Faking It Toby Walsh,2023-11-02 'Refreshingly clear-eyed ... Faking It is an insightful and intelligent book that's a must for those looking for facts about AI hype.' – Books+Publishing 'AI will be as big a game-changer as the smart phone and the personal computer – or bigger! This book will help you navigate the revolution.' – Dr Karl Kruszelnicki Artificial intelligence is, as the name suggests, artificial and fundamentally different to human intelligence. Yet often the goal of AI is to fake human intelligence. This deceit has been there from the very beginning. We've been trying to fake it since Alan Turing answered the question 'Can machines think?' by proposing that machines pretend to be humans. Now we are starting to build AI that truly deceives us. Powerful AIs such as ChatGPT can convince us they are intelligent and blur the distinction between what is real and what is simulated. In reality, they lack true understanding, sentience and common sense. But this doesn't mean they can't change the world. Can AI systems ever be creative? Can they be moral? What can we do to ensure they are not harmful? In this fun and fascinating book, Professor Toby Walsh explores all the ways AI fakes it, and what this means for humanity – now and in the future.

Fake News Gaurav Sood,2023-11-30 The news is a public good and needs to be handled with care and integrity. Even though lies and misinformation campaigns have been around for years—maybe since the dawn of journalism—the rate at which fake news is being spread these days is both alarming and preposterous. Almost every institution—public or private—uses fake news to further its own agenda. Governments and corporate houses spread fake news either through their own agencies or by influencing the popular media. In the business sector, fake news manifests itself in the form of exaggerated company returns and false data. This book analyses the impact of fake news both on products and personalities. Foregrounded in rigorous research, it examines how fake news is used by companies, political parties, and leaders to create, amplify, and even tarnish a brand's image and equity. It emphasizes how the customers' perception of a brand impacts and influences its reputation, and acts as a decisive force in them gaining or losing

competitive advantages. Elucidating how brands can interact both directly and indirectly with fake news, it brings to the readers' notice how sometimes brands are the victims of fake news and other times, the purveyors.

Who Faked the "World's Oldest Bible"? David W. Daniels, 2021-07-09 If the devil has cooked up a plot against your Bible, would you want to know it? Conspiracy theories are destroyed by solid evidence. Author David W. Daniels came to the point where he could no longer ignore the mounting evidence. He was schooled in Bible college and seminary to believe that the King James was hopelessly obsolete. But the mounting confusion around the new Bible translations left him wondering. He already knew how to use modern search techniques to quickly discover relevant evidence. He soon learned that the Bible version issue was more than a baseless conspiracy. Many new facts had become available shedding light on the history of Bible versions. He learned that the scholars who decided over 100 years ago to "fix" the King James may not have had the best intentions. His discovery of Satan's plan to damage God's words is chronicled in a series of books. In 2017, his book, *Is the 'World's Oldest Bible' a Fake?* presented heavy evidence against Codex Sinaiticus, the manuscript that scholars claim is the world's oldest Bible. This book attempts to answer the next question: Who Faked the "World's Oldest Bible"? It reads like a mystery novel, but over 100 illustrations and more than 300 footnotes gives it the force of a graduate research paper. The murky narrative of the discovery and evaluation of the Sinaiticus becomes much clearer with this new book. Daniels leaves it up to the reader to decide how this might affect his or her eternal destiny.

Fake It Jennifer Byrne, 2012-10-18 No one is perfect—but everyone can fake it Let's get real. At one point or another, every woman has had to fake it—how else would we get everything done in a mere twenty-four hours? *Fake It* makes all those time-sucking tasks—such as doing the laundry, baking a homemade dessert for a school fundraiser, and maintaining a socially acceptable level of personal hygiene—seem effortless. With more than 100 shortcuts and wonderfully constructed white lies, you'll be able to fake it all, including: An immaculate bathroom when the in-laws visit Flawless skin for that big night out Liking a crappy dinner at a friend's house A tidy car on carpool day Knowing the answer to your client's question And yes, of course, faking an orgasm So whether you're asked for your opinion about a stomach-turning outfit, really not feeling it in bed, or just too tired to clean the house, *Fake It* will give you the foolproof advice you need to get through all of life's situations.

Is The "World's Oldest Bible" A Fake? David W. Daniels, 2018-01-09 Modern research techniques have revealed a hidden scheme aimed at God's Holy Words... Modern Bibles have changed many verses because of the discovery of an ancient manuscript in a monastery on the Sinai Peninsula. The manuscript, called Sinaiticus, is claimed to be the earliest complete copy of the New Testament. Its discoverer, who was a world leading Bible scholar in his time, told the world Sinaiticus was from the 4th century and that it was the oldest and best Bible available. Publishers rushed to make new Bibles with many changes to match it. But not everyone agreed. When this famed 19th century Bible scholar, Constantine Von Tischendorf, claimed the ancient date, a well-known Greek calligrapher said, No! I made that document! But why did no one believe him? Maybe it's because pages of the manuscript were stored where no one could view them, archived in exclusive collections across several continents. Now, an international group has carefully photographed each page of Sinaiticus and is displaying it on the internet as high-quality digital images. For the first time, Bible scholars and students can see the entire manuscript together, as was never possible before. And what they are seeing with their own eyes is shocking. Some of the pages are white and look quite new, while others have been darkened to make them look very old. If they are all from the same old Bible, how can this be? Researcher David W. Daniels proves with easy-to-understand evidence that

the Sinaiticus is not the oldest manuscript and certainly not the best, either. He is also convincing in showing it's not old after all and that the Greek calligrapher did make it, in the 19th century. The textual (and doctrinal) changes in modern Bibles are based upon a fake—a shadowy scheme worthy of Satan's hatred for the preserved words of God.

The Rhetoric of the Roman Fake Irene Peirano, 2012-08-16 Previous scholarship on classical pseudepigrapha has generally aimed at proving issues of attribution and dating of individual works, with little or no attention paid to the texts as literary artefacts. Instead, this book looks at Latin fakes as sophisticated products of a literary culture in which collaborative practices of supplementation, recasting and role-play were the absolute cornerstones of rhetorical education and literary practice. Texts such as the *Catalepton*, the *Consolatio ad Liviam* and the *Panegyricus Messallae* thus illuminate the strategies whereby Imperial audiences received and interrogated canonical texts and are here explored as key moments in the Imperial reception of Augustan authors such as Virgil, Ovid and Tibullus. The study of the rhetoric of these creative supplements irreverently mingling truth and fiction reveals much not only about the neighbouring concepts of fiction, authenticity and reality, but also about the tacit assumptions by which the latter are employed in literary criticism.

Fake Identity? Caroline Rosenthal, Stefanie Schäfer, 2014-05-15 In North America, imposture narratives of all kinds from ethnic

impersonation to confidence games abound because the socio-cultural history and national mythologies of the US and Canada are an especially fertile ground for the invention of identities, whether fake or real. When discovered, imposture incites fascination and scandal--yet it also showcases how identities are made. Fake identities thus are a negative lens through which the performance of selves become obvious. The essays in this book examine both real and fictional imposture with a special interest in identity performance and in the cultural value attributed to authenticity in Western culture. The North American impostor narrative helps contextualise and historicize how selves are made, from the narrator of colonial travelogues to postmodernist author/narrator voices, from the urban con game to trickster shamanism.

Fighting Fake News Jeffrey D. Wilhelm, Michael W. Smith, Hugh Kesson, Deborah Appleman, 2023-02-21 Critical thinking and online reading need to go hand in hand—but they often don't. Students click, swipe, and believe because they don't know how to do otherwise. At times, so do we. And that's a problem. Fighting Fake News combats this challenge by helping you model how to read, myth-bust, truth-test, and respond in ways that lead to wisdom rather than reactivity. No matter what content you teach, the lessons showcased here provide engaging, collaborative reading and discussion experiences so students can: Notice how teacher and peers read digital content, to be mindful of how various reading pathways influence perception Identify the author background, the website sponsor, and other evidence that help set a piece in context Stress-test the facts by evaluating news sources, reading laterally, and other critical reading strategies Use Reader's Rules of Notice to learn to identify common rhetorical devices used to influence the reader Be aware of how for-profit social media platforms feed on our responses to narrow rather than widen our reading landscape We are still in the wild west era of the digital age, scrambling to impart a safer, ethical framework for evaluating information. Thankfully, it distills to one mission: teach students (and ourselves) how to think critically, and we will forever have the tools to fight fake news.

Misinformation and Fake News in Education Panayiota Kendeou, Daniel H. Robinson, Matthew T. McCrudden, 2019-09-01 Today, like no other time in our history, the threat of misinformation and disinformation is at an all-time high. This is also true in the field of Education. Misinformation refers to false information shared by a source who intends to inform, but is unaware that the information is false, such as when an educator who recommends the use of a learning strategy that is not actually beneficial. Disinformation is false information shared by a source who has the intent to deceive and is aware that the information is false, such as when a politician claim that high-stakes testing will fix K-12 education when in fact there is no evidence to support this practice. This book provides recent examples of how misinformation and disinformation manifest in the field of education and remedies. Section One, Susceptibility to Misinformation, focuses on factors that influence the endorsement and persistence of misinformation. This section will include chapters on: the appeal and persistence of "zombie concepts" in education; learner and message factors that underlie the adoption of misinformation in the context of the newly proposed Likelihood of Adoption Model; cognitive and motivational factors that contribute to misinformation revision failure; cognitive biases and bias transfer in criminal justice training; the influence of conspiratorial and political ideation on the use of misinformation; and, how educational culture and policy has historically given rise to quackery in education. Section Two, Practices in the Service of Reducing Misinformation in Education, focuses on practices aimed at reducing the impact of misinformation, and includes chapters on: misinformation in the education of children with ASD and its influence on educational and intervention practices; the promise of using dynamical systems and computational linguistics to model

the spread of misinformation; systematic attempts to reduce misinformation in psychology and education both in and out of the classroom; and the potential perils of constructivism in the classroom, as well as the teaching of critical thinking. Each section has a discussion chapter that explicates emerging themes and lessons learned and fruitful avenues for future research.

Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World Dalkir, Kimiz,Katz, Rebecca,2020-02-28 In the current day and age, objective facts have less influence on opinions and decisions than personal emotions and beliefs. Many individuals rely on their social networks to gather information thanks to social media's ability to share information rapidly and over a much greater geographic range. However, this creates an overall false balance as people tend to seek out information that is compatible with their existing views and values. They deliberately seek out "facts" and data that specifically support their conclusions and classify any information that contradicts their beliefs as "false news." *Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World* is a collection of innovative research on human and automated methods to deter the spread of misinformation online, such as legal or policy changes, information literacy workshops, and algorithms that can detect fake news dissemination patterns in social media. While highlighting topics including source credibility, share culture, and media literacy, this book is ideally designed for social media managers, technology and software developers, IT specialists, educators, columnists, writers, editors, journalists, broadcasters, newscasters, researchers, policymakers, and students.

Fake News Is Bad News Ján Višňovský,Jana Radošinská,2021-09-08 We live in the era of the digital revolution characterized by easy access to obtaining, processing and disseminating information on a global scale. The emergence of these global digital spaces has transformed the world of communication. This shift in our understanding of what we should be informed about, when and how, manifests itself not only within mature liberal democracies, which grant their citizens and the media constitutionally guaranteed freedom of speech and rights associated with obtaining information, but also within developing countries with different types of political establishments. Moreover, many media producers, especially journalists and persons claiming to be journalists, abuse their

crucial mission and, instead, foster a set of serious communication phenomena that threaten basic human rights and freedoms, weaken them or decelerate their development. The publication is focused on the ways fake news, disinformation, misinformation and hateful statements are spread across society, predominantly within the online environment. Its main ambition is to offer an interdisciplinary body of scholarly knowledge on fake news, disinformation and propaganda in relation to today's journalism, social development, political situation and cultural affairs happening all around the world.

Real or Fake Joe Nickell, 2009-07-17 The man who is "the embodiment of the Mythbusters, Sherlock Holmes, and Richard Feynman" weeds out the treasures from the shams in artifact investigations (Michael Shermer, founding publisher of Skeptic magazine). Detailing how the pros determine whether an Abraham Lincoln signature is forged or if a photograph of Emily Dickinson is genuine, Nickell, a leader in forgery detection and forensic investigation, provides the essential tools necessary to identify counterfeits. In this general introduction to the principles of authentication, Nickell provides readers with step-by-step explanations of the science used to detect falsified documents, photographs, and other objects, illustrating methods used on hit shows such as Antiques Roadshow and History Detectives. Including fascinating cases drawn from Nickell's illustrious career, Real or Fake combines historical and scientific investigations to reveal reproductions and genuine objects. Nickell explains the warning signs of forgery, such as patching and unnatural pen lifts; chronicles the evolution of writing instruments, inks, and papers; shows readers how to date photographs, papers, and other materials; and traces the development of photographic processes since the mid-nineteenth century. Lavishly illustrated with examples of replicas and authentic objects inspected by Nickell, Real or Fake includes case studies of alleged artifacts including Jack the Ripper's diary, a draft of the Gettysburg Address, notes by Charles Dickens, Jefferson Davis's musket, and debris from the Titanic. "An expert on antique ink and paper, and the forensic analysis of historic documents." —The New Yorker "Nickell advocates a multifaceted approach that looks at provenance, content, material composition, and scientific analysis." —Maine Antique Digest
