Silent Film Sound Rick Altman,2004 Based on extensive original research and filled with gorgeous illustrations, Silent Film Sound reconsiders all aspects of sound practices during the silent film period in America. Beginning with sound accompaniment and continuing through to the more familiar sound practices of the 1920s, renowned film historian Rick Altman discusses the variety of sound strategies cinema exhibitors used to differentiate their products. During the nickelodeon period prior to 1910, this variety reached its zenith with carnival-like music, automatic pianos, small orchestras, lecturers, synchronized sound systems, and voices behind the screen. In the 1910s, musical accompaniment began to support a film's narrative and emotional content, with large theaters and blockbuster productions driving the development of new instruments, new music-publication projects, and a new style of film music. A monumental achievement, Silent Film Sound challenges common assumptions about this period and reveals the complex and swiftly changing nature of silent American cinema.

New Directions in Supernatural Horror Literature Sean Moreland,2018-09-08

This collection of essays examines the legacy of H.P. Lovecraft's most important critical work, Supernatural Horror in Literature. Each chapter illuminates a crucial aspect of Lovecraft's criticism, from its aesthetic, philosophical and literary sources, to its psychobiological underpinnings, to its pervasive influence on the conception and course of horror and weird literature through the twentieth and early twenty-first centuries. These essays investigate the meaning of cosmic horror before and after Lovecraft, explore his critical relevance to contemporary social science, feminist and queer readings of his work, and ultimately reveal Lovecraft's importance for contemporary speculative philosophy, film and literature.

  Between the Headphones Budhaditya Chattopadhyay,2021-01-29 Sound is a new area of interest in the Arts and Humanities. The study of sound in cinema has only recently been established in Film and Media Studies. Furthermore, so far, attention has focused on Hollywood and European cinema in this regard. Reading sound from other world cinemas, particularly those from the global South, remains underexplored. As India is currently the world's largest producer of films with a formidable global presence, this book bridges the gap with a collection of interviews, introducing leading film industry sound practitioners from the subcontinent. The book examines historical developments from the advent of the talkies to present-day digital cinema productions, providing an embodied understanding of the unique Indian film sound world with new perspectives on cinematic narration in the practitioner's own words.

  The Film Cheat Murray Pomerance,2020-10-15 Murray Pomerance, venerated film scholar, is the first to take on the 'cheat' in film, where 'cheating' constitutes a collection of production, performance, and structuring

maneuvers intended to foster the impression of a screen reality that does not exist as presented. This usually calls for a suspension of disbelief in the viewer, but that rests on the assumption that disbelief is problematic for viewership, and that we must find some way to "suspend" or "disconnect" it in order to allow for the entertainment of the fiction in its own terms. The Film Cheat explores forty-five aspects of the 'cheat,' analyzing classic films such as Singin' in the Rain and Chinatown, to more contemporary films like The Revenant and Baby Driver, with Pomerance engaging his encyclopedic knowledge of film history to point out numerous instances of suspensions of disbeliefs. Whether or not Gene Kelly is actually dancin' in the rain, or if Elliott is really flying on his bicycle carrying E.T., these cheats are what make movie magic. Elegantly weaving the narrative for one to dip into at random or to read from cover to cover, Pomerance turns things upside down so that the audience actually finds pleasure in the cheat itself, pleasure in the disbelief. To see the elegant fake, the supremely accomplished simulacrum is a pleasure in its own right, indeed one of the fundamental pleasures of cinema.

  The Sound of Music Story Tom Santopietro,2015-02-17 On March 2, 1965, The Sound of Music was released in the United States and the love affair between moviegoers and the classic Rodgers and Hammerstein musical was on. Rarely has a film captured the love and imagination of the moviegoing public in the way that The Sound of Music did as it blended history, music, Austrian location filming, heartfelt emotion and the yodeling of Julie Andrews into a monster hit. Now, Tom Santopietro has written the ultimate Sound of Music fan book

with all the inside dope from behind the scenes stories of the filming in Austria and Hollywood to new interviews with Johannes von Trapp and others. Santopietro looks back at the real life story of Maria von Trapp, goes on to chronicle the sensational success of the Broadway musical, and recounts the story of the near cancellation of the film when the Cleopatra bankrupted 20th Century Fox. We all know that Julie Andrews and Christopher Plummer played Maria and Captain Von Trapp, but who else had been considered? Tom Santopietro knows and will tell all while providing a historian's critical analysis of the careers of director Robert Wise and screenwriter Ernest Lehman, a look at the critical controversy which greeted the movie, the film's relationship to the turbulent 1960s and the super stardom which engulfed Julie Andrews. Tom Santopietro's The Story of 'The Sound of Music' is book for everyone who cherishes this American classic.

The Sounds of Social Space Paul Kendall,2019-01-31 A giant statue of a six-pipe musical instrument stands in the heart of Kaili city. Yet despite its prominent placement, intended to convey the essence of the city, residents hold extremely low opinions of music-making in Kaili, particularly when compared to the "authentic" music found in surrounding ethnic minority villages. In this engaging, accessible work, author Paul Kendall investigates this conundrum and comes to terms with conflicting representations of a small southwestern Chinese city branded "the homeland of one hundred festivals." Drawing on Henri Lefebvre's triad of social space, the book explores the relationship between Kaili's branding, built environment, and everyday life: how China's post-Mao built environment hinders and hides everyday music-making, even in a tourist destination for ethnic music; how residents themselves deny or downplay the existence of ethnic music in the city, despite the government's efforts to promote it; how amateur musicians have constructed generational hierarchies of musical practice within a shifting cityscape. Kendall argues that increased focus on the small city helps counter a tendency to conceive China as either timeless village or futuristic metropolis and enables a more comprehensive understanding of the urban experience, both in China and beyond. He shows that many Kaili inhabitants recognize not only a rural-urban divide—long a dominant geographical notion of China—but also a more complex conceptualization of village, small city, and big city. By interweaving theories of authenticity with an innovative interpretation of space, Kendall shows how the category of "fake" minority emerged from this small city as a surprisingly positive form of self-identification, suggesting that there are ways of not being ethnic, even in often-exoticized southwest China. The Sounds of Social Space makes a

distinctive contribution across a range of disciplinary interests, including Chinese studies, urban studies, anthropology, and ethnomusicology.

   The Commitments Nessa Johnston,2021-11-23 This book examines The Commitments (Parker, 1991) for the first time as a film, rather than an adaptation of Roddy Doyle's bestselling novel, and as a significant cultural event in 1990s Ireland. A major hit in Ireland and around the world, the film depicts the short-lived attempts of an ensemble of young working-class Dubliners to achieve success as a soul covers band, playing the hits of Aretha Franklin, Otis Redding, and others, on a mission to 'bring soul back to Dublin'. Drawing upon interviews with key figures involved in the film and its music, including Roddy Doyle, Angeline Ball, and Bronagh Gallagher, as well as archival research of director Alan Parker's papers, the book explores questions of authenticity associated with youth, music, class, and culture, and assesses the film's legacy for the Irish film industry, Irish music scenes, and Irish youth. It also examines the film's status as a truly transnational production. This concise, yet interdisciplinary case study will be of interest to students and researchers in popular music, cultural studies, and sociology, as well as film and media studies.
