that blues-playing police lieutenant Nicky Rachmaninoff must answer in Robert Westbrook's third book in The Left-Handed Policeman series, Lady Left. Having exposed the Hollywood dream machine and the world of rock and roll in his previous two mysteries, Robert Westbrook now gives the same delightfully satirical treatment to another hot topic on the Hollywood scene: fashionable leftist politics. Nicky Rachmaninoff must take on Tinsel Town's liberal elite as it involves itself in a wild scheme to make the hemisphere safe for romance, revolution, and beautiful people everywhere. A reluctant Nicky is persuaded to vacation in Nicaragua by his loving ex-wife, Susan Merril, who is determined to shed her glamour-girl image by becoming a leftist activist. The vacation goes wrong from the start: Nicky's feisty Beverly Hills daughter, fourteen-year-old Tanya, falls madly in love with a Nicaraguan soldier; and a far-left Hollywood professor, Cory Heard, introduces Nicky to a complicated scam that maybe—just maybe—is intended to bring the Sandinistas hack into power. But when Cory Heard is apparently murdered at the site of the late dictator Somoza's buried treasure, Nicky must put down his margarita in favor of a gun and mineral water, as he uncovers a trail that leads him back to Beverly Hills—and into the arms of Cory's activist wife, the film superstar Katherine Hall. She is dark, passionate, devious, and out for Nicky, one way or another; she is the alluring and dangerous Lady Left. Nothing in Hollywood or the Third World is what it seems. From the jungles of Nicaragua to the elegant homes of Beverly Hills and the palatial desert estates of Palm Springs, Lady Left is a darkly comic, intricate, and suspenseful story of what happens when glamour, murder, and politics mix.

Film and Television In-Jokes Bill van Heerden,2015-09-02 In Only the Lonely (1991), Ally Sheedy appeases prospective mother-in-law Maureen O'Hara by going along to see the 1939 film How Green Was My Valley—starring Maureen O'Hara. Richard LaGravenese, slighted by critic Gene Siskel over his screenplay for The Fisher King (1991) wrote an unsavory character named Siskel into The Ref (1994). Movies and television shows often feature inside jokes. Sometimes there are characters named after crew members. Directors are often featured in cameo appearances—Alfred Hitchcock's silhouette can be seen in Family Plot (1976), for example. This work catalogs such occurrences. Each entry includes the title of the film or show, year of release, and a full description of the in-joke.

Based on a True Story Norm Macdonald,2016-09-20 NEW YORK TIMES BESTSELLER • “Driving, wild and hilarious” (The Washington Post), here is the incredible “memoir” of the legendary actor, gambler, raconteur, and Saturday Night Live veteran. When Norm Macdonald, one of the greatest stand-up comics of all time, was approached to write a celebrity memoir, he flatly refused, calling the genre “one step below instruction manuals.” Norm then promptly took a two-year hiatus from stand-up comedy to live on a farm in northern Canada. When he emerged he had under his arm a manuscript, a genre-smashing book about comedy, tragedy, love, loss, war, and redemption. When asked if this was the celebrity memoir, Norm replied, “Call it anything you damn like.”

Answering Machine Etiquette John Boynton,1987-09

Think Like a Freak Steven D. Levitt,Stephen J. Dubner,2014-05-13 From the rule-breaking authors of international bestsellers Freakonomics and Superfreakonomics, this is the ultimate guide to how to Think Like a Freak The Freakonomics books have come to stand for something: challenging conventional wisdom; using data rather than emotion to answer questions; and learning to unravel the world's secret codes. Now Levitt and Dubner have gathered up what they have learned and turned it into a readable and practical toolkit for thinking differently - thinking, that is, like a Freak. Whether you are interested in the best way to improve your odds in penalty kicks, or in major global reforms, here is a blueprint for an entirely new way to solve problems. Along the way, you'll learn how the techniques of a Japanese hot-dog-eating champion can help you, the reason an Australian doctor swallowed a batch of dangerous bacteria, why Nigerian e-mail scammers make a point of saying they're from Nigeria, and why Van Halen's demanding tour contract banning brown M&Ms was really a safety measure. You'll learn why sometimes it's best to put away your moral compass, and smarter to think like a child. You will be given a master class in incentives-because for better or worse, incentives rule our world. And you will learn to quit before you fail, because you can't solve tomorrow's problem if you aren't willing to abandon today's dud. Levitt and Dubner see the world like no one else. Now you can too. Never before have such iconoclastic thinkers been so revealing - and so much fun to read.

Artificial Light James Greer, 2006-07-01 "Artificial Light beats the bejeezus out of the last dozen Thomas Pynchons, the last nineteen Don DeLillos, and the last forty-three Kurt Vonneguts."—Richard Meltzer "In his ambitious and intriguing debut novel, indie rock expert Greer, author of Guided by Voices, employs one of literature's oldest gambits, the book-within-a-book structure, three times over. A young librarian calling herself Fiat Lux fills a set of notebooks with her passion for books and an enigmatic account of her interlude with Kurt C, a famous indie rock star who appears unheralded in Dayton, Ohio, and buys the long-abandoned Orville Wright mansion. A member of the rock group Whiskey Ships is trying to write about his musical odyssey but longs to return to his book about Orville Wright, whose long-lost diaries also feed the narrative stream. Greer picks the lock on the Kurt Cobain mythos and the rapid commercialization of indie rock...Strong writing and shrewd perceptions prevail, backed by wry humor, compelling stumblebum characters, a true-blue louche atmosphere, and arresting insights into the dream of art, be it literature or rock and roll."—Booklist
